Subject: Proposal for a regulation of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation)

Delegations find attached a revised version of the draft General Data Protection Regulation. This version seeks to take account of the discussions on the draft Regulation that took place in the Working Party on Information Exchange and Data Protection under the Lithuanian Presidency. All changes made to the original Commission proposal are underlined text, or, where text has been deleted, indicated by (...) . Where existing text has been moved, this text is indicated in italics. The most recent changes are marked in bold undertilining.
ANNEX

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on the protection of individuals with regard to the processing of personal
data and on the free movement of such data (General Data Protection
Regulation)

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN
UNION,

Having regard to the Treaty on the Functioning of the European Union, and in
particular Article 16(2) (...) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

After consulting the European Data Protection Supervisor²,

Acting in accordance with the ordinary legislative procedure,

¹ OJ C, p. .
² OJ C p. .
Whereas:

1) The protection of natural persons in relation to the processing of personal data is a fundamental right. Article 8(1) of the Charter of Fundamental Rights of the European Union and Article 16(1) of the Treaty lay down that everyone has the right to the protection of personal data concerning him or her.

2) The (...) principles and rules on the protection of individuals with regard to the processing of their personal data should, whatever the nationality or residence of natural persons, respect their fundamental rights and freedoms, notably their right to the protection of personal data. It should contribute to the accomplishment of an area of freedom, security and justice and of an economic union, to economic and social progress, the strengthening and the convergence of the economies within the internal market, and the well-being of individuals.

3) Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data seeks to harmonise the protection of fundamental rights and freedoms of natural persons in respect of processing activities and to guarantee the free flow of personal data between Member States.

3a) The right to the protection of personal data is not an absolute right; it must be considered in relation to its function in society and be balanced with other fundamental rights, in accordance with the principle of proportionality. This Regulation respects all fundamental rights and observes the principles recognised in the Charter of Fundamental Rights of the European Union as enshrined in the Treaties, notably the right to respect for private and family life, home and communications, the right to the protection of personal data, the freedom of thought, conscience and religion, the freedom of expression and information, the freedom to conduct a business, the right to an effective remedy and to a fair trial as well as cultural, religious and linguistic diversity.

4) The economic and social integration resulting from the functioning of the internal market has led to a substantial increase in cross-border flows. The exchange of data between (...) public and private individuals and undertakings across the Union has increased. National authorities in the Member States are being called upon by Union law to co-operate and exchange personal data so as to be able to perform their duties or carry out tasks on behalf of an authority in another Member State.

5) Rapid technological developments and globalisation have brought new challenges for the protection of personal data. The scale of data sharing and collecting has increased spectacularly. Technology allows both private companies and public authorities to make use of personal data on an unprecedented scale in order to pursue their activities. Individuals increasingly make personal information available publicly and globally. Technology has transformed both the economy and social life, and should further facilitate the free flow of data within the Union and the transfer to third countries and international organisations, while ensuring a high level of the protection of personal data.

6) These developments require the construction of a strong and more coherent data protection framework in the Union, backed by strong enforcement, given the importance of creating the trust that will allow the digital economy to develop across the internal market. Individuals should have control of their own personal data and legal and practical certainty for individuals, economic operators and public authorities should be reinforced.
The objectives and principles of Directive 95/46/EC remain sound, but it has not prevented fragmentation in the way data protection is implemented across the Union, legal uncertainty and a widespread public perception that there are significant risks for the protection of individuals associated notably with online activity. Differences in the level of protection of the rights and freedoms of individuals, notably to the right to the protection of personal data, with regard to the processing of personal data afforded in the Member States may prevent the free flow of personal data throughout the Union. These differences may therefore constitute an obstacle to the pursuit of economic activities at the level of the Union, distort competition and impede authorities in the discharge of their responsibilities under Union law. This difference in levels of protection is due to the existence of differences in the implementation and application of Directive 95/46/EC.

In order to ensure a consistent and high level of protection of individuals and to remove the obstacles to flows of personal data within the Union, the level of protection of the rights and freedoms of individuals with regard to the processing of such data should be equivalent in all Member States. Consistent and homogenous application of the rules for the protection of the fundamental rights and freedoms of natural persons with regard to the processing of personal data should be ensured throughout the Union.

Effective protection of personal data throughout the Union requires strengthening and detailing the rights of data subjects and the obligations of those who process and determine the processing of personal data, but also equivalent powers for monitoring and ensuring compliance with the rules for the protection of personal data and equivalent sanctions for offenders in the Member States.

Article 16(2) of the Treaty mandates the European Parliament and the Council to lay down the rules relating to the protection of individuals with regard to the processing of personal data and the rules relating to the free movement of personal data.
In order to ensure a consistent level of protection for individuals throughout the Union and to prevent divergences hampering the free movement of data within the internal market, a Regulation is necessary to provide legal certainty and transparency for economic operators, including micro, small and medium-sized enterprises, and to provide individuals in all Member States with the same level of legally enforceable rights and obligations and responsibilities for controllers and processors, to ensure consistent monitoring of the processing of personal data, and equivalent sanctions in all Member States as well as effective co-operation by the supervisory authorities of different Member States. The proper functioning of the internal market requires that the free movement of personal data within the Union should not be restricted or prohibited for reasons connected with the protection of individuals with regard to the processing of personal data. To take account of the specific situation of micro, small and medium-sized enterprises, this Regulation includes a number of derogations. In addition, the Union institutions and bodies, Member States and their supervisory authorities are encouraged to take account of the specific needs of micro, small and medium-sized enterprises in the application of this Regulation. The notion of micro, small and medium-sized enterprises should draw upon Commission Recommendation 2003/361/EC of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises.

The protection afforded by this Regulation concerns natural persons, whatever their nationality or place of residence, in relation to the processing of personal data. With regard to the processing of data which concern legal persons and in particular undertakings established as legal persons, including the name and the form of the legal person and the contact details of the legal person, the protection of this Regulation should not be claimed by any such person. This should also apply where the name of the legal person contains the names of one or more natural persons.
13) The protection of individuals should be technologically neutral and not depend on the techniques used; otherwise this would create a serious risk of circumvention. The protection of individuals should apply to processing of personal data by automated means as well as to manual processing, if the data are contained or are intended to be contained in a filing system. Files or sets of files as well as their cover pages, which are not structured according to specific criteria, should not fall within the scope of this Regulation.

14) This Regulation does not address issues of protection of fundamental rights and freedoms or the free flow of data related to activities which fall outside the scope of Union law, such as activities concerning national security, taking into account Articles 3 to 6 of the Treaty on the Functioning of the European Union (...) nor does it cover the processing of personal data by the Member States when carrying out activities in relation to the common foreign and security policy of the Union.

14a) Regulation (EC) No 45/2001 applies to the processing of personal data by the Union institutions, bodies, offices and agencies. Regulation (EC) No 45/2001 and other Union legal instruments applicable to such processing of personal data should be adapted to the principles and rules of this Regulation.

15) This Regulation should not apply to processing of personal data by a natural person in the course of a personal or household activity, and thus without a connection with a professional or commercial activity. Personal and household activities include social networking and on-line activity undertaken within the context of such personal and household activities. However, this Regulation should (...) apply to controllers or processors which provide the means for processing personal data for such personal or domestic activities.

---

16) The protection of individuals with regard to the processing of personal data by competent authorities for the purposes of prevention, investigation, detection or prosecution of criminal offences, and, for these purposes, the maintenance of public order, or the execution of criminal penalties and the free movement of such data, is subject of a specific legal instrument at Union level. Therefore, this Regulation should not apply to the processing activities for those purposes. However, data processed by public authorities under this Regulation when used for the purposes of prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties should be governed by the more specific legal instrument at Union level (Directive XX/YYY).

When processing of personal data by (...) private bodies falls within the scope of this Regulation, this Regulation should provide for the possibility for Member States under specific conditions to restrict by law certain obligations and rights when such a restriction constitutes a necessary and proportionate measure in a democratic society to safeguard specific important interests including public security and the prevention, investigation, detection and prosecution of criminal offences. This is relevant for instance in the framework of anti-money laundering or the activities of forensic laboratories.

16a) While this Regulation applies also to the activities of courts and other judicial authorities, Union or Member State law could, within the limits of this Regulation, specify the processing operations and processing procedures in relation to the processing of personal data by courts and other judicial authorities. The competence of the supervisory authorities should not cover the processing of personal data when courts are acting in their judicial capacity, in order to safeguard the independence of judges in the performance of their judicial tasks.
17) Directive 2000/31/EC does not apply to questions relating to information society services covered by this Regulation. That Directive seeks to contribute to the proper functioning of the internal market by ensuring the free movement of information society services between Member States. Its application should not be affected by this Regulation. This Regulation should therefore be without prejudice to the application of Directive 2000/31/EC, in particular of the liability rules of intermediary service providers in Articles 12 to 15 of that Directive.

18) This Regulation allows the principle of public access to official documents to be taken into account when applying the provisions set out in this Regulation. Public access to official documents may be considered as a public interest. Personal data in documents held by a public authority or a public body may be publicly disclosed by this authority or body if the disclosure is provided for by Union law or Member State law to which the public authority or public body is subject. Such laws should reconcile the interest of public access to official documents with the right to the protection of personal data.

19) Any processing of personal data in the context of the activities of an establishment of a controller or a processor in the Union should be carried out in accordance with this Regulation, regardless of whether the processing itself takes place within the Union or not. Establishment implies the effective and real exercise of activity through stable arrangements. The legal form of such arrangements, whether through a branch or a subsidiary with a legal personality, is not the determining factor in this respect.
20) In order to ensure that individuals are not deprived of the protection to which they are entitled under this Regulation, the processing of personal data of data subjects residing in the Union by a controller not established in the Union should be subject to this Regulation where the processing activities are related to the offering of goods or services to such data subjects irrespective of whether connected to a payment or not, or to the monitoring of the behaviour of such data subjects, which takes place in the Union. In order to determine whether such a controller is offering goods or services to such data subjects in the Union, it should be ascertained whether it is apparent that the controller is envisaging doing business with data subjects residing in one or more Member States in the Union. Whereas the mere accessibility of the controller’s or an intermediary’s website in the Union or of an email address and of other contact details or the use of a language generally used in the third country where the controller is established, is insufficient to ascertain such intention, factors such as the use of a language or a currency generally used in one or more Member States with the possibility of ordering goods and services in that other language, and/or the mentioning of customers or users residing in the Union, may make it apparent that the controller envisages offering goods or services to such data subjects in the Union, or to the monitoring of the behaviour of such data subjects.

21) The processing of personal data of data subjects residing in the Union by a controller not established in the Union should also be subject to this Regulation when it is related to the monitoring of their behaviour taking place within the European Union. In order to determine whether a processing activity can be considered to ‘monitor the behaviour’ of data subjects, it should be ascertained whether individuals are tracked on the internet with data processing techniques which consist of profiling an individual, particularly in order to take decisions concerning her or him or for analysing or predicting her or his personal preferences, behaviours and attitudes.
22) Where the national law of a Member State applies by virtue of public international law, this Regulation should also apply to a controller not established in the Union, such as in a Member State's diplomatic mission or consular post.

23) The principles of data protection should apply to any information concerning an identified or identifiable natural person. To determine whether a person is identifiable, account should be taken of all the means reasonably likely to be used either by the controller or by any other person to identify the individual directly or indirectly. To ascertain whether means are reasonable likely to be used to identify the individual, account should be taken of all objective factors, such as the costs of and the amount of time required for identification, taking into consideration both available technology at the time of the processing and technological development. The principles of data protection should therefore not apply to anonymous information, that is information which does not relate to an identified or identifiable natural person or to data rendered anonymous in such a way that the data subject is not or no longer identifiable. This Regulation does therefore not concern the processing of such anonymous information, including for statistical and research purposes. The principles of data protection should not apply to deceased persons.
24) When using online services, individuals may be associated with online identifiers provided by their devices, applications, tools and protocols, such as Internet Protocol addresses or cookie identifiers. This may leave traces which, when combined with unique identifiers and other information received by the servers, may be used to create profiles of the individuals and identify them. Identification numbers, location data, online identifiers or other specific factors as such should not (...) be considered as personal data (...) if they do not identify an individual or make an individual identifiable

5 DE reservation. ES, EE and IT also queried as regard the status of so-called identifiers. AT and SI thought the last sentence of the recital should be deleted. UK questioned whether so-called identifiers which were never used to trace back to a data subject should also be considered as personal data and hence subjected to the Regulation. It suggested stating that these can constitute personal data, but this will depend on the context. UK suggests deleting the words 'provided by their devices, applications, tools and protocols, such as Internet Protocol addresses or cookie identifiers' and 'received by the servers'. It also suggests deleting 'need not necessarily be considered as personal data in all circumstances ' and replacing it by 'can constitute personal data, but this will depend on the context'. COM referred to the ECJ case law (Scarlett C-70/10) according to which IP addresses should be considered as persona data if they actually could lead to the identification of data subjects. DE queried who would in practice be responsible for such metadata.
25) Consent should be given unambiguously by any appropriate method enabling a freely-given, specific and informed indication of the data subject's wishes, either by a written, oral or other statement or by a clear affirmative action by the data subject signifying his or her agreement to personal data relating to him or her being processed. This could include ticking a box when visiting an Internet website or any other statement or conduct which clearly indicates in this context the data subject's acceptance of the proposed processing of their personal data. Silence or inactivity should therefore not constitute consent. Where it is technically feasible and effective, the data subject's consent to processing may be given by using the appropriate settings of a browser or other application. Consent should cover all processing activities carried out for the same purpose or purposes. When the processing has multiple purposes, unambiguous consent should be granted for all of the processing purposes. If the data subject's consent is to be given following an electronic request, the request must be clear, concise and not unnecessarily disruptive to the use of the service for which it is provided.

25a) Genetic data should be defined as personal data relating to the genetic characteristics of an individual which have been inherited or acquired as they result from an analysis of a biological sample from the individual in question, in particular by chromosomal, deoxyribonucleic acid (DNA) or ribonucleic acid (RNA) analysis or analysis of any other element enabling equivalent information to be obtained.
26) Personal data relating to health should include in particular (…) data pertaining to the health status of a data subject which are intended to reveal information which relates to the past, current or future physical or mental health of the data subject; information about the registration of the individual for the provision of health services (…); a number, symbol or particular assigned to an individual to uniquely identify the individual for health purposes; (…) information derived from the testing or examination of a body part or bodily substance, including genetic data and biological samples; (…) or any information on for example a disease, disability, disease risk, medical history, clinical treatment, or the actual physiological or biomedical state of the data subject independent of its source, such as for example from a physician or other health professional, a hospital, a medical device, or an in vitro diagnostic test.

27) The main establishment of a controller in the Union should be determined according to objective criteria and should imply the effective and real exercise of management activities determining the main decisions as to the purposes (…) and means of processing through stable arrangements. This criterion should not depend on whether the processing of personal data is actually carried out at that location; the presence and use of technical means and technologies for processing personal data or processing activities do not, in themselves, constitute such main establishment and are therefore not determining criteria for a main establishment. The main establishment of the processor should be the place of its central administration in the Union and, if it has no central administration in the Union, the place where the main processing activities take place in the Union.

Where the processing is carried out by a group of undertakings, the main establishment of the controlling undertaking should be considered as the main establishment of the group of undertakings, except where the purposes and means of processing are determined by another undertaking.

---

6 BE proposal.
28) A group of undertakings should cover a controlling undertaking and its controlled undertakings, whereby the controlling undertaking should be the undertaking which can exercise a dominant influence over the other undertakings by virtue, for example, of ownership, financial participation or the rules which govern it or the power to have personal data protection rules implemented.

29) Children deserve specific protection of their personal data, as they may be less aware of risks, consequences, safeguards and their rights in relation to the processing of personal data. (…)7.

30) Any processing of personal data should be lawful and fair. It should be transparent for the individuals that personal data concerning them are collected, used, consulted or otherwise processed and to which extent the data are processed or will be processed. The principle of transparency requires that any information and communication relating to the processing of those data should be easily accessible and easy to understand, and that clear and plain language is used. This concerns in particular the information of the data subjects on the identity of the controller and the purposes of the processing and further information to ensure fair and transparent processing in respect of the individuals concerned and their right to get confirmation and communication of personal data being processed concerning them.

Individuals should be made aware on risks, rules, safeguards and rights in relation to the processing of personal data and how to exercise his or her rights in relation to the processing. In particular, the specific purposes for which the data are processed should be explicit and legitimate and determined at the time of the collection of the data. The data should be adequate and relevant (…) for the purposes for which the data are processed; this requires in particular ensuring that the data collected are not excessive and that the period for which the data are stored is limited to a strict minimum. (…).

7 COM reservation on deletion of the reference to the UN Convention on the Rights of the Child.
Every reasonable step should be taken to ensure that personal data which are inaccurate are rectified or deleted. In order to ensure that the data are not kept longer than necessary, time limits should be established by the controller for erasure or for a periodic review. **Personal data should be processed in a manner that ensures appropriate security and confidentiality of the personal data, including for preventing unauthorised access to or the use of personal data and the equipment used for the processing.**

31) In order for processing to be lawful, personal data should be processed on the basis of the consent of the person concerned or some other legitimate legal basis laid down by law, either in this Regulation or in other Union or Member State law as referred to in this Regulation, including the necessity for compliance with legal obligation to which the controller is subject or the necessity for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract. *Whereas it does not necessarily require a legislative act adopted by a parliament, the law should be clear and precise and its application foreseeable for those subject to them as required by the case law of the Court of Justice of the European Union*.

32) Where processing is based on the data subject's consent, the controller should be able to demonstrate that the data subject has given the consent to the processing operation. In particular in the context of a written declaration on another matter, safeguards should ensure that the data subject is aware that, and the extent to which, consent is given.

33) For consent to be informed, the data subject should be aware at least of the identity of the controller and the purposes of the processing for which the personal data are intended; consent should not be regarded as freely-given if the data subject has no genuine and free choice and is unable to refuse or withdraw consent without detriment.

---

8 BE proposal.
34) In order to safeguard that consent has been freely-given, consent should not provide a valid legal ground for the processing of personal data in a specific case where there is a clear imbalance between the data subject and the controller and this imbalance makes it unlikely that consent was given freely in all the circumstances of that specific situation. (…)

35) Processing should be lawful where it is necessary in the context of a contract or the intended entering into a contract.

36) Where processing is carried out in compliance with a legal obligation to which the controller is subject or where processing is necessary for the performance of a task carried out in the public interest or in the exercise of an official authority, the processing should have a (…) basis in Union law or in the national law of a Member State. (…). It should be also for Union or national law to determine the purpose of the processing. Furthermore, this (…). basis could, within the limits of this Regulation, determine specifications for determining the controller, the type of data which are subject to the processing, the data subjects concerned, the entities to which the data may be disclosed, the purpose limitations, the storage period and other measures to ensure lawful and fair processing. It should also be for Union or national law to determine whether the controller performing a task carried out in the public interest or in the exercise of official authority should be a public authority or another natural or legal person governed by public law, or by private law such as a professional association, where grounds of public interest so justify including for health purposes, such as public health and social protection and the management of health care services.
37) The processing of personal data should equally be regarded as lawful where it is necessary to protect an interest which is essential for the data subject's life or that of another person.

38) The legitimate interests of a controller including of a controller to which the data may be disclosed may provide a legal basis for processing, provided that the interests or the fundamental rights and freedoms of the data subject are not overriding. This would need careful assessment including whether a data subject can expect at the time and in the context of the collection of the data that processing for this purpose may take place. In particular such assessment must take into account whether the data subject is a child, given that children deserve specific protection. The data subject should have the right to object to the processing, on grounds relating to their particular situation and free of charge. To ensure transparency, the controller should be obliged to explicitly inform the data subject on the legitimate interests pursued and on the right to object, and also be obliged to document these legitimate interests. Given that it is for Union or national law to provide (…) the (…) basis for public authorities to process data, this legal ground should not apply for the processing by public authorities in the exercise of their public duties.

39) The processing of data to the extent strictly necessary for the purposes of ensuring network and information security, i.e. the ability of a network or an information system to resist, at a given level of confidence, accidental events or unlawful or malicious actions that compromise the availability, authenticity, integrity and confidentiality of stored or transmitted data, and the security of the related services offered by, or accessible via, these networks and systems, by public authorities, Computer Emergency Response Teams – CERTs, Computer Security Incident Response Teams – CSIRTs, providers of electronic communications networks and services and by providers of security technologies and services, constitutes a legitimate interest of the data controller concerned. This could, for example, include preventing unauthorised access to electronic communications networks and malicious code distribution and stopping ‘denial of service’ attacks and damage to computer and electronic communication systems.
The processing of personal data to the extent strictly necessary for the purposes of preventing and monitoring fraud also constitutes a legitimate interest of the data controller concerned. A legitimate interest of a controller could include the processing of personal data for the purposes of anonymising or pseudonymising personal data. The processing of personal data for direct marketing purposes can be regarded as carried out for a legitimate interest.

40) The processing of personal data for other purposes should be only allowed where the processing is compatible with those purposes for which the data have been initially collected, in particular where the processing is necessary for historical, statistical or scientific (...) purposes. In order to ascertain whether a purpose of further processing is compatible with the purpose for which the data are initially collected, the controller should take into account any link between those purposes and the purposes of the intended further processing, the context in which the data have been collected, including the reasonable expectations of the data subject as to their further use, the nature of the personal data, the consequences of the intended further processing for data subjects, and appropriate safeguards. Where the intended other purpose is not compatible with the initial one for which the data are collected, the controller should obtain the consent of the data subject for this other purpose or should base the processing on another legitimate ground for lawful processing, in particular where provided by Union law or the law of the Member State to which the controller is subject. In any case, the application of the principles set out by this Regulation and in particular the information of the data subject on those other purposes should be ensured. Further processing of personal data should be prohibited if the processing is not compatible with a legal, professional or other binding obligation of secrecy.
41) Personal data which are, by their nature, particularly sensitive (…) in relation to fundamental rights and freedoms, deserve specific protection as the context of their processing may create important risks for the fundamental rights and freedoms. These data should also include personal data revealing racial or ethnic origin, whereby the use of the term ‘racial origin’ in this Regulation does not imply an acceptance by the European Union of theories which attempt to determine the existence of separate human races. Such data should not be processed, unless processing is allowed in specific cases set out in this Regulation. In addition to the specific requirements for such processing, the general principles and other rules of this Regulation should apply, in particular as regards the conditions for lawful processing. Derogations from the general prohibition for processing such special categories of personal data should be explicitly be provided for where the data subject gives his or her explicit consent or in respect of specific needs, in particular where the processing is carried out in the course of legitimate activities by certain associations or foundations the purpose of which is to permit the exercise of fundamental freedoms.

42) Derogating from the prohibition on processing sensitive categories of data should also be allowed if done by a law, and subject to suitable safeguards, so as to protect personal data and other fundamental rights, where important grounds of public interest so justify and in particular for health purposes, including public health and social protection and the management of health-care services, especially in order to ensure the quality and cost-effectiveness of the procedures used for settling claims for benefits and services in the health insurance system, or for historical, statistical and scientific (…) purposes. A derogation should also allow processing of such data where necessary for the establishment, exercise or defence of legal claims, regardless of whether in a judicial procedure or whether in an administrative or any out-of-court procedure.

---

9 BE proposal.
43) Moreover, the processing of personal data by official authorities for achieving aims, laid down in constitutional law or international public law, of officially recognised religious associations is carried out on grounds of public interest.

44) Where in the course of electoral activities, the operation of the democratic system requires in a Member State that political parties compile data on people's political opinions, the processing of such data may be permitted for reasons of public interest, provided that appropriate safeguards are established.

45) If the data processed by a controller do not permit the controller to identify a natural person, for example by processing pseudonymous data, the data controller should not be obliged to acquire additional information in order to identify the data subject for the sole purpose of complying with any provision of this Regulation. (...) However, the controller should not refuse to take information provided by the data subject supporting the exercise of his or her rights.

46) The principle of transparency requires that any information addressed to the public or to the data subject should be easily accessible and easy to understand, and that clear and plain language is used. This information could be provided in electronic form, for example, when addressed to the public, through a website. This is in particular relevant where in situations, such as online advertising, the proliferation of actors and the technological complexity of practice makes it difficult for the data subject to know and understand if personal data relating to them are being collected, by whom and for what purpose. Given that children deserve specific protection, any information and communication, where processing is addressed (...) to a child, should be in such a clear and plain language that the child can easily understand.
Modalities should be provided for facilitating the data subject’s exercise of their rights provided by this Regulation, including mechanisms to request, (...) in particular access to data, rectification, erasure and to exercise the right to object. Thus the controller should also provide means for requests to be made electronically, especially where personal data are processed by electronic means. The controller should be obliged to respond to requests of the data subject within a fixed deadline and give reasons where the controller does not intend to comply with the data subject's request.

The principles of fair and transparent processing require that the data subject should be informed (...) of the existence of the processing operation and its purposes (...). The controller should provide the data subject with any further information necessary to guarantee fair and transparent processing. Furthermore the data subject should be informed about the existence of profiling, and the consequences of such profiling. Where the data are collected from the data subject, the data subject should also be informed whether they are obliged to provide the data and of the consequences, in cases they do not provide such data.

The information in relation to the processing of personal data relating to the data subject should be given to them at the time of collection, or, where the data are not collected from the data subject, within a reasonable period, depending on the circumstances of the case. Where data can be legitimately disclosed to another recipient, the data subject should be informed when the data are first disclosed to the recipient. Where the origin of the data could not be provided to the data subject because various sources have been used, the information should be provided in a general manner.
50) However, it is not necessary to impose this obligation where the data subject already possesses this information, or where the recording or disclosure of the data is expressly laid down by law, or where the provision of information to the data subject proves impossible or would involve disproportionate efforts. The latter could be particularly the case where processing is for historical, statistical or scientific (…) purposes; in this regard, the number of data subjects, the age of the data, and any appropriate safeguards adopted may be taken into consideration.

51) A natural person should have the right of access to data which has been collected concerning him or her, and to exercise this right easily and at reasonable intervals, in order to be aware of and verify the lawfulness of the processing. This includes the right for individuals to have access to their personal data concerning their health, for example the data in their medical records containing such information as diagnosis, examination results, assessments by treating physicians and any treatment or interventions provided. Every data subject should therefore have the right to know and obtain communication in particular for what purposes the data are processed, where possible for what period, which recipients receive the data, what is the logic involved in any automatic data processing and what might be, at least when based on profiling, the consequences of such processing. This right should not adversely affect the rights and freedoms of others, including trade secrets or intellectual property and in particular the copyright protecting the software. However, the result of these considerations should not be that all information is refused to the data subject. Where the controller processes a large quantity of information concerning the data subject, the controller may request that before the information is delivered the data subject specify to which information or to which processing activities the request relates.

52) The controller should use all reasonable measures to verify the identity of a data subject who requests access, in particular in the context of online services and online identifiers. (…) A controller should not retain personal data for the sole purpose of being able to react to potential requests.
53) A natural person should have the right to have personal data concerning them rectified and a 'right to be forgotten' where the retention of such data is not in compliance with this Regulation. In particular, data subjects should have the right that their personal data are erased and no longer processed, where the data are no longer necessary in relation to the purposes for which the data are collected or otherwise processed, where data subjects have withdrawn their consent for processing or where they object to the processing of personal data concerning them or where the processing of their personal data otherwise does not comply with this Regulation. This right is in particular relevant, when the data subject has given their consent as a child, when not being fully aware of the risks involved by the processing, and later wants to remove such personal data especially on the Internet. However, the further retention of the data should be allowed where it is necessary for historical, statistical and scientific (…) purposes, for reasons of public interest in the area of public health, for exercising the right of freedom of expression, when required by law or where there is a reason to restrict the processing of the data instead of erasing them.

54) To strengthen the 'right to be forgotten' in the online environment, the right to erasure should also be extended in such a way that a controller who has made the personal data public should be obliged to inform the controllers which are processing such data that a data subject requests them to erase any links to, or copies or replications of that personal data. To ensure this information, the controller should take (…) reasonable steps, taking into account available technology and the means available to the controller, including technical measures, in relation to data for the publication of which the controller is responsible. (…)
54a) Methods to restrict processing of personal data could include, inter alia, temporarily moving the selected data to another processing system or making the selected data unavailable to users or temporarily removing published data from a website. In automated filing systems the restriction of processing of personal data should in principle be ensured by technical means; the fact that the processing of personal data is restricted should be indicated in the system in such a way that it is clear that the processing of the personal data is restricted.

55) To further strengthen the control over their own data and their right of access, data subjects should have the right, where personal data are processed by electronic means and in a structured and commonly used format, to obtain a copy of the data concerning them also in commonly used electronic format. The data subject should also be allowed to transmit those data, which they have provided, from one automated application (...) into another one. This should apply where the data subject provided the data to the automated processing system, based on their consent or in the performance of a contract. The right to transmit the data into another automated processing system should not imply the erasure of personal data which have been provided by the data subject for the performance of a contract, to the extent and as long as the data are necessary for the performance of that contract. By its very nature this right cannot be exercised against controllers processing data in the exercise of their public duties.

56) In cases where personal data might lawfully be processed (...) on grounds of (...) the legitimate interests of a controller, any data subject should nevertheless be entitled to object to the processing of any data relating to them. It should be for the controller to demonstrate that their legitimate interests may override the interests or the fundamental rights and freedoms of the data subject.
Where personal data are processed for the purposes of direct marketing, the data subject should have the right to object to such processing free of charge and in a manner that can be easily and effectively invoked.

Every data subject should have the right not to be subject to a decision which is based on profiling (…). However, such profiling should be allowed when expressly authorised by Union or Member State law, including for fraud monitoring and prevention purposes and to ensure the security and reliability of a service provided by the controller, or carried out in the course of entering or performance of a contract between the data subject and a controller, or when the data subject has given his consent. In any case, such processing should be subject to suitable safeguards, including specific information of the data subject and the right to obtain human intervention (…). Profiling for direct marketing purposes or based on special categories of personal data should only be allowed under specific conditions.

Restrictions on specific principles and on the rights of information, access, rectification and erasure or on the right to data portability, the right to object, measures based on profiling, as well as on the communication of a personal data breach to a data subject and on certain related obligations of the controllers may be imposed by Union or Member State law, as far as necessary and proportionate in a democratic society to safeguard public security, including the protection of human life especially in response to natural or man made disasters, the prevention, investigation and prosecution of criminal offences or of breaches of ethics for regulated professions, other public interests of the Union or of a Member State, in particular an important economic or financial interest of the Union or of a Member State, or the protection of the data subject or the rights and freedoms of others, including social protection and public health. Those restrictions should be in compliance with requirements set out by the Charter of Fundamental Rights of the European Union and by the European Convention for the Protection of Human Rights and Fundamental Freedoms.

---

10 BE proposal.
The responsibility and liability of the controller for any processing of personal data carried out by the controller or on the controller's behalf should be established. In particular, the controller should (…) be obliged to implement appropriate measures and be able to demonstrate the compliance of (…) processing activities with this Regulation, such as keeping a record, implementing technical and organisational measures for ensuring an appropriate level of security or performing a data protection impact assessment. These measures should take into account the nature, scope, context and purposes of the processing and the risks for the rights and freedoms of data subjects. Such risks, of varying likelihood or severity, are presented by data processing which could lead to physical, material or moral damage, in particular:

- where the processing may give rise to discrimination, identity theft or fraud, financial loss, damage of reputation, loss of confidentiality of data protected by professional secrecy, or any other significant economic or social disadvantage; or
- where data subjects might be deprived of their rights and freedoms or from exercising control over their personal data;
- where personal data are processed which reveal racial or ethnic origin, political opinions, religion or philosophical beliefs, trade-union membership, and the processing of genetic data or data concerning health or sex life or criminal convictions and offences or related security measures;
- where personal aspects are evaluated, in particular analysing and prediction of aspects concerning performance at work, economic situation, health, personal preferences or interests, reliability or behaviour, location or movements, in order to create or use personal profiles;
Where personal data of vulnerable individuals, in particular of children, are processed;
where processing involves a large amount of personal data and affects a large number of data subjects.

60a. Where the processing is likely to represent specific risks for the rights and freedoms of data subjects, the controller [or processor] should carry out, prior to the processing an assessment of the impact of the envisaged processing operations on the protection of personal data.

60b. Where personal data are processed on behalf of the controller, the implementation of such measures should include in particular use only of a processor providing sufficient guarantees to implement appropriate technical and organisational measures.

60c. Guidance for the implementation of such measures by the controller [or processor], especially as regards the identification of the risks, their assessment in terms of their origin, nature, likelihood and severity, and the identification of best practices to mitigate the risks, could be provided in particular by approved codes of conduct, approved certifications, guidelines of the European Data Protection Board or through the designation of a data protection officer or, where a data protection impact assessment indicates that processing operations involve a high degree of specific risks, through consultation of the supervisory authority prior to the processing.

61) The protection of the rights and freedoms of data subjects with regard to the processing of personal data require that appropriate technical and organisational measures are taken to ensure that the requirements of this Regulation are met. In order to be able to demonstrate compliance with this Regulation, the controller should adopt internal policies and implement appropriate measures, which meet in particular the principles of data protection by design and data protection by default.
62) The protection of the rights and freedoms of data subjects as well as the responsibility and liability of controllers and processor, also in relation to the monitoring by and measures of supervisory authorities, requires a clear attribution of the responsibilities under this Regulation, including where a controller determines the purposes (…) and means of the processing jointly with other controllers or where a processing operation is carried out on behalf of a controller.

63) Where a controller not established in the Union is processing personal data of data subjects residing in the Union whose processing activities are related to the offering of goods or services to such data subjects, or to the monitoring their behaviour in the Union, the controller should designate a representative, unless the controller is established in a third country ensuring an adequate level of protection, or the controller is a small or medium sized enterprise unless the processing it carries out involves specific risks for the rights and freedoms of data subjects, having regard to the nature, scope and purposes of the processing or is a public authority or body (…). The representative should act on behalf of the controller and may be addressed by any supervisory authority.

The representative should be explicitly designated by a written mandate of the controller to act on its behalf with regard to the latter's obligations under this Regulation. The designation of such representative does not affect the responsibility and liability of the controller under this Regulation. Such representative should perform its tasks according to the received mandate from the controller, including to cooperate with the competent supervisory authorities on any action taken in ensuring compliance with this Regulation. The designated representative should be subjected to enforcement actions in case of non-compliance of the controller.
64) (…).

(64a) In order to enhance compliance with this Regulation in cases where the processing operations are likely to present specific risks for the rights and freedoms of data subjects, the controller [or the processor] should be responsible for the carrying out of a data protection impact assessment to evaluate, in particular, the origin, nature, likelihood and severity of these risks. The outcome of the assessment should be taken into account when determining the (…) appropriate measures to be taken in order to demonstrate that the processing of personal data is in compliance with this Regulation.

65) In order to demonstrate compliance with this Regulation, the controller or processor should maintain records regarding all categories of processing activities under its responsibility. Each controller and processor should be obliged to co-operate with the supervisory authority and make these records, on request, available to it, so that it might serve for monitoring those processing operations.

66) In order to maintain security and to prevent processing in breach of this Regulation, the controller or processor should evaluate the specific risks inherent to the processing and implement measures to mitigate those risks. These measures should ensure an appropriate level of security, including confidentiality, taking into account available technology and the costs of (…) implementation in relation to the risks and the nature of the personal data to be protected. (…).
A personal data breach may, if not addressed in an adequate and timely manner, result in severe material or moral harm to individuals such as loss of control over their personal data or the limitation of their rights, discrimination, identity theft or fraud, financial loss, damage of reputation, loss of confidentiality of data protected by professional secrecy or any other economic or social disadvantage to the individual concerned. Therefore, as soon as the controller becomes aware that (…), a personal data breach has occurred which may result in severe material or moral harm the controller should notify the breach to the supervisory authority without undue delay and, where feasible, within 72 hours. Where this cannot be achieved within 72 hours, an explanation of the reasons for the delay should accompany the notification. The individuals whose personal data could be severely affected by the breach should be notified without undue delay in order to allow them to take the necessary precautions. A breach should be considered as severely affecting the personal data or privacy of a data subject where it could result in, for example, identity theft or fraud, physical harm, significant humiliation or damage to reputation. The notification should describe the nature of the personal data breach as well as recommendations for the individual concerned to mitigate potential adverse effects. Notifications to data subjects should be made as soon as reasonably feasible, and in close cooperation with the supervisory authority and respecting guidance provided by it or other relevant authorities (e.g. law enforcement authorities). For example (…) to mitigate an immediate risk of harm would call for a prompt notification of data subjects whereas the need to implement appropriate measures against continuing or similar data breaches may justify a longer delay.
68) In order to determine whether a personal data breach is notified to the supervisory authority and to the data subject without undue delay, the controller must ascertain whether all appropriate technological protection and organisational measures have been implemented to establish immediately whether a personal data breach has taken place and to inform promptly the supervisory authority and the data subject, before a damage to personal and economic interests occurs, taking into account in particular the nature and gravity of the personal data breach and its consequences and adverse effects for the data subject.

(68a) The communication of a personal data breach to the data subject should not be required if the controller has implemented appropriate technological protection measures, and that those measures were applied to the data affected by the personal data breach. Such technological protection measures should include those that render the data unintelligible to any person who is not authorised to access it, in particular by encrypting the personal data and using pseudonymous data.

69) In setting detailed rules concerning the format and procedures applicable to the notification of personal data breaches, due consideration should be given to the circumstances of the breach, including whether or not personal data had been protected by appropriate technical protection measures, effectively limiting the likelihood of identity fraud or other forms of misuse. Moreover, such rules and procedures should take into account the legitimate interests of law enforcement authorities in cases where early disclosure could unnecessarily hamper the investigation of the circumstances of a breach.
70) Directive 95/46/EC provided for a general obligation to notify processing of personal data to the supervisory authorities. While this obligation produces administrative and financial burdens, it did not in all cases contribute to improving the protection of personal data. Therefore such indiscriminate general notification obligations should be abolished, and replaced by effective procedures and mechanisms which focus instead on those processing operations which are likely to present specific risks to the rights and freedoms of data subjects by virtue of their nature, their scope or their purposes (…). In such cases, a data protection impact assessment should be carried out by the controller (…) prior to the processing in order to assess the severity and likelihood of these specific risks, taking into account the nature, scope and purposes of the processing and the sources of the risks, which should include in particular the envisaged measures, safeguards and mechanisms for ensuring the protection of personal data and for demonstrating the compliance with this Regulation.

71) This should in particular apply to newly established large scale processing operations, which aim at processing a considerable amount of personal data at regional, national or supranational level and which could affect a large number of data subjects.

72) There are circumstances under which it may be sensible and economic that the subject of a data protection impact assessment should be broader than a single project, for example where public authorities or bodies intend to establish a common application or processing platform or where several controllers plan to introduce a common application or processing environment across an industry sector or segment or for a widely used horizontal activity.
73) Data protection impact assessments may be carried out by a public authority or public body if such an assessment has not already been made in the context of the adoption of the national law on which the performance of the tasks of the public authority or public body is based and which regulates the specific processing operation or set of operations in question.

74) Where a data protection impact assessment indicates that the processing is likely to present, despite the envisaged safeguards, security measures and mechanisms to mitigate the risks, a high degree of specific risks to the rights and freedoms of data subjects, such as excluding individuals from their rights or giving rise to unlawful or arbitrary discrimination, substantial identity theft, significant financial loss, significant damage of reputation or any other significant economic or social damage, or by the use of specific new technologies, the supervisory authority should be consulted, prior to the start of the processing activities. The supervisory authority should give advice where the envisaged processing might not be in compliance with this Regulation. The supervisory authority should respond to the request for consultation in a defined period (…). However, the absence of a reaction of the supervisory authority within this period should be without prejudice to any intervention of the supervisory authority in accordance with its duties and powers laid down in this Regulation. Such consultation should equally take place in the course of the preparation of a legislative or regulatory measure which provide for the processing of personal data and which may significantly affect categories of data subjects by virtue of the nature, scope or purposes of such processing.
75) Where the processing is carried out in the public sector or where, in the private sector, processing is carried out by a large enterprise, or where its core activities, regardless of the size of the enterprise, involve processing operations which require regular and systematic monitoring, a person with expert knowledge of data protection law and practices may assist the controller or processor to monitor internal compliance with this Regulation. Such data protection officers, whether or not an employee of the controller, should be in a position to perform their duties and tasks in an independent manner.

76) Associations or other bodies representing categories of controllers or processors should be encouraged to draw up codes of conduct, within the limits of this Regulation, so as to facilitate the effective application of this Regulation, taking account of the specific characteristics of the processing carried out in certain sectors and the specific needs of micro, small and medium enterprises. In particular such codes of conduct could calibrate the obligations of controllers and processors, taking into account the risks inherent to the processing for the rights and freedoms of data subjects.

76a) When drawing up a code of conduct, or when amending or extending such a code, associations and other bodies representing categories of controllers or processors should consult with relevant stakeholders, including data subjects where feasible, and have regard to submissions received and views expressed in response to such consultations.

77) In order to enhance transparency and compliance with this Regulation, the establishment of certification mechanisms, data protection seals and marks should be encouraged, allowing data subjects to quickly assess the level of data protection of relevant products and services.
Cross-border flows of personal data to and from countries outside the Union and international organisations are necessary for the expansion of international trade and international co-operation. The increase in these flows has raised new challenges and concerns with respect to the protection of personal data. However, when personal data are transferred from the Union to third countries or to international organisations, the level of protection of individuals guaranteed in the Union by this Regulation should not be undermined, including in cases of onward transfers of personal data from the third country or international organisation to another third country or international organisation. In any event, transfers to third countries and international organisations may only be carried out in full compliance with this Regulation. A transfer may only take place if, subject to the other provisions of this Regulation, the conditions laid down in Chapter V are complied with by the controller or processor.

This Regulation is without prejudice to international agreements concluded between the Union and third countries regulating the transfer of personal data including appropriate safeguards for the data subjects.

The Commission may, having obtained and taken the utmost account of the opinion of the European Data Protection Board, decide with effect for the entire Union that certain third countries, or a territory or a processing sector within a third country, or an international organisation, offer an adequate level of data protection, thus providing legal certainty and uniformity throughout the Union as regards the third countries or international organisations which are considered to provide such level of protection. In these cases, transfers of personal data to these countries may take place without needing to obtain any specific authorisation.
In line with the fundamental values on which the Union is founded, in particular the protection of human rights, the Commission should, in its assessment of the third country, take into account how a given third country respects the rule of law, access to justice as well as international human rights norms and standards and its general and sectoral law, including legislation concerning public security, defence and national security as well as public order and criminal law. **Apart from the international commitments the third country or international organisation has entered into, the Commission should also take account of participation in a suitable international data protection system established in third countries or a territory or a processing sector**\(^{11}\).

The Commission may equally recognise that a third country, or a territory or a processing sector within a third country, or an international organisation (…) no longer ensures an adequate level of data protection. Consequently the transfer of personal data to that third country or international organisation should be prohibited, unless the requirements of Articles 42 to 44 are fulfilled. In that case, provision should be made for consultations between the Commission and such third countries or international organisations. **The Commission should, in a timely manner, inform the third country or international organisation of the reasons and enter into consultations with it in order to remedy the situation.**\(^{12}\).

\(^{11}\) DE proposes that the list of checks in Article 42(2) should include a new component consisting of the participation of third states or international organisations in international data-protection systems (e.g. APEC and ECOWAS). Although those systems are still in the early stages of practical implementation, the draft Regulation should make allowance right away for the significance they may gain in future. Point (d) of Article 41(2) requires the systems to be fundamentally suited to ensuring compliance with data protection standards.

\(^{12}\) Further to DE proposal. COM scrutiny reservation.
83) In the absence of an adequacy decision, the controller or processor should take measures to compensate for the lack of data protection in a third country by way of appropriate safeguards for the data subject. Such appropriate safeguards may consist of making use of binding corporate rules, standard data protection clauses adopted by the Commission, standard data protection clauses adopted by a supervisory authority or contractual clauses authorised by a supervisory authority, or other suitable and proportionate measures justified in the light of all the circumstances surrounding a data transfer operation or set of data transfer operations and where authorised by a supervisory authority. Those safeguards should ensure compliance with data protection requirements and the rights of the data subjects, including the right to obtain effective administrative or judicial redress. They should relate in particular to compliance with the general principles relating to personal data processing, the availability of data subject’s rights and effective legal remedies are available and the principles of data protection by design and by default.\(^{13}\)

84) The possibility for the controller or processor to use standard data protection clauses adopted by the Commission or by a supervisory authority should neither prevent the possibility for controllers or processors to include the standard data protection clauses in a wider contract, including in a contract between the processor and another processor, nor to add other clauses or additional safeguards as long as they do not contradict, directly or indirectly, the standard contractual clauses adopted by the Commission or by a supervisory authority or prejudice the fundamental rights or freedoms of the data subjects.

\(^{13}\) Further to DE and NL proposal.
85) A corporate group or a group of enterprises engaged in a joint economic activity should be able to make use of approved binding corporate rules for its international transfers from the Union to organisations within the same corporate group of undertakings or group of enterprises, as long as such corporate rules include essential principles and enforceable rights to ensure appropriate safeguards for transfers or categories of transfers of personal data.

86) Provisions should be made for the possibility for transfers in certain circumstances where the data subject has given his consent, where the transfer is necessary in relation to a contract or a legal claim, regardless of whether in a judicial procedure or whether in an administrative or any out-of-court procedure, including procedures before regulatory bodies. Provision should also be made for the possibility for transfers where important grounds of public interest laid down by Union or Member State law so require or where the transfer is made from a register established by law and intended for consultation by the public or persons having a legitimate interest. In this latter case such a transfer should not involve the entirety of the data or entire categories of the data contained in the register and, when the register is intended for consultation by persons having a legitimate interest, the transfer should be made only at the request of those persons or if they are to be the recipients.
87) These **rules** should in particular apply to data transfers required and necessary for the protection of (...) **reasons** of public interest, for example in cases of international data **exchange, either spontaneous or on request**, between competition authorities, **between** tax or customs administrations, **between** financial supervisory authorities, between services competent for social security matters or for public health, or **between** competent authorities for the prevention, investigation, detection and prosecution of criminal offences, including for the prevention of money laundering and the fight against terrorist financing. A transfer of personal data should equally be regarded as lawful where it is necessary to protect an interest which is essential for the data subject’s or another person’s life, if the data subject is incapable of giving consent.

88) Transfers which cannot be qualified as **large scale or frequent**, could also be possible for the purposes of the legitimate interests pursued by the controller or the processor, when **those interests are not overridden by the interests or rights and freedoms of the data subject and when the controller or the processor has assessed all the circumstances surrounding the data transfer.** For the purposes of processing for historical, statistical and scientific research purposes, the legitimate expectations of society for an increase of knowledge should be taken into consideration. **To assess whether a transfer is large scale or frequent the amount of personal data and number of data subjects should be taken into account and whether the transfer takes place on an occasional or regular basis.**

89) In any case, where the Commission has taken no decision on the adequate level of data protection in a third country, the controller or processor should make use of solutions that provide data subjects with a guarantee that they will continue to benefit from the fundamental rights and safeguards as regards processing of their data in the Union once this data has been transferred.

---

14 EE scrutiny reservation.
90) Some third countries enact laws, regulations and other legislative instruments which purport to directly regulate data processing activities of natural and legal persons under the jurisdiction of the Member States. The extraterritorial application of these laws, regulations and other legislative instruments may be in breach of international law and may impede the attainment of the protection of individuals guaranteed in the Union by this Regulation. Transfers should only be allowed where the conditions of this Regulation for a transfer to third countries are met. This may inter alia be the case where the disclosure is necessary for an important ground of public interest recognised in Union law or in a Member State law to which the controller is subject. (…).

91) When personal data moves across borders outside the Union it may put at increased risk the ability of individuals to exercise data protection rights in particular to protect themselves from the unlawful use or disclosure of that information. At the same time, supervisory authorities may find that they are unable to pursue complaints or conduct investigations relating to the activities outside their borders. Their efforts to work together in the cross-border context may also be hampered by insufficient preventative or remedial powers, inconsistent legal regimes, and practical obstacles like resource constraints. Therefore, there is a need to promote closer cooperation among data protection supervisory authorities to help them exchange information and carry out investigations with their international counterparts. For the purposes of developing international co-operation mechanisms to facilitate and provide international mutual assistance for the enforcement of legislation for the protection of personal data, the Commission and the supervisory authorities should exchange information and cooperate in activities related to the exercise of their powers with competent authorities in third countries, based on reciprocity and in compliance with the provisions of this Regulation, including those laid down in Chapter V.
The establishment of supervisory authorities in Member States, empowered to perform their duties and exercise their functions with complete independence, is an essential component of the protection of individuals with regard to the processing of their personal data. Member States may establish more than one supervisory authority, to reflect their constitutional, organisational and administrative structure.

The independence of supervisory authorities should not mean that the supervisory authorities cannot be subjected to control or monitoring mechanism regarding their financial expenditure. Neither does it imply that supervisory authorities cannot be subjected to judicial review.

Where a Member State establishes several supervisory authorities, it should establish by law mechanisms for ensuring the effective participation of those supervisory authorities in the consistency mechanism. That Member State should in particular designate the supervisory authority which functions as a single contact point for the effective participation of those authorities in the mechanism, to ensure swift and smooth co-operation with other supervisory authorities, the European Data Protection Board and the Commission.

Each supervisory authority should be provided with the necessary financial and human resources, premises and infrastructure, which are necessary for the effective performance of their tasks, including for the tasks related to mutual assistance and co-operation with other supervisory authorities throughout the Union. Each supervisory authority should have a separate annual budget, which may be part of the overall state or national budget.

Text proposed in order to accommodate concerns raised by delegations that the wording of Article 47 would prevent this type of actions with regard to the supervisory authorities.
The general conditions for the member or members of the supervisory authority should be laid down by law in each Member State and should in particular provide that those members should be either appointed by the parliament and/or the government or the head of State of the Member State or by an independent body entrusted by Member State law with the appointment by means of a transparent procedure. In order to ensure the independence of the supervisory authority, the member or members should refrain from any action incompatible with their duties and should not, during their term of office, engage in any incompatible occupation, whether gainful or not. They should behave, after their term of office, with integrity and discretion as regards the acceptance of appointments and benefits.

While this Regulation applies also to the activities of national courts, the competence of the supervisory authorities should not cover the processing of personal data when courts are acting in their judicial capacity, in order to safeguard the independence of judges in the performance of their judicial tasks (...), in accordance with national law.

In order to ensure consistent monitoring and enforcement of this Regulation throughout the Union, the supervisory authorities should have in each Member State the same duties and effective powers, including powers of investigation, legally binding intervention, decisions and sanctions, particularly in cases of complaints from individuals, and to engage in legal proceedings. Member States may determine other duties related to the protection of personal data under this Regulation. Investigative powers of supervisory authorities (...) should be exercised in conformity with Union law and national law. This concerns in particular the requirement to obtain a prior judicial authorisation.
98) Each supervisory authority should deal with complaints lodged by any data subject and should investigate the matter. The investigation following a complaint should be carried out, subject to judicial review, to the extent that is appropriate in the specific case. The supervisory authority should inform the data subject of the progress and the outcome of the complaint within a reasonable period. If the case requires further investigation or coordination with another supervisory authority, intermediate information should be given to the data subject.

Where the supervisory authority to which the complaint has been lodged is not the competent supervisory authority, the competent supervisory authority should closely co-operate with the supervisory authority to which the complaint has been lodged according to the provisions on co-operation and consistency laid down in this Regulation. In such cases, the competent supervisory authority should, when taking measures intended to produce legal effects, including the imposition of administrative fines, take utmost account of the view of the supervisory authority to which the complaint has been lodged and which should remain competent to carry out any investigation on the territory of its own Member State in liaison with the competent supervisory authority.

99) Awareness raising activities by supervisory authorities addressed to the public should include specific measures directed at controllers and processors, including micro, small and medium-sized enterprises, as well as data subjects.

100) The supervisory authorities should assist each other in performing their duties and provide mutual assistance, so as to ensure the consistent application and enforcement of this Regulation in the internal market.
101) Each supervisory authority should have the right to participate in joint operations between supervisory authorities. The requested supervisory authority should be obliged to respond to the request in a defined time period.

102) In order to ensure the consistent application of this Regulation throughout the Union, a consistency mechanism for co-operation between the supervisory authorities themselves and the Commission should be established. This mechanism should in particular apply where a supervisory authority intends to exercise its corrective powers as regards processing operations which substantially affect a significant number of data subjects in several Member States (...). It should also apply where any supervisory authority concerned or the Commission requests that such matter should be dealt with in the consistency mechanism. This mechanism should be without prejudice to any measures that the Commission may take in the exercise of its powers under the Treaties.

103) In application of the consistency mechanism, the European Data Protection Board should, within a determined period of time, issue an opinion, if a majority of its members so decides or if so requested by any supervisory authority concerned or the Commission.

104) (...)

105) There may be an urgent need to act in order to protect the rights and freedoms of data subjects, in particular when the danger exists that the enforcement of a right of a data subject could be considerably impeded. Therefore, a supervisory authority should be able to adopt provisional measures with a specified period of validity when applying the consistency mechanism.
106) The application of this mechanism should be a condition for the (…) enforcement of the (…) decision by a supervisory authority in those cases where its application is mandatory. In other cases of cross-border relevance, mutual assistance and joint operations might be carried out between the supervisory authorities concerned on a bilateral or multilateral basis without triggering the consistency mechanism.

107) At Union level, a European Data Protection Board should be set up. It should replace the Working Party on the Protection of Individuals with Regard to the Processing of Personal Data established by Directive 95/46/EC. It should consist of a head of a supervisory authority of each Member State and of the European Data Protection Supervisor. The Commission should participate in its activities without voting rights. The European Data Protection Board should contribute to the consistent application of this Regulation throughout the Union, including by advising the Commission and promoting co-operation of the supervisory authorities throughout the Union. The European Data Protection Board should act independently when exercising its tasks.
Every data subject should have the right to lodge a complaint with a supervisory authority, in particular in the Member State of his or her habitual residence, and have the right to an effective judicial remedy in accordance with Article 47 of the Charter of Fundamental Rights if the data subject considers that his or her rights under this Regulation are infringed or where the supervisory authority does not act on a complaint, partially or wholly rejects a complaint or does not act where such action is necessary to protect the rights of the data subject. The supervisory authority to which the complaint has been lodged shall deal with the complaint, to the extent appropriate, for example by clarifying the queries of the data subject. In case the supervisory authority to which the complaint has been lodged is not competent for the supervision of the controller or processor, it shall transmit the complaint without undue delay to the competent supervisory authority in another Member State.16

Where a data subject considers that his or rights under this Regulation are infringed, he or she should have the right to mandate a body, organisation or association which aims to protect the rights and interests of data subjects in relation to the protection of their data and is constituted according to the law of a Member State, to lodge a complaint on his or her behalf with a supervisory authority or exercise the right to a judicial remedy on behalf of data subjects. Such a body, organisation or association should have the right to lodge, independently of a data subject's complaint, a complaint where it has reasons to consider that a personal data breach referred to in Article 32(1) has occurred and Article 32(3) does not apply.

16 NL said that recital 111 was an important recital and that it depended on the context which DPA that should be competent, e.g. for labour law the SA of the habitual residence would be the most appropriate DPA.
113) Each natural or legal person should have the right to an effective judicial remedy against decisions of a supervisory authority concerning them. Proceedings against a supervisory authority should be brought before the courts of the Member State where the supervisory authority is established and shall be conducted in accordance with the national procedural law of that Member State. Those courts should exercise full jurisdiction which should include jurisdiction to examine all questions of fact and law relevant to the dispute before it.

114) (...) 

115) (...) 

116) For proceedings against a controller or processor, the plaintiff should have the choice to bring the action before the courts of the Member States where the controller or processor has an establishment or where the data subject resides, unless the controller is a public authority acting in the exercise of its public powers.

117) (...).

118) Any damage which a person may suffer as a result of unlawful processing should be compensated by the controller or processor, who may be exempted from liability if they prove that they are not responsible for the damage, in particular where he establishes fault on the part of the data subject or in case of force majeure. The concept of damage should be broadly interpreted in the light of the case law of the Court of Justice of the European Union in a manner which fully reflects the objectives of this Regulation. This is without prejudice to any claims for damage deriving from the violation of other rules in Union or Member State law.  

---

17 COM scrutiny reservation.
118a) Where specific rules on jurisdiction are contained in this Regulation, in particular as regards proceedings seeking a judicial remedy including compensation, against a controller or processor, general jurisdiction rules such as those of Regulation No 1215/2012 should not prejudice the application of such specific rules.

118b) In order to strengthen the enforcement of the rules of this Regulation, penalties and administrative fines may be imposed for any infringement of the Regulation, in addition to, or instead of appropriate measures imposed by the supervisory authority pursuant to this Regulation. The imposition of penalties and administrative fines should be subject to adequate procedural safeguards in conformity with general principles of Union law and the Charter of Fundamental Rights, including effective judicial protection and due process.

119) Member States may lay down the rules on criminal sanctions for infringements of this Regulation, including for infringements of national rules adopted pursuant to and within the limits of this Regulation. These criminal sanctions may also allow for the deprivation of the profits obtained through infringements of the Regulation. However, the imposition of criminal sanctions for infringements of such national rules and of administrative sanctions should not lead to the breach of the principle of ne bis in idem, as interpreted by the Court of Justice.

\[18\] COM and DE scrutiny reservation.
In order to strengthen and harmonise administrative sanctions against infringements of this Regulation, each supervisory authority should have the power to impose administrative fines. This Regulation should indicate offences, the upper limit and criteria for fixing the related administrative fines, which should be determined by the competent supervisory authority in each individual case, taking into account all relevant circumstances of the specific situation, with due regard in particular to the nature, gravity and duration of the breach and of its consequences and the measures taken to ensure compliance with the obligations under the Regulation and to prevent or mitigate the consequences of the infringement. The consistency mechanism may also be used to promote a consistent application of administrative sanctions. It should be for the Member States to determine whether and to which extent public authorities should be subject to administrative fines. Imposing an administrative fine or giving a warning does not affect the application of other powers of the supervisory authorities or of other sanctions under the Regulation.

Member States law should reconcile the rules governing freedom of expression, including journalistic, artistic and literary expression with the right to the protection of personal data pursuant to this Regulation, in particular as regards the general principles, the rights of the data subject, controller and processor obligations, the transfer of data to third countries or international organisations, the independent supervisory authorities and cooperation and consistency. In order to take account of the importance of the right to freedom of expression in every democratic society, it is necessary to interpret notions relating to that freedom, such as journalism, broadly. (…)

122) (...) **Special categories** of personal data which deserve higher protection, may **only be processed for health-related purposes where necessary to achieve those purposes** for the benefit of individuals and society as a whole, in particular in the context of the management of health-care services and ensuring continuity of health-care and cross-border healthcare. Therefore this Regulation should provide for harmonised conditions for the processing of **special categories** of personal data concerning health, **in respect of specific needs**, in particular where the processing of these data is carried out for certain health-related purposes by persons subject to a legal obligation of professional secrecy. Union or Member State law should **provide for specific and suitable measures** so as to protect the fundamental rights and the personal data of individuals. (...).

123) The processing of **special categories** personal data concerning health may be necessary for reasons of public interest in the areas of public health, without consent of the data subject. **This processing is subject to for suitable and specific measures so as to protect the rights and freedoms of individuals.** In that context, 'public health' should be interpreted as defined in Regulation (EC) No 1338/2008 of the European Parliament and of the Council of 16 December 2008 on Community statistics on public health and health and safety at work, meaning all elements related to health, namely health status, including morbidity and disability, the determinants having an effect on that health status, health care needs, resources allocated to health care, the provision of, and universal access to, health care as well as health care expenditure and financing, and the causes of mortality. Such processing of personal data concerning health for reasons of public interest should not result in personal data being processed for other purposes by third parties such as employers, insurance and banking companies.
The general principles on the protection of individuals with regard to the processing of personal data **and the other rules of this Regulation** should also **apply** to the employment context. Therefore, in order to regulate the processing of employees' personal data in the employment context, Member States should be able, within the limits of this Regulation, to adopt by law specific rules for the processing of personal data in the employment sector.

**Those specific rules should include safeguards for the rights and freedoms of employees in the employment context.**

**(124a) Member States should be authorised to adopt specific legislative rules for purposes of social protection, where public authorities or by bodies or associations carry out processing in the public interest for the purposes of social protection. These specific rules should particularise the conditions in accordance with the general principles and other rules of this Regulation, in particular as regards the conditions for lawful processing, and should provide specific and suitable measures to safeguard the rights and freedoms of the data subject. The purposes of social protection should include the purposes to ensure the quality and cost-effectiveness of the procedures used for settling claims for benefits and services in the health insurance system.**

**(124b) The processing of personal data for statistical purposes should not be considered incompatible with the purposes for which the data are initially collected and may be processed for those purposes for a longer period than necessary for that initial purpose, where the processing, subject to appropriate safeguards, is carried out by public authorities or public bodies performing tasks of official statistics in the public interest pursuant to Union or Member State law, including for health purposes. Such public authorities or public bodies should be services, which pursuant to Union or Member State law, have as their task to develop, produce and disseminate of official statistics.**
The confidential information which the Union and national statistical authorities collect for the production of official European and official national statistics should be protected. European statistics should be developed, produced and disseminated in conformity with the statistical principles as set out in Article 338(2) of the Treaty of the Functioning of the European Union, while national statistics should also comply with national statistical law. Union law or national law should, within the limits of this Regulation, determine statistical content, control of access, specifications for the processing of personal data for statistical purposes and appropriate measures to safeguard the rights and freedoms of the data subject and for guaranteeing statistical confidentiality.

---

The processing of personal data for the purposes of historical, statistical or scientific (...) purposes should, in addition to the general principles and specific rules of this Regulation, in particular as regards the conditions for lawful processing, also comply with respect other relevant legislation such as on clinical trials. The processing of personal data for historical, statistical and scientific purposes should not be considered incompatible with the purposes for which the data are initially collected and may be processed for those purposes for a longer period than necessary for that initial purpose, subject to specific safeguards and provided that the controller provides appropriate measures to safeguard the rights and freedoms of the data subject. Restrictions on the rights of information, access, rectification, erasure, restriction or on the right to data portability should apply only under specific conditions.

As regards archives, Council Resolution of 6 May 2003 on archives in the Member States stressed 'the importance of archives for the understanding of the history and culture of Europe’ and “that well-kept and accessible archives contribute to the democratic function of our societies'.

---

Processing of personal data for historical purposes should not be considered incompatible with the purpose for which the data are initially collected, for those purposes the data may be processed for a longer period than necessary for that initial purpose where the processing in archives, subject to appropriate safeguards, is carried out by public authorities or public bodies pursuant to Union or Member State law, including archives for public health purposes. Such public authorities or public bodies that hold records of public interest should be services which, pursuant to Union or Member State law, have as their main mission a legal obligation to acquire, preserve, appraise, arrange, describe, communicate, promote, disseminate and provide access to records of enduring value for general interest. Union or Member State law should determine archival content, control of access and appropriate safeguards, such as restricted access in cases where such access would or might affect the rights and freedoms of natural persons.

The historical purposes should also include research for genealogical purposes.

For the purposes of this Regulation, processing of personal data for scientific purposes should include fundamental research, applied research, and privately funded research and in addition should take into account the Union's objective under Article 179(1) of the Treaty on the Functioning of the European Union of achieving a European Research Area. Scientific purposes should also include studies conducted in the public interest in the area of public health.

Restrictions on the rights of information, access, rectification, erasure, restriction or on the right to data portability should apply only under specific conditions. In these cases, the controller should provide for appropriate measures to safeguard the rights and freedoms of the data subject. In particular the controller should ensure that the data are not used for taking measures or decisions regarding particular individuals. If the result of scientific research in particular in the health context gives reason for further measures in the interest of the data subject, the general rules of this Regulation apply in view of that processing.
127) As regards the powers of the supervisory authorities to obtain from the controller or processor access personal data and access to its premises, Member States may adopt by law, within the limits of this Regulation, specific rules in order to safeguard the professional or other equivalent secrecy obligations, in so far as necessary to reconcile the right to the protection of personal data with an obligation of professional secrecy.

128) This Regulation respects and does not prejudice the status under national law of churches and religious associations or communities in the Member States, as recognised in Article 17 of the Treaty on the Functioning of the European Union. As a consequence, where a church in a Member State applies, at the time of entry into force of this Regulation, comprehensive rules relating to the protection of individuals with regard to the processing of personal data, these existing rules should continue to apply if they are brought in line with this Regulation. Such churches and religious associations should be required to provide for the establishment of a completely independent supervisory authority.
In order to fulfil the objectives of this Regulation, namely to protect the fundamental rights and freedoms of natural persons and in particular their right to the protection of personal data and to ensure the free movement of personal data within the Union, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission. In particular, delegated acts should be adopted in respect of lawfulness of processing; specifying the criteria and conditions in relation to the consent of a child; processing of special categories of data; specifying the criteria and conditions for manifestly excessive requests and fees for exercising the rights of the data subject; criteria and requirements for the information to the data subject and in relation to the right of access; the right to be forgotten and to erasure; measures based on profiling; criteria and requirements in relation to the responsibility of the controller and to data protection by design and by default; a processor; criteria and requirements for the documentation and the security of processing; criteria and requirements for establishing a personal data breach and for its notification to the supervisory authority, and on the circumstances where a personal data breach is likely to adversely affect the data subject; the criteria and conditions for processing operations requiring a data protection impact assessment; the criteria and requirements for determining a high degree of specific risks which require prior consultation; designation and tasks of the data protection officer; codes of conduct; criteria and requirements for certification mechanisms; criteria and requirements for transfers by way of binding corporate rules; transfer derogations; administrative sanctions; processing for health purposes; processing in the employment context and processing for historical, statistical and scientific (…) purposes. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing-up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and Council.
In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission for: specifying standard forms in relation to the processing of personal data of a child; standard procedures and forms for exercising the rights of data subjects; standard forms for the information to the data subject; standard forms and procedures in relation to the right of access; the right to data portability; standard forms in relation to the responsibility of the controller to data protection by design and by default and to the documentation; specific requirements for the security of processing; the standard format and the procedures for the notification of a personal data breach to the supervisory authority and the communication of a personal data breach to the data subject; standards and procedures for a data protection impact assessment; forms and procedures for prior authorisation and prior consultation; technical standards and mechanisms for certification; the adequate level of protection afforded by a third country or a territory or a processing sector within that third country or an international organisation; disclosures not authorized by Union law; mutual assistance; joint operations; decisions under the consistency mechanism. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission’s exercise of implementing powers\(^{21}\). In this context, the Commission should consider specific measures for micro, small and medium-sized enterprises.

131) The examination procedure should be used for the adoption of specifying standard forms in relation to the consent of a child; standard procedures and forms for exercising the rights of data subjects; standard forms for the information to the data subject; standard forms and procedures in relation to the right of access; the right to data portability; standard forms in relation to the responsibility of the controller to data protection by design and by default and to the documentation; specific requirements for the security of processing; the standard format and the procedures for the notification of a personal data breach to the supervisory authority and the communication of a personal data breach to the data subject; standards and procedures for a data protection impact assessment; forms and procedures for prior authorisation and prior consultation; technical standards and mechanisms for certification; the adequate level of protection afforded by a third country or a territory or a processing sector within that third country or an international organisation; disclosures not authorized by Union law; mutual assistance; joint operations; decisions under the consistency mechanism, given that those acts are of general scope.

132) The Commission should adopt immediately applicable implementing acts where, in duly justified cases relating to a third country or a territory or a processing sector within that third country or an international organisation which does not ensure an adequate level of protection and relating to matters communicated by supervisory authorities under the consistency mechanism, imperative grounds of urgency so require.
133) Since the objectives of this Regulation, namely to ensure an equivalent level of protection of individuals and the free flow of data throughout the Union, cannot be sufficiently achieved by the Member States and can therefore, by reason of the scale or effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.

134) Directive 95/46/EC should be repealed by this Regulation. However, Commission decisions adopted and authorisations by supervisory authorities based on Directive 95/46/EC should remain in force.

135) This Regulation should apply to all matters concerning the protection of fundamental rights and freedom vis-à-vis the processing of personal data, which are not subject to specific obligations with the same objective set out in Directive 2002/58/EC, including the obligations on the controller and the rights of individuals. In order to clarify the relationship between this Regulation and Directive 2002/58/EC, the latter Directive should be amended accordingly.

136) (…)

137) (…)

138) (…)22.

139) (…)23

22 Recitals 136, 137 and 138 were deleted as this proposal is not Schengen relevant. COM scrutiny reservation on these deletions.

23 Former recital 139 was moved up to recital 3a so as to emphasise the importance of the fundamental rights dimension of data protection in connection with other fundamental rights.
HAVE ADOPTED THIS REGULATION:

CHAPTER I

GENERAL PROVISIONS

Article 1

Subject matter and objectives

1. This Regulation lays down rules relating to the protection of individuals with regard to the processing of personal data and rules relating to the free movement of personal data.24

2. This Regulation protects (...) fundamental rights and freedoms of natural persons and in particular their right to the protection of personal data.

3. The free movement of personal data within the Union shall neither be restricted nor prohibited for reasons connected with the protection of individuals with regard to the processing of personal data.25 26.

---

24 DE scrutiny reservation: DE thought that it was difficult to determine the applicability of EU data protection rules to the public sector according to internal market implications of the data processing operations.

25 DK, FR, NL, SI scrutiny reservation. FR thought that this paragraph, which was copied from the 1995 Data Protection Directive (1995 Directive 95/46), did not make sense in the context of a Regulation as this was directly applicable.

26 EE, FI, SE, and SI thought that the relation to other fundamental rights, such as the freedom of the press, or the right to information or access to public documents should be explicitly safeguarded by the operative part of the text of the Regulation. This is now regulated in Articles 80 and 80a of the draft Regulation.
**Article 2**

**Material scope**

1. This Regulation applies to the processing of personal data wholly or partly by automated means, and to the processing other than by automated means of personal data which form part of a filing system or are intended to form part of a filing system

2. This Regulation does not apply to the processing of personal data:
   
   (a) in the course of an activity which falls outside the scope of Union law (...);
   
   (b) (...);
   
   (c) by the Member States when carrying out activities which fall within the scope of Chapter 2 of Title V the Treaty on European Union;
   
   (d) by a natural person (...) in the course of (...) a personal or household activity;
   
   (e) by competent public authorities for the purposes of prevention, investigation, detection or prosecution of criminal offences and, for these purposes, the maintenance of public order, or the execution of criminal penalties

3. (...).

---

27 HU objected to the fact that data processing operations not covered by this phrase would be excluded from the scope of the Regulation and thought this was not compatible with the stated aim of a set of comprehensive EU data protection rules. HU therefore proposed to replace the second part by the following wording 'irrespective of the means by which personal data are processed'.

28 BE reservation on the terms 'for these purposes'.
**Article 3**

**Territorial scope**

1. This Regulation applies to the processing of personal data in the context of the activities of an establishment of a controller or a processor in the Union.

2. This Regulation applies to the processing of personal data of data subjects residing in the Union by a controller not established in the Union, where the processing activities are related to:

   (a) the offering of goods or services, irrespective of whether a payment by the data subject is required, to such data subjects in the Union; or

   (b) the monitoring of their behaviour as far as their behaviour takes place within the European Union\(^2^9\).

3. This Regulation applies to the processing of personal data by a controller not established in the Union, but in a place where the national law of a Member State applies by virtue of public international law.

\(^2^9\) UK reservation.
**Article 4**

*Definitions*

For the purposes of this Regulation:

1. 'personal data' means any information relating to an identified or identifiable natural person ('data subject'); an identifiable person is one who can be identified, directly or indirectly (…), in particular by reference to an identifier such as a name, an identification number, location data, online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that person.

2a. 'pseudonymous data' means personal data processed in such a way that the data cannot be attributed to a specific data subject without the use of additional information, as long as such additional information is kept separately and subject to technical and organisational measures to ensure non-attribution.

3. 'processing' means any operation or set of operations which is performed upon personal data or sets of personal data, whether or not by automated means, such as collection, recording, organization, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination (…) or erasure.
(3a) 'restriction of processing' means the marking of stored personal data with the aim of limiting their processing in the future;\(^{33}\)

(4) 'filing system' means any structured set of personal data which are accessible according to specific criteria, whether centralized, decentralized or dispersed on a functional or geographical basis;\(^{34}\)

(5) 'controller' means the natural or legal person, public authority, agency or any other body which alone or jointly with others determines the purposes (...) and means of the processing of personal data; where the purposes (...) and means of processing are determined by Union law or Member State law, the controller or the specific criteria for his nomination may be designated by Union law or by Member State law;

(6) 'processor' means a natural or legal person, public authority, agency or any other body which processes personal data on behalf of the controller;\(^{35}\)

(7) 'recipient' means a natural or legal person, public authority, agency or any other body other than the data subject, the data controller or the data processor to which the personal data are disclosed; however regulatory bodies and authorities which may receive personal data in the exercise of their official functions shall not be regarded as recipients;\(^{37}\)

\(^{33}\) RO scrutiny reservation.

\(^{34}\) DE, FR SI, SK and UK scrutiny reservation. DE and SI thought this was completely outdated concept. COM explained that the definition had been taken over from Directive 95/46/EC and is related to the technical neutrality of the Regulation, as expressed in Article 2(1).

\(^{35}\) DE, DK, FR, LU and NL requested the inclusion of a definition of third party. PT reservation. DE, FR, LU, NL, SI and SE regretted the deletion from the 1995 Data Protection Directive of the reference to third party disclosure and pleaded in favour of its reinstatement. COM argued that this reference was superfluous and that its deletion did not make a substantial difference.

\(^{37}\) DE, ES, NL and UK scrutiny reservation on latter part of definition. ES, NL and UK thought it could be deleted.
(8) 'the data subject's consent' means any freely-given, specific and informed (...) indication of his or her wishes by which the data subject, either by a statement or by a clear affirmative action, signifies agreement to personal data relating to them being processed;

(9) 'personal data breach' means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed;

(10) 'genetic data' means all personal data relating to the genetic characteristics of an individual that have been inherited or acquired, resulting from an analysis of a biological sample from the individual in question.

38 COM, CY, FR, GR, HU, IT, PL and RO reservation on the deletion of 'explicit'.

39 COM, supported by LU, explained that it sought to have a similar rule as in the E-Privacy Directive, which should be extended to all types of data processing. DE scrutiny reservation questioned the very broad scope of the duty of notifying data breaches, which so far under German law was limited to sensitive cases. NL, LV and PT concurred with DE and thought this could lead to over-notification. In the meantime the scope of Articles 31 and 32 has been limited.

40 AT, CY, FR, IT, NL and SE scrutiny reservation. Several delegations (CH, CY, DE and SE) expressed their surprise regarding the breadth of this definition, which would also cover data about a person's physical appearance. DE thought the definition should differentiate between various types of genetic data. AT scrutiny reservation. The definition is now explained in the recital 25a.
(11) 'biometric data' means any personal data resulting from specific technical processing relating to the physical, physiological or behavioural characteristics of an individual which allows or confirms the unique identification of that individual, such as facial images, or dactyloscopic data;

(12) 'data concerning health' means data related to the physical or mental health of an individual, which reveal information about his or her health status;

(12a) 'profiling' means any form of automated processing of personal data intended to create or use a personal profile by evaluating personal aspects relating to a natural person, in particular the analysis and prediction of aspects concerning performance at work, economic situation, health, personal preferences, or interests, reliability or behaviour, location or movements.

---

41 ES preferred 'allows'; SI suggested 'allows or confirms'
42 NL, SE and AT scrutiny reservation. SI did not understand why genetic data were not included in the definition of biometric data. FR queried the meaning of 'behavioural characteristics of an individual which allow their unique identification'. CH is of the opinion that the term 'biometric data' is too broadly defined.
43 CZ, DE, DK, EE, FR and SI expressed their surprise regarding the breadth of this definition. AT, BE, DE, NL and SI scrutiny reservation. COM scrutiny reservation.
44 BE, RO and SE scrutiny reservation. BE, FR, LU, SI and RO would prefer reverting to the Council of Europe definition. COM reservation.
(13) ‘main establishment’ means

- as regards the controller, the place of its central administration in the Union, unless the decisions on the purposes (…) and means of the processing of personal data are taken in an other establishment of the controller in the Union. In this case the latter shall be considered as the main establishment. If no decisions as to the purposes (…) and means of the processing of personal data are taken in the Union, (…) the place where the main processing activities in the context of the activities of an establishment of the controller in the Union take place;  

- as regards the processor, the place of its central administration in the Union and, if the processor has no central administration in the Union, the place where the main processing activities in the context of the activities of an establishment of the processor take place;

- Where the controller exercises also activities as a processor, the supervisory authority of the main establishment of the controller shall be considered as the main establishment for the supervision of processing activities;

- Where the processing is carried out by a group of undertakings, the main establishment of the controlling undertaking shall be considered as the main establishment of the group of undertakings, except where the purposes and means of processing are determined by another undertaking;

---

45 BE, CZ, DE, EE and SK scrutiny reservation: they expressed concerns about this definition, which might be difficult to apply in practice. Regarding the first indent, BE and FR, AT and SE preferred the previous version. IE remarked this place may have no link with the place where the data are processed. DE also remarked that in the latter scenario, the Commission proposal did not determine which Member States' DPA would be competent. CZ thought the definition should be deleted.
(14) 'representative' means any natural or legal person established in the Union who, (...) designated by the controller in writing pursuant to Article 25, represents the controller with regard to the obligations of the controller under this Regulation (...);

(15) 'enterprise' means any natural or legal person engaged in an economic activity, irrespective of its legal form, (...) including (...) partnerships or associations regularly engaged in an economic activity;

(16) 'group of undertakings' means a controlling undertaking and its controlled undertakings46;

(17) 'binding corporate rules' means personal data protection policies which are adhered to by a controller or processor established on the territory of a Member State of the Union for transfers or a set of transfers of personal data to a controller or processor in one or more third countries within a group of undertakings47;

(18) (...)48

---

46 DE scrutiny reservation. UK scrutiny reservation on all definitions in paragraphs 10 to 16.
47 DE wondered whether BCRs could also cover intra-EU data transfers.
48 COM scrutiny reservation on the deletion of the definition of a child.
(19) 'supervisory authority' means an independent public authority which is established by a Member State pursuant to Article 46;

(20) 'Information Society service' means any service as defined by Article 1 (2) of Directive 98/34/EC of the European Parliament and of the Council of 22 June 1998 laying down a procedure for the provision of information in the field of technical standards and regulations and of rules on Information Society services.\(^{49}^{50}^{51}\)

\(^{50}\) UK suggests adding a definition of 'competent authority' corresponding to that of the future Data Protection Directive.

\(^{51}\) BE, DE; FR and RO suggest adding a definition of ‘transfer’ (‘communication or availability of the data to one or several recipients’). RO suggests adding 'transfers of personal data to third countries or international organizations is a transmission of personal data object of processing or designated to be processed after transfer which ensure an adequate level of protection, whereas the adequacy of the level of protection afforded by a third country or international organization must be assessed in the light of all the circumstances surrounding the transfer operation or set of transfer operations'.
CHAPTER II

PRINCIPLES

Article 5

Principles relating to personal data processing

1. Personal data must be:

(a) processed lawfully, fairly and in a transparent manner in relation to the data subject;

(b) collected for specified, explicit and legitimate purposes and not further processed in a way incompatible with those purposes; (…)\(^{52}\);

(c) adequate, relevant and not excessive in relation to the purposes for which they are processed (…)\(^{53}\);

(d) accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;

(e) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed (…)\(^{54}\);

(ee) processed in a manner that ensures appropriate security (…) of the personal data.

(f) (…)
2. The controller shall be responsible for compliance with paragraph 1.

Article 6

Lawfulness of processing\textsuperscript{55}

1. Processing of personal data shall be lawful only if and to the extent that at least one of the following applies:

(a) the data subject has given unambiguous\textsuperscript{56} consent to the processing of their personal data for one or more specific purposes\textsuperscript{57};

(b) processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract;

(c) processing is necessary for compliance with a legal obligation to which the controller is subject\textsuperscript{58};

(d) processing is necessary in order to protect the vital interests of the data subject (...)\textsuperscript{59};

\textsuperscript{55} DE, AT, PT, SI and SK scrutiny reservation.

\textsuperscript{56} COM reservation in relation to the deletion of 'explicit' in the definition of 'consent'.

\textsuperscript{57} UK suggested reverting to the definition of consent in Article 2(h) of the 1995 Directive.

\textsuperscript{58} HU thought that this subparagraph could be merged with 6(1) (e).

\textsuperscript{59} BG and ES scrutiny reservation; UK preferred the wording of the 1995 Directive.
(e) processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;\(^{60}\)\(^{61}\);

(f) processing is necessary for the purposes of the legitimate interests\(^{62}\) pursued by the controller or by a controller to which the data are disclosed\(^ {63}\) except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child. This subparagraph shall not apply to processing carried out by public authorities in the exercise of their public duties.\(^ {64}\)\(^ {65}\).

2. (…)

3. The basis for the processing referred to in points (c) and (e)\(^ {66}\) of paragraph 1 must be provided for in:

\(^{60}\) COM clarified that this was the main basis for data processing in the public sector. DE, DK, LT and UK asked what was meant by 'public interest' whether the application of this subparagraph was limited to the public sector or could also be relied upon by the private sector. FR also requested clarifications as to the reasons for departing from the text of the 1995 Directive. UK suggested reverting to the wording used in Article 7(e) of the 1995 Directive.

\(^{61}\) Subparagraphs (d) and (e) might have to be inverted.

\(^{62}\) FR scrutiny reservation.

\(^{63}\) BG, CZ, DE, ES, HU, IT, NL, SE and UK asked to reinstate the words 'or by a third party' from the 1995 Directive. COM, supported by FR, thought that the use of the concept 'a controller' should allow covering most cases of a third party.

\(^{64}\) ES and FR scrutiny reservation. BE, DK, SI, PT and UK had suggested deleting the last sentence.

\(^{65}\) DK and FR regretted there was no longer a reference to purposes set out in Article 9(2) and thought that the link between Article 6 and 9 needed to be clarified.

\(^{66}\) FI and SI thought (f) should be added. BE, HU and FR thought (e) should be deleted. NL proposed adding a sentence: 'The purpose of the processing referred to in point (e) must be associated with the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller'.
(a) Union law, or

(b) national law of the Member State to which the controller is subject.

The purpose of the processing shall be determined in this legal basis or as regards the processing referred to in point (e) of paragraph 1, be necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller. Within the limits of this Regulation, the controller, processing operations and processing procedures, including measures to ensure lawful and fair processing, may be specified in this legal basis. 67

3a. In order to ascertain whether a purpose of further processing is compatible with the one for which the data are initially collected, the controller shall take into account, inter alia 68:

(a) any link between the purposes for which the data have been collected and the purposes of the intended further processing;

67 DK and DE scrutiny reservation; it was emphasised national law should not only have the possibility to specify, but also to enlarge the data protection rules of the Regulation.

68 DK, FI, NL, SI and SE stressed that the list should not be exhaustive. PT wanted to add consent by the data subject as an element.
(b) the context in which the data have been collected;

(c) the nature of the personal data;

(d) the possible consequences of the intended further processing for data subjects;

(e) the existence of appropriate safeguards\textsuperscript{69}.

4. Where the purpose of further processing is incompatible with the one for which the personal data have been collected, the further processing must have a legal basis at least in one of the grounds referred to in points (a) to (e)\textsuperscript{70} of paragraph 1\textsuperscript{71} .\textsuperscript{72} .\textsuperscript{73}

5. (...).

\textsuperscript{69} BG, DE, ES and PL reservation: safeguards in themselves do not make further processing compatible.

\textsuperscript{70} FR and ES thought (f) should be added.

\textsuperscript{71} DE, HU, IT, NL and PT scrutiny reservation. IT and PT thought paragraph 4 could be deleted.

\textsuperscript{72} BE queried whether this allowed for a hidden 'opt-in', e.g. regarding direct marketing operations, which COM referred to in recital 40. BE, supported by FR, suggested adding 'if the process concerns the data mentioned in Articles 8 and 9'.

\textsuperscript{73} HU thought that a duty for the data controller to inform the data subject of a change of legal basis should be added here: 'Where personal data relating to the data subject are processed under this provision the controller shall inform the data subject according to Article 14 before the time of or within a reasonable period after the commencement of the first operation or set of operations performed upon the personal data for the purpose of further processing not compatible with the one for which the personal data have been collected.'
Article 7

Conditions for consent

1. Where Article 6(1)(a) applies the controller shall be able to demonstrate that unambiguous\(^{74}\) consent was given by the data subject.

1a. Where article 9(2)(a) applies, the controller shall be able to demonstrate that explicit consent was given by the data subject.

2. If the data subject's consent is to be given in the context of a written declaration which also concerns other matters, the request for consent must be presented in a manner which is clearly distinguishable (…) from the other matters.

3. The data subject shall have the right to withdraw his or her consent at any time. The withdrawal of consent shall not affect the lawfulness of processing based on consent before its withdrawal (…).

4. (…).

\(^{74}\) COM reservation related to the deletion of 'explicit' in the definition of consent.
Article 8
Conditions applicable to child’s consent in relation to information society services

1. Where Article 6 (1)(a) applies, in relation to the offering of information society services directly to a child, the processing of personal data of a child below the age of 13 years shall only be lawful if and to the extent that such consent is given or authorised by the child's parent or guardian.

The controller shall make reasonable efforts to verify in such cases that consent is given or authorised by the child's parent or guardian, taking into consideration available technology.

2. Paragraph 1 shall not affect the general contract law of Member States such as the rules on the validity, formation or effect of a contract in relation to a child.

75 CZ, DE, AT, SE, SI, PT and UK scrutiny reservation. CZ and SI would prefer to see this Article deleted. NO proposes including a general provision stating that personal data relating to children cannot be processed in an irresponsible manner contrary to the child’s best interest. Such a provision would give the supervisory authorities a possibility to intervene if for example adults publish personal data about children on the Internet in a manner which may prove to be problematic for the child. DE, supported by NO, opined this article could have been integrated into Article 7.

76 Several delegations (HU, FR, SE, PT) asked why the scope of this provision was restricted to the offering of information society services or wanted clarification (DE) whether it was restricted to marketing geared towards children. The Commission clarified that this provision was also intended to cover the use of social networks, insofar as this was not governed by contract law. DE thought that this should be clarified. HU and FR thought the phrase 'in relation to the offering of information society services directly to a child' should be deleted.

77 Several delegations queried the expediency of setting the age of consent at 13 years: DE, FR, HU, LU, LV, RO and SI. DE, SI and RO proposed 14 years. COM indicated that this was based on an assessment of existing standards, in particular in the US relevant legislation (COPPA).

78 DE, supported by SE, queried whether a Member State could adopt/maintain more stringent contract law. SI thought the reference should be worded more broadly to 'civil law', thus encompassing also personality rights.
3. [The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of further specifying the criteria and requirements for the methods to obtain verifiable consent referred to in paragraph 1(…)]

4. The Commission may lay down standard forms for specific methods to obtain verifiable consent referred to in paragraph 1. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2).[80]

**Article 9**

**Processing of special categories of personal data**[81]

1. The processing of personal data, revealing racial or ethnic origin, political opinions, religion or philosophical beliefs, trade-union membership, and the processing of genetic data or data concerning health or sex life (…) shall be prohibited.[82]

---

79 ES, FR and SE scrutiny reservation.
80 LU reservation. ES, FR, SE and UK suggested deleting paragraphs 3 and 4.
81 SE, AT and NL scrutiny reservation. DE, supported by CZ, SE and UK, criticised on the concept of special categories of data, which does not cover all sensitive data processing operations. CZ, SE and UK pleaded in favour of a risk-based approach to sensitive data. There appeared to be no majority in favour of such 'open' approach. SK and RO thought the inclusion of biometric data should be considered. COM opined that the latter were not sensitive data as such. SK also leaded in favour of the inclusion of national identifier.
82 EE reservation; SE scrutiny reservation UK questioned the need for special categories of data. NL thought the list of data was open to discussion, as some sensitive data like those related to the suspicion of a criminal offence, were not included. SE thought the list was at the same time too broad and too strict. SI thought the list of the 1995 Data Protection Directive should be kept. FR and AT stated that the list of special categories in the Regulation and the Directive should be identical.
2. Paragraph 1 shall not apply if one of the following applies:

(a) the data subject has given explicit consent to the processing of those personal data (…), except where Union law or Member State law provide that the prohibition referred to in paragraph 1 may not be lifted by the data subject; or

(b) processing is necessary for the purposes of carrying out the obligations and exercising specific rights of the controller in the field of employment law in so far as it is authorised by Union law or Member State law providing for adequate safeguards ⁸³; or

(c) processing is necessary to protect the vital interests of the data subject or of another person where the data subject is physically or legally incapable of giving consent; or

(d) processing is carried out in the course of its legitimate activities with appropriate safeguards by a foundation, association or any other non-profit-seeking body with a political, philosophical, religious or trade-union aim and on condition that the processing relates solely to the members or to former members of the body or to persons who have regular contact with it in connection with its purposes and that the data are not disclosed outside that body without the consent of the data subjects; or

---

⁸³ DE queried whether this paragraph obliged Member States to adopt specific laws on data protection regarding labour law relations; COM assured that the paragraph merely referred to a possibility to do so.
(e) the processing relates to personal data which are manifestly made public\(^84\) by the data subject; or

(f) processing is necessary for the establishment, exercise or defence of legal claims\(^85\); or

(g) processing is necessary for the performance of a task carried out for important\(^86\) reasons of public interest, on the basis of Union law or Member State law which shall provide for suitable measures to safeguard the data subject's legitimate interests; or

(h) processing of data concerning health is necessary for the purposes of preventive or occupational medicine, medical diagnosis, the provision of care or treatment or the management of health-care services and subject to the conditions and safeguards referred to in Article 81\(^87\);

(ha) processing is necessary for the purposes of social protection carried out in the public interest and subject to the conditions and safeguards referred to in Article 82a; or

---

\(^84\) DE, FR, SE and SI raised questions regarding the exact interpretation of the concept of manifestly made public (e.g. whether this also encompassed data implicitly made public and whether the test was an objective or a subjective one).

\(^85\) DE thought it should be clarified that also courts can process sensitive data.

\(^86\) ES, FR and UK scrutiny reservation on 'important'.

\(^87\) DE and EE scrutiny reservation. DE and ES queried what happened in cases where obtaining consent was not possible (e.g. in case of contagious diseases; persons who were physically or mentally not able to provide consent); NL thought this should be further clarified in recital 42. BE queried what happened in the case of processing of health data by insurance companies. COM explained that this was covered by Article 9(2) (a), but SI was not convinced thereof.
(i) processing is necessary for historical, statistical or scientific
(…) purposes and subject to the conditions and safeguards
referred to in Articles 83a to 83c.

(j) (…)

2a. Processing of data relating to criminal convictions and offences\textsuperscript{88} or related security measures may only be carried out either under the control of official authority or when the processing is necessary for compliance with an (…) obligation to which a controller is subject, or for the performance of a task carried out for important reasons of public interest (…), and in so far as authorised by Union law or Member State law providing for adequate safeguards for the rights and freedoms of data subjects\textsuperscript{89}. A complete register of criminal convictions may be kept only under the control of official authority\textsuperscript{90}.

3. (…)

\textsuperscript{88} EE reservation: under its constitution all criminal convictions are mandatorily public.

\textsuperscript{89} NL scrutiny reservation. UK queried the relationship between this paragraph and Article 2(2) (c). COM argued that the reference to civil proceedings in Article 8(5) of the 1995 Directive need not be included here, as those proceedings are as such not sensitive data. DE and SE were not convinced by this argument.

\textsuperscript{90} SE scrutiny reservation. UK reservation on last sentence.
Article 10

Processing not requiring identification

1. If the purposes for which a controller processes personal data do not require the identification of a data subject by the controller, the controller shall not be obliged to acquire (…) additional information nor to engage in additional processing in order to identify the data subject for the sole purpose of complying with (…) this Regulation.\(^{91}\)

2. Where, in such cases the controller is not in a position to identify the data subject, articles 15, 16, 17, 17a, 17b and 18 (…) do not apply except where the data subject, for the purpose of exercising his or her rights under these articles, provides additional information enabling his or her identification\(^{92}\).

---

\(^{91}\) AT, DE, FR, HU and UK scrutiny reservation.

\(^{92}\) DK, NL, SE and SI scrutiny reservation; COM reservation. BE thought this paragraph could also be moved to a recital.
CHAPTER III
RIGHTS OF THE DATA SUBJECT\textsuperscript{93}

SECTION 1
TRANSPARENCY AND MODALITIES

\textit{Article 11}

\textit{Transparent information and communication}

1. (…)

2. (…)

\textit{Article 12}

\textit{Transparent information, communication and modalities for exercising the rights of the data subject}\textsuperscript{94}

1. The controller shall take appropriate measures to provide any information referred to in Articles 14 and 14a and any communication under Articles 15 to 19 and 32 relating to the processing of personal data to the data subject in an intelligible and easily accessible form, using clear and plain language\textsuperscript{95}. The information shall be provided in writing, or where appropriate, electronically or by other means.

1a. The controller shall facilitate the exercise of data subject rights under Articles 15 to 19\textsuperscript{96}. (…)

\textsuperscript{93} General scrutiny reservation by UK on the articles in this Chapter.

\textsuperscript{94} DE, SE, SI and FI scrutiny reservation.

\textsuperscript{95} COM reservation on deletion.

\textsuperscript{96} SI and UK thought this paragraph should be deleted.
2. The controller shall provide the information referred to in Articles 14a and 15 and information on action taken on a request under Articles 16 to 19 to the data subject without undue delay and at the latest within one month of receipt of the request\(^{97}\)(…). This period may be extended for a further two months when necessary, taking into account the complexity of the request and the number of requests. Where the extended period applies, the data subject shall be informed within one month of receipt of the request of the reasons for the delay.

3. If the controller does not take action on the request of the data subject, the controller shall inform the data subject without delay and at the latest within one month of receipt of the request of the reasons for not taking action and on the possibility of lodging a complaint to a supervisory authority (…).

4. Information provided under Articles 14 and 14a (…) and any communication under Articles 16 to 19 and 32 shall be provided free of charge. Where requests from a data subject are (…)\(^{98}\) manifestly unfounded or excessive, in particular because of their repetitive character, the controller (…) may refuse to act on\(^{99}\) the request. In that case, the controller shall bear the burden of demonstrating the manifestly unfounded or excessive character of the request\(^{100}\).

---

\(^{97}\) UK pleaded in favour of deleting the one-month period. BG and PT thought it more simple to revert to the requirement of 'without excessive delay' under the 1995 Data Protection Directive.

\(^{98}\) PL thought the criterion of 'manifestly excessive' required further clarification, e.g. through an additional recital. COM reservation on deletion.

\(^{99}\) NL scrutiny reservation: avoid that this gives the impression that public authority cannot refuse to consider request by citizen.

\(^{100}\) IT scrutiny reservation.
4a. Without prejudice to Article 10, where the controller has reasonable doubts concerning the identity of the individual making the request referred to in Articles 15 to 19, the controller may request the provision of additional information necessary to confirm the identity of the data subject.

5. (…)

6. (…)

*Article 13*

*Rights in relation to recipients*

(…)
SECTION 2
INFORMATION AND ACCESS TO DATA

Article 14
Information to be provided where the data are collected from the data subject\(^{101}\)

1\(^{102}\). Where personal data relating to a data subject are collected from the data subject, the controller shall (...), at the time when personal data are obtained, provide the data subject with the following information:

(a) the identity and the contact details of the controller and, if any, of the controller's representative; the controller may also include the contact details of the data protection officer, if any;

(b) the purposes of the processing for which the personal data are intended (...);

\(^{101}\) DE, EE, ES, NL, SE, FI, PT and UK scrutiny reservation. DE, supported by ES and NL, has asked the Commission to provide an assessment of the extra costs for the industry under this provision.

\(^{102}\) HU thought the legal basis of the processing should be included in the list.
1a. In addition to the information referred to in paragraph 1, the controller shall provide the data subject with such further information necessary to ensure fair and transparent processing in respect of the data subject, having regard to the specific circumstances and context in which the personal data are processed:

(a) (...);

(b) where the processing is based on point (f) of Article 6(1), the legitimate interests pursued by the controller;

(c) the recipients or categories of recipients of the personal data;

(d) where applicable, that the controller intends to transfer personal data to a recipient in a third country or international organisation;

103 DE, EE, and PL asked to insert "on request". DE, DK, NL and UK doubted whether the redraft would allow for a sufficient risk-based approach and warned against excessive administrative burdens/compliance costs. DK and UK in particular referred to the difficulty for controllers in assessing what is required under para. 1a in order to ensure fair and transparent processing. DE, EE and PL pleaded for making the obligation to provide this information contingent upon a request thereto as the controller might otherwise take a risk-averse approach and provide all the information under Article 14(1a), also in cases where not required. UK thought that many of the aspects set out in paragraph 1a of Article 14 (and paragraph 2 of Article 14a) could be left to guidance under Article 39.

104 CZ suggested adding the word 'obviously'.

105 FR scrutiny reservation.

106 COM reservation on deletion of the words 'such as'.

107 AT and DE thought that this concept was too vague (does it e.g. encompass employees of the data controller?).
(e) the existence of the right to request from the controller access to and rectification or erasure of the personal data or restriction of processing of personal data concerning the data subject and to object to the processing of such personal data \[108\];

(f) the right to lodge a complaint to a supervisory authority \(\ldots\);

(g) whether the provision of personal data is a statutory or contractual requirement, or a requirement necessary to enter into a contract, as well as the possible consequences of failure to provide such data \[109\]; and

\[h\] the existence of profiling referred to in Article 20(1) and (3) and information concerning \(\ldots\) the profiling, as well as the significance and the envisaged consequences of such profiling of the data subject \[110\].

2. \(\ldots\)\[111\]

3. \(\ldots\)

4. \(\ldots\)

5. Paragraphs 1 and 1a shall not apply where and insofar as the data subject already has the information.

6. \(\ldots\)

7. \(\ldots\)

8. \(\ldots\)

---

108 The reference to direct marketing was deleted in view of comments by DK, FR, IT and SE.

109 CZ, DE, ES and NL reservation.

110 SE scrutiny reservation.

111 HU reservation on the deletion of this paragraph.
Article 14 a
Information to be provided where the data have not been obtained from the data subject

1. Where personal data have not been obtained from the data subject, the controller shall provide the data subject with the following information:

   (a) the identity and the contact details of the controller and, if any, of the controller's representative; the controller may also include the contact details of the data protection officer, if any;

   (b) the purposes of the processing for which the personal data are intended.

2. In addition to the information referred to in paragraph 1, the controller shall provide the data subject with such further information necessary to ensure fair and transparent processing in respect of the data subject, having regard to the specific circumstances and context in which the personal data are processed (…):

   (a) the categories of personal data concerned;

   (b) (…)

   (c) where the processing is based on point (f) of Article 6(1), the legitimate interests pursued by the controller;

   (d) the recipients or categories of recipients of the personal data;

---

112 DE, EE, ES, NL (§§1+2), AT, PT scrutiny reservation.
113 HU thought the legal basis of the processing should be included in the list.
114 ES, IT and FR doubts on the addition of the words 'and context'.
(e) the existence of the right to request from the controller access to and rectification or erasure of the personal data concerning the data subject and to object to the processing of such personal data (...);

(f) the right to lodge a complaint to a supervisory authority (...);

(g) the origin of the personal data, unless the data originate from publicly accessible sources;\(^{115}\)

(h) \textit{the existence of profiling referred to in Article 20(1) and (3)} and information concerning (...) \textit{the profiling, as well as the significance and the envisaged consequences of such profiling of the data subject}.\(^{116}\)

3. The controller shall provide the information referred to in paragraphs 1 and 2;\(^{117}\)

(a) \textit{within a reasonable period after obtaining the data, having regard to the specific circumstances in which the data are processed, or}

(b) if a disclosure to another recipient is envisaged, at the latest when the data are first disclosed.

\(^{115}\) COM and AT scrutiny reservation.

\(^{116}\) PL asks for the deletion of the reference to 'logic'.

\(^{117}\) BE proposed to add: 'possibly through an easily accessible contact person where the data subject concerned can consult his data'. This is already covered by the modified recital 46.
Paragraphs 1 to 3 shall not apply where and insofar as:

(a) the data subject already has the information; or

(b) the provision of such information (...) proves impossible or would involve a disproportionate effort or is likely to render impossible or to seriously impair the achievement of such purposes; in such cases the controller shall take appropriate measures to protect the data subject's legitimate interests, for example by using pseudonymous data; or

(c) obtaining or disclosure is expressly laid down by Union or Member State law to which the controller is subject, which provides appropriate measures to protect the data subject's legitimate interests; or

(d) where the data originate from publicly available sources; or

Deleted in view of the new articles 83a to 83c

COM scrutiny reservation.

Several delegations (DE, DK, FI, PL, SK, and LT) thought that in this Regulation (contrary to the 1995 Directive) the text should be specified so as to clarify both the concepts of 'appropriate measures' and of 'legitimate interests'. According to the Commission, this should be done through delegated acts under Article 15(7). DE warned that a dangerous situation might ensue if these delegated acts were not enacted in due time.

BE, FR and IT reservation on the mentioning of pseudonymous data.

UK thought the requirement of a legal obligation was enough and no further appropriate measures should be required.

COM, IT and FR reservation on this exception. ES thought this concept required further clarification. DE and SE emphasised the importance of this exception.
(e) where the data must remain confidential in accordance with a legal provision in Union or Member State law or because of the overriding legitimate interests of another person\(^{124}\).

5. (…)

6. (…)

**Article 15**

**Right of access for the data subject**\(^{125}\)

1. The data subject shall have the right to obtain from the controller at reasonable intervals and free of charge\(^{126}\) confirmation as to whether or not personal data concerning him or her are being processed and where such personal data are being processed access to the data and the following information:

   (a) the purposes of the processing\(^{127}\);

   (b) (…)

   (c) the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular to recipients in third countries\(^{128}\),

---

\(^{124}\) COM and AT reservation on (d) and (e). UK referred to the existence of case law regarding privilege (confidentiality). BE thought the reference to the overriding interests of another person was too broad.

\(^{125}\) DE, FI and SE scrutiny reservation. DE, LU and UK expressed concerns on overlaps between Articles 14 and 15.

\(^{126}\) DE, ES, HU, IT and PL reservation on the possibility to charge a fee. DE, LV and SE thought that free access once a year should be guaranteed.

\(^{127}\) HU thought the legal basis of the processing should be added.

\(^{128}\) UK reservation on the reference to recipients in third countries. IT thought the concept of recipient should be clarified, inter alia by clearly excluding employees of the controller.
(d) where possible, the envisaged\textsuperscript{129} period for which the personal data will be stored;

(e) the existence of the right to request from the controller rectification or erasure of personal data concerning the data subject or to object to the processing of such personal data;

(f) the right to lodge a complaint to a supervisory authority (…)\textsuperscript{130}\	extsuperscript{131};

(g) where the personal data are not collected from the data subject, any available information as to their source\textsuperscript{132};

(h) in the case of decisions referred to in Article 20, knowledge of the logic involved\textsuperscript{133} in any automated data processing as well as the significance and envisaged consequences of such processing\textsuperscript{134}.

1a. Where personal data are transferred to a third country or to an international organisation, the data subject shall have the right to be informed of the appropriate safeguards pursuant to Article 42 relating to the transfer\textsuperscript{135}.

\textsuperscript{129} ES and UK proposed adding 'where possible'; FR reservation on 'where possible' and 'envisaged'; FR emphasised the need of providing an exception to archives.

\textsuperscript{130} DE thought it was too onerous to repeat this for every data subject and pointed to difficulties in ascertaining the competent DPA in its federal structure.

\textsuperscript{131} IT suggestion to delete subparagraphs (e) and (f) as under Article 14 this information should already be communicated to the data subject at the moment of the collection of the data.

\textsuperscript{132} SK scrutiny reservation: subparagraph (g) should be clarified.

\textsuperscript{133} PL reservation on the reference to 'logic': the underlying algorithm should not be disclosed. DE reservation on reference to decisions.

\textsuperscript{134} NL scrutiny reservation. CZ and FR likewise harboured doubts on its exact scope.

\textsuperscript{135} FR and UK scrutiny reservation on links with Chapter V
1b. On request and without an excessive charge, the controller shall provide a copy of the personal data undergoing processing to the data subject.

2. Where personal data supplied by the data subject are processed by automated means and in a structured and commonly used format, the controller shall, on request and without an excessive charge, provide a copy of the data concerning the data subject in that format to the data subject.\(^{136}\)

2a. The right to obtain a copy referred to in paragraphs 1b and 2 shall not apply where such copy cannot be provided without disclosing personal data of other data subjects.\(^{137}\)

3. (…)

4. (…)

5. (…)\(^{138}\)

---

\(^{136}\) COM, ES and FR reservation: they thought this was too narrowly drafted. DE, supported by UK, referred to the danger that data pertaining to a third party might be contained in such electronic copy. DE scrutiny reservation on relation to paragraph 1.

\(^{137}\) DE, supported by UK, referred to the danger that data pertaining to a third party might be contained in such electronic copy.

\(^{138}\) Deleted in view of the new articles 83a to 83c.
SECTION 3
RECTIFICATION AND ERASURE

Article 16
Right to rectification

1. (...) The data subject shall have the right to obtain from the controller the rectification of personal data concerning him or her which are inaccurate. Having regard to the purposes for which data were processed, the data subject shall have the right to obtain completion of incomplete personal data, including by means of providing a supplementary (...) statement.

2. (...)
Article 17

Right to be forgotten and to erasure[^142]

1. The (...) controller shall have the obligation to erase personal data without undue delay and the data subject shall have the right to obtain the erasure of personal data without undue delay where one of the following grounds applies:

(a) the data are no longer necessary in relation to the purposes for which they were collected or otherwise processed;

[^142]: DE, EE, PT, SE, SI, FI and UK scrutiny reservation. EE, FR, NL, RO and SE reservation on the applicability to the public sector. Whereas some Member States have welcomed the proposal to introduce a right to be forgotten (AT, EE, FR, IE); other delegations were more sceptical as to the feasibility of introducing a right which would go beyond the right to obtain from the controller the erasure of one's own personal data (DE, DK, ES). The difficulties flowing from the household exception (UK), to apply such right to personal data posted on social media were highlighted (BE, DE, FR), but also the impossibility to apply such right to 'paper/offline' data was stressed (EE, LU, SI). Some delegations (DE, ES) also pointed to the possible externalities of such right when applied with fraudulent intent (e.g. when applying it to the financial sector). Several delegations referred to the challenge to make data subjects active in an online environment behave responsibly (DE, LU and UK) and queried whether the creation of such a right would not be counterproductive to the realisation of this challenge, by creating unreasonable expectations as to the possibilities of erasing data (DK, LU and UK). Some delegations thought that the right to be forgotten was rather an element of the right to privacy than part of data protection and should be balanced against the right to remember and access to information sources as part of the freedom of expression (DE, ES, LU, NL, SI, PT and UK). It was pointed out that the possibility for Member States to restrict the right to be forgotten under Article 21 where it interferes with the freedom of expression is not sufficient to allay all concerns in that regard as it would be difficult for controllers to make complex determinations about the balance with the freedom of expression, especially in view of the stiff sanctions provided in Article 79 (UK). In general several delegations (CZ, DE, FR) stressed the need for further examining the relationship between the right to be forgotten and other data protection rights. The Commission emphasised that its proposal was in no way meant to be a limitation of the freedom of expression. The inherent problems in enforcing such right in a globalised world outside the EU were cited as well as the possible consequences for the competitive position of EU companies linked thereto (BE, AT, LV, LU, NL, SE and SI).
(b) the data subject withdraws consent on which the processing is based according to point (a) of Article 6(1) or point (a) of Article 9(2) and (...) there is no other legal ground for the processing of the data;

(c) the data subject objects to the processing of personal data pursuant to Article 19(1) and there are no overriding legitimate grounds for the processing or the data subject objects to the processing of personal data pursuant to Article 19(2);

(d) the data have been unlawfully processed143;

(e) the data have to be erased for compliance with a legal obligation to which the controller is subject144 145.

2. (...).

143 UK scrutiny reservation: this was overly broad.
144 RO scrutiny reservation.
145 DE pointed to the difficulties in determining who is the controller in respect of data who are copied/made available by other controllers (e.g. a search engine) than the initial controller (e.g. a newspaper). AT opined that the exercise of the right to be forgotten would have take place in a gradual approach, first against the initial controller and subsequently against the 'secondary' controllers. ES referred to the problem of initial controllers that have disappeared and thought that in such cases the right to be forgotten could immediately be exercised against the 'secondary controllers' ES suggested adding in paragraph 2: 'Where the controller who permitted access to the personal data has disappeared, ceased to exist or cannot be contacted by the data subject for other reasons, the data subject shall have the right to have other data controllers delete any link to copies or replications thereof'. The Commission, however, replied that the right to be forgotten could not be exercised against journals exercising freedom of expression. According to the Commission, the indexation of personal data by search engines is a processing activity not protected by the freedom of expression.
2a. Where the controller\textsuperscript{146} (…) has made the personal data public\textsuperscript{147} and is obliged pursuant to paragraph 1 to erase the data, the controller, taking account of available technology and the cost of implementation\textsuperscript{148}, shall take (…) reasonable steps\textsuperscript{149}, including technical measures, (…) to inform controllers\textsuperscript{150} which are processing the data, that a data subject requests them to erase any links to, or copy or replication of that personal data\textsuperscript{151}.

\textsuperscript{146} BE, DE and SI queried whether this also covered controllers (e.g. a search engine) other than the initial controller (e.g. a newspaper).

\textsuperscript{147} ES prefers referring to 'expressly or tacitly allowing third parties access to'. IE thought it would be more realistic to oblige controllers to erase personal data which are under their control, or reasonably accessible to them in the ordinary course of business, i.e. within the control of those with whom they have contractual and business relations. BE, supported by IE and LU, also remarked that the E-Commerce Directive should be taken into account (e.g. through a reference in a recital) and asked whether this proposed liability did not violate the exemption for information society services provided in that Directive (Article 12 of Directive 2000/31/EC of 8 June 2000), but COM replied there was no contradiction. LU pointed to a risk of obliging controllers in an online context to monitor all data traffic, which would be contrary to the principle of data minimization and in breach with the prohibition in Article 15 of the E-Commerce Directive to monitor transmitted information.

\textsuperscript{148} Further to NL suggestion. This may hopefully also accommodate the DE concern that the reference to available technology could be read as implying an obligation to always use the latest technology;

\textsuperscript{149} LU queried why the reference to all reasonable steps had not been inserted in paragraph 1 as well and SE, supported by DK, suggested clarifying it in a recital. COM replied that paragraph 1 expressed a results obligation whereas paragraph 2 was only an obligation to use one's best efforts. ES thought the term should rather be 'proportionate steps'. DE, ES and BG questioned the scope of this term. ES queried whether there was a duty on controllers to act proactively with a view to possible exercise of the right to be forgotten. DE warned against the 'chilling effect' such obligation might have on the exercise of the freedom of expression.

\textsuperscript{150} BE, supported by ES and FR, suggested referring to 'known' controllers (or third parties).

\textsuperscript{151} BE and ES queried whether this was also possible for the offline world and BE suggested to clearly distinguish the obligations of controllers between the online and offline world. Several Member States (CZ, DE, LU, NL, PL, PT, SE and SI) had doubts on the enforceability of this rule.
3. Paragraphs 1 and 2a shall not apply to the extent that (…) the processing of the personal data is necessary:

   a. for exercising the right of freedom of expression in accordance with Article 80;

   b. for compliance with a legal obligation to process the personal data by Union or Member State law to which the controller is subject or for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller;

   c. for reasons of public interest in the area of public health in accordance with Article 81;

   ca. for purposes of social protection in accordance with Article 82a;

   d. for historical, statistical and scientific (…) purposes in accordance with Articles 83a to 83c;

---

152 DE queried whether these exceptions also applied to the abstention from further dissemination of personal data. AT and DE pointed out that Article 6 contained an absolute obligation to erase data in the cases listed in that article and considered that it was therefore illogical to provide for exception in this paragraph.

153 DE and EE asked why this exception had not been extended to individuals using their own freedom of expression (e.g. an individual blogger).

154 In general DE thought it was a strange legal construct to lay down exceptions to EU obligations by reference to national law. DK and SI were also critical in this regard. UK thought there should be an exception for creditworthiness and credit scoring, which is needed to facilitate responsible lending, as well as for judicial proceedings. IT suggested inserting a reference to Article 21 (1).

155 AT scrutiny reservation.

156 DK queried whether this exception implied that a doctor could refuse to erase a patient's personal data notwithstanding an explicit request to that end from the latter. ES and DE indicated that this related to the more general question of how to resolve differences of view between the data subject and the data controller, especially in cases where the interests of third parties were at stake. PL asked what was the relation to Article 21.
e. (…)

f. (…)

g. for the establishment, exercise or defence of legal claims.

4. (…)

5. (…)

Article 17a
Right to restriction of processing

1. The data subject shall have the right to obtain from the controller the restriction of the processing of personal data where:

   (a) the accuracy of the data is contested by the data subject, for a period enabling the controller to verify the accuracy of the data;¹⁵⁷,

   (b) the controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims; or

   (c) he or she has objected to processing pursuant to Article 19(1) pending the verification whether the legitimate grounds of the controller override those of the data subject.

2. (…)

¹⁵⁷ FR scrutiny reservation: FR thought the cases in which this could apply, should be specified.
3. Where processing of personal data has been restricted under paragraph 1, such data may, with the exception of storage, only be processed with the data subject's consent or for the establishment, exercise or defence of legal claims or for the protection of the rights of another natural or legal person or for reasons of important public interest.\(^{158}\)

4. A data subject who obtained the restriction of processing pursuant to paragraph 1 (…) shall be informed by the controller before the restriction of processing is lifted.\(^{159}\)

5. (…)

5a. (…)\(^{160}\)

\(^{158}\) DE, ES and SI asked who was to define the concept of public interest. DE reservation.

\(^{159}\) DE, PT, SI and IT thought that this paragraph should be a general obligation regarding processing, not limited to the exercise of the right to be forgotten. DK likewise thought the first sentence should be moved to Article 22.

\(^{160}\) Deleted in view of the new articles 83a to 83c.
**Article 17b**

*Notification obligation regarding rectification, erasure or restriction*\(^{161}\)

The controller shall communicate any rectification, erasure or restriction of processing carried out in accordance with Articles 16, 17(1) and 17a to each recipient\(^{162}\) to whom the data have been disclosed, unless this proves impossible or involves a disproportionate effort.

---

\(^{161}\) Whilst several delegations agreed with this proposed draft and were of the opinion that it added nothing new to the existing obligations under the 1995 Directive, some delegations (DE, PL, SK and NL) pointed to the possibly far-reaching impact in view of the data multiplication since 1995, which made it necessary to clearly specify the exact obligations flowing from this proposed article. Thus, DE was opposed to a general obligation to log all the disclosures to recipients. DE also pointed out that the obligation should exclude cases where legitimate interests of the data subject would be harmed by a further communication to the recipients, that is not the case if the recipient would for the first time learn negative information about the data subject in which he has no justified interest. BE and ES asked that the concept of a 'disproportionate effort' be clarified in a recital.

\(^{162}\) BE, supported by ES and FR, suggested referring to 'known' recipients.
Article 18

Right to data portability

1. (…)

2. Where the data subject has provided personal data and the processing, (…) based on consent or on a contract, is carried on in an automated processing system provided by an information society service, the data subject shall have the right to withdraw these data in a form which permits the data subject to transmit them into another automated processing system without hindrance from the controller from whom the personal data are withdrawn.

---

UK reservation: while it supports the concept of data portability in principle, the UK considers it not within scope of data protection, but in consumer or competition law. Several other delegations (DK, DE, FR, IE, NL, PL and SE) also wondered whether this was not rather a rule of competition law and/or intellectual property law or how it related to these fields of law. Therefore the UK thinks this article should be deleted. DE, DK and UK pointed to the risks for the competitive positions of companies if they were to be obliged to apply this rule unqualifiedly and referred to raises serious issues about intellectual property and commercial confidentiality for all controllers. DE, SE and UK pointed to the considerable administrative burdens this article would imply. DE and FR referred to services, such as health services where the exercise of the right to data portability might endanger on-going research or the continuity of the service. Reference was also made to an increased risk of fraud as it may be used to fraudulently obtain the data of innocent data subjects (UK). ES, FR and IE were broadly supportive of this right. SK thought that the article was unenforceable and DE referred to the difficulty/impossibility to apply this right in 'multi-data subject' cases where a single 'copy' would contain data from several data subjects, who might not necessarily agree or even be known or could not be contacted.

DE, IT and SI scrutiny reservation; there is no definition of an 'automated processing system', which could cover almost anything.

COM scrutiny reservation.
2a. The right referred to in paragraph 2 shall be without prejudice to intellectual property rights.

[3. The Commission may specify (...) the technical standards, modalities and procedures for the transmission of personal data pursuant to paragraph 2. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2).]^{166}

4. (...)^{167}

^{166} FR, HU, SE and UK reservation: this would better set out in the Regulation itself.

^{167} Deleted in view of the new articles 83a to 83c.
SECTION 4

RIGHT TO OBJECT AND PROFILING

Article 19

Right to object\footnote{DE, ES, EE, AT, SI, SK and UK scrutiny reservation.}

1. The data subject shall have the right to object, on\footnote{COM reservation.} reasoned\footnote{The reference to point (e) of Article 6(1) was deleted in view of the objections by BE, CZ, DE, DK, FR and HU. COM reservation on deletion. UK, supported by DE, queried whether the right to object would still apply in a case where different grounds for processing applied simultaneously, some of which are not listed in Article 6. ES and LU queried why Article 6(1) (c) was not listed here.} grounds relating to his or her particular situation, at any time to the processing of personal data concerning him or her which is based on point (…) (f) of Article 6(1)\footnote{SE scrutiny reservation: SE and NL queried the need to put the burden of proof on the controller regarding the existence of compelling legitimate grounds. DE and FI queried the need for new criteria, other than those from the 1995 Directive. COM stressed that the link with the 'particular situation' was made in order to avoid whimsical objections. CZ also stated that this risked making processing of data an exceptional situation due to the heavy burden of proof. NL and SE queried whether the right would also allow objecting to any processing by third parties.}; the personal data shall no longer be processed unless the controller demonstrates (…) legitimate grounds for the processing which override the interests or (…) rights and freedoms of the data subject\footnote{SE scrutiny reservation: SE and NL queried the need to put the burden of proof on the controller regarding the existence of compelling legitimate grounds. DE and FI queried the need for new criteria, other than those from the 1995 Directive. COM stressed that the link with the 'particular situation' was made in order to avoid whimsical objections. CZ also stated that this risked making processing of data an exceptional situation due to the heavy burden of proof. NL and SE queried whether the right would also allow objecting to any processing by third parties.}.
1a. (…) Where an objection is upheld pursuant to paragraph 1 (…), the controller shall no longer (…)172 process the personal data concerned except for the establishment, exercise or defence of legal claims173.

2. Where personal data are processed for direct marketing174 purposes, the data subject shall have the right to object (…) at any time to the processing of personal data concerning him or her for such marketing. This right shall be explicitly brought to the attention of the data subject (…) and shall be presented clearly and separately from any other information175.

172 ES proposed to reformulate the last part of this paragraph as follows: 'shall inform the data subject of the compelling legitimate reasons applicable as referred to in paragraph 1 above, or otherwise shall no longer use or otherwise process the personal data concerned'.

173 UK proposed adding ' for demonstrating compliance with the obligations imposed under this instrument'. This might also cover the concern raised by DE that a controller should still be able to process data for the execution of a contract if the data were obtained further to a contractual legal basis. CZ, DK, EE, IT, SE and UK have likewise emphasised the need for allowing to demonstrate compliance. CZ and SK also referred to the possibility of further processing on other grounds.

174 FR and UK underlined the need to have clarity regarding the exact content of this concept, possibly through a definition of direct marketing. DE asked which cases were covered exactly.

175 At the request of several delegations (FR, LT, PT), COM confirmed that this paragraph was not meant to create an opt-in system and that the E-Privacy Directive would remain unaffected. DE feels there is a need to clarify the relationship between Article 19(2) on the one hand and Article 6(1)(f) and Article 6(4) on the other. It can be concluded from the right to object that direct marketing without consent is possible on the basis of a weighing of interests. On the other hand, Article 6(1)(f) no longer refers to the interests of third parties and Article 6(4) also no longer refers to Article 6(1)(f) in regard to data processing which changes the original purpose. DE is therefore of the opinion that this also needs to be clarified in view of online advertising and Directive 2002/58/EC and Article 89 of the Proposal for a Regulation.
2a. Where the data subject objects to the processing for direct marketing purposes, the personal data shall no longer be processed for such purposes.

3. (...)

4. (...)

**Article 20**

**Profiling**

1. Every data subject shall have the right not to be subject to a decision based solely on profiling which produces legal effects concerning him or her or severely affects him or her unless such processing:

---

176 Deleted in view of the new articles 83a to 83c, where - as is currently the case under Directive 95/46- no exception to Article 19 is provided.

177 DE, ES, FR, AT, PL, SE and UK scrutiny reservation. COM reservation: COM is of the opinion that that the level of data protection in the current draft of this article is below that of Directive 95/46. DE thinks this provision must take account of two aspects, namely, whether and under what conditions a profile (= the linking of data which permits statements to be made about a data subject’s personality) may be created and further processed, and, secondly, under what conditions a purely automated measure based on that profile is permissible if the measure is to the particular disadvantage of the data subject. It appears expedient to include two different rules in this regard. According to DE Article 20 only covers the second aspect and DE would like to see a rule included on profiling in regard to procedures for calculating the probability of specific behaviour (cf. Article 28b of the German Federal Data Protection Act, which requires that a scientifically recognized mathematical/statistical procedure be used which is demonstrably essential as regards the probability of the specific behaviour).

178 DE and PL wondered whether automated data processing was the right criterion for selecting high risk data processing operations and provided some examples of automated data processing operation which it did not consider as high risk. DE and ES pointed out that there are also cases of automated data processing which actually were aimed at increasing the level of data protection (e.g. in case of children that are automatically excluded from certain advertising).
(a) is carried out in the course of the entering into, or performance of, a contract between the data subject and a data controller and suitable measures to safeguard the data subject's legitimate interests have been adduced, such as the rights of the data subject to obtain human intervention on the part of the controller, to express his or her point of view, and to contest the decision\(^{179}\); or

(b) is (...) authorized by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's legitimate interests; or

(c) is based on the data subject's explicit consent (...).

2. (...)

3. Profiling shall not (...) be based on special categories of personal data referred to in Article 9(1), unless Article 9(2) applies and suitable measures to safeguard the data subject's legitimate interests\(^{180}\) are in place.

4. (...)

5. (...)

---

\(^{179}\) NL had proposed to use the wording 'and arrangements allowing him to put his point of view, inspired by Article 15 of Directive 95/46. BE suggested adding this for each case referred in paragraph 2.

\(^{180}\) BE, FR, IT, PL, PT, AT, SE and UK reservation FR and AT reservation on the compatibility with the E-Privacy Directive. BE would prefer to reinstate the term 'solely based', but FR and DE had previously pointed out that 'not … solely' could empty this prohibition of its meaning by allowing sensitive data to be profiled together with other non-sensitive personal data. DE would prefer to insert a reference to a the use of pseudonymous data.
SECTION 5
RESTRICTIONS

Article 21
Restrictions\(^{181}\)

1. Union or Member State law to which the data controller or processor is subject may restrict by way of a legislative measure the scope of the obligations and rights provided for in points (a) to (e) of Article 5\(^{182}\) and Articles 12 to 20 and Article 32, when such a restriction constitutes a necessary and proportionate measure in a democratic society to safeguard\(^{183}\).

---

\(^{181}\) SI and UK scrutiny reservation. SE and UK wondered why paragraph 2 of Article 13 of the 1995 Data Protection Directive had not been copied here. IT and NL also referred to the importance of having the possibility to provide derogations for statistical purposes. DE, supported by DK, HU, RO, PT and SI, stated that para. 1 should not only permit restrictions of the rights of data subjects but also their extension. For example, Article 20(2)(b) requires that Member States lay down 'suitable measures to safeguard the data subject’s legitimate interests', which, when they take on the form of extended rights of access to information as provided for under German law in the case of profiling to assess creditworthiness (credit scoring), go beyond the Proposal for a Regulation. With an eye to Article 6(3), the Member States also need flexibility especially in the public sector or in the health sector when it comes to laying down and framing specific rules (esp. in regard to earmarking, the nature of the data and the recipient) and enacting stricter rules. DE and EE thought the derogations should distinguish between the private and the public sector.

\(^{182}\) BE, DE, HU, FI, FR, LU, AT and PL thought that the reference to Article 5 should be deleted, as the principles of Article 5 should never be derogated from. IE and UK opposed this; with IE citing the example of 'unfair' data collection by insurance companies which might be necessary to rebut false damage claims. UK asked for clarification as to why Articles 6-10 are not covered by the exemption.

\(^{183}\) PL deemed such list not appropriate in the context of a Regulation. IT remarked that this demonstrated the impossibility of full harmonisation. GR and LU thought that it needed to be ensured that the exceptions would be interpreted and applied in a restrictive manner.
(aa) national security;

(ab) defence;

(a) public security;

(b) the prevention, investigation, detection and prosecution of criminal offences and, for these purposes, the maintenance of public order, or the execution of criminal penalties;

(c) other important objectives of general public interests of the Union or of a Member State, in particular an important economic or financial interest of the Union or of a Member State, including monetary, budgetary and taxation matters and the protection of market stability and integrity;

(d) the prevention, investigation, detection and prosecution of breaches of ethics for regulated professions;

(e) a monitoring, inspection or regulatory function connected, even occasionally, with the exercise of official authority in cases referred to in (a), (b), (c) and (d);

(f) the protection of the data subject or the rights and freedoms of others.

---

184 DE, IT scrutiny reservation as to the broad character of this exemption. SE thought it should be moved to a separate subparagraph.
185 DK and UK scrutiny reservation on the adjective 'important'.
186 BE and FR suggested adding 'public health' and 'social security'. The Commission's argued that 'public health' was already covered by point (f).
2. Any legislative measure referred to in paragraph 1 shall contain specific provisions at least as to **the purposes of the processing or categories of processing, the categories of personal data, the scope of the restrictions introduced, the specification of the controller or categories of controllers and the applicable safeguards taking into account of the nature, scope and purposes of the processing and the risks for the rights and freedoms of data subjects.**
CHAPTER IV

CONTROLLER AND PROCESSOR

SECTION 1
GENERAL OBLIGATIONS

Article 22

Obligations of the controller

1. Taking into account the nature, context, scope and purposes of the processing and the risks for the rights and freedoms of data subjects, the controller shall (...) implement appropriate measures and be able to demonstrate that the processing of personal data is performed in compliance with this Regulation.

---

187 DK, PT, SI and UK scrutiny reservation on the entire chapter. BE stated that it was of the opinion that the proposed rules, while doing away with the general notification obligation on controllers, did not reduce the overall administrative burden/compliance costs for controllers. The Commission disagreed with this. DE, DK, NL, PT and UK were not convinced by the figures provided by COM according to which the reduction of administrative burdens outbalanced any additional burdens flowing from the proposed Regulation. FR referred to the impact this article should have on members of the professions (professions libéraux) who collect sensitive data as part of their work (e.g. health professionals).

188 DE scrutiny reservation. UK thought this Article could be deleted as it overlaps with existing obligations. UK thought it focuses too much on procedures rather than on outcomes. DE, LT and PT deplored that Article 22 does not contain an exception for SMEs. BE remarked that anyone who puts a photo on social media might be considered as a controller. SK proposed introducing a new concept of 'entitled person' in Article 4, together with obligations for the controller and processor to instruct their 'entitled persons' who come into contact with personal data about rights and obligations under this regulation as well as laying down responsibility for their infringement.

189 Several delegations stressed that the risk concept should be further detailed: DE, ES, HU, NL, PT, FI and RO. DE, ES and SE pointed out a description or definition of low risk was missing.

190 BE and UK referred to the danger in maintaining such a vaguely worded obligation, applicable to all controllers, non-compliance of which is liable to sanctions.
2.  (...)

2a. Where proportionate in relation to the processing activities, the measures referred to in paragraph 1 shall include the implementation of appropriate data protection policies by the controller.

2b. Compliance with the obligations of the controller may be demonstrated by means of adherence to codes of conduct pursuant to Article 38 or a certification mechanism pursuant to Article 39.

3.  (...)

4.  (...)

---

191 PL asked for the reinstatement of this paragraph.
192 HU and PL thought this wording allowed too much leeway to controllers. AT thought that in particular for the respects to time limits and the reference to the proportionality was problematic.
193 UK thought this was too complicated. ES thought the concept of 'appropriate data protection policies' was too vague.
194 Reference to auditors deleted in view of the remarks made by CZ, ES and IT.
Article 23

Data protection by design and by default

1. Having regard to available technology and the cost of implementation and taking account of the risks for rights and freedoms of individuals posed by the nature, scope and purpose of the processing, the controller shall (…), implement (…) technical and organisational measures appropriate to the processing activity being carried on and its objectives, including the use of pseudonymous data, in such a way that the processing will meet the requirements of this Regulation and (…) protect the rights of (…) data subjects.

2. The controller shall implement appropriate measures for ensuring that, by default, only (…) personal data (…) which are not excessive for each specific purpose of the processing are processed; this applies to the amount of (…) data collected, the period of their storage and their accessibility. Where the purpose of the processing is not intended to provide the public with information, those mechanisms shall ensure that by default personal data are not made accessible without human intervention to an indefinite number of individuals.

---

195 DE scrutiny reservation; UK reservation: UK thought this should not be set out in the Regulation. FR scrutiny reservation: FR and LT sought clarification on the scope of the data protection by design and by default and on why the processor was not included. DE and MT thought that more emphasis should be put on pseudonymising and anonymising data. DE thought that, in view of Article 5(c), the principle of data economy and avoidance, as well as anonymisation and pseudonymisation should be listed as key options for implementation. It also thought data protection by design and by default should be more used in response to risky data processing operations. ES thought that the term 'non-excessive data processing' was preferable to 'data protection by design'. FR also queried the exact meaning of the terms used in the title.

196 NL stated this paragraph added little in terms of legal obligations compared to other articles in the draft regulation. It might be moved to a recital.

197 ES proposed to replace 'necessary' by 'not excessive in quantity'.

198 DE, IT and SE reservation; DE and UK queried the exact meaning of the last sentence for social media. SE thought this would be better moved to the recitals. BE and FR asked what this added to the principle of data minimisation contained in Article 5. AT thought the second sentence should be retained.
2a. The controller may demonstrate compliance with the requirements set out in paragraphs 1 and 2 by means of a certification mechanism pursuant to Article 39.

3. (…)

4. (…)

Article 24

Joint controllers 199

1. (…) Joint controllers shall in a transparent manner determine their respective responsibilities for compliance with the obligations under this Regulation, in particular as regards the (…) exercising of the rights of the data subject and their respective duties to provide the information referred to in Articles 14 and 14a, by means of an arrangement between them 200 unless, and in so far as, the respective responsibilities of the controllers are determined by Union or Member State law to which the controllers are subject.

199 EE scrutiny reservation. SI and UK reservation: UK thought this provision should be deleted. UK and ES thought this article does not take sufficiently account of cloud computing. CZ, DE and NL expressed grave doubts about the enforceability of this provision in the private sector outside arrangements within a group of undertakings. CZ and DE thought this article should contain a safeguard against outsourcing of responsibility. FR thought the allocation of liability between the controller and the processor is very vague. DE emphasised that it would be in the interest of the data subject to have clear rules and thought the article should therefore be clarified. Other delegations (DK, EE, SE, SI and UK) warned against potential legal conflicts on the allocation of the liability. SE thought that the allocating respective liability between public authorities should be done by legislation. SI scrutiny reservation.

200 BE proposed adding: 'The arrangement shall duly reflect the joint controllers’ respective effective roles vis-à-vis data subjects. The arrangement shall designate the supervisory authority in accordance with Article 51. The arrangement shall designate which of the joint controllers shall act as single point of contact for data subjects to exercise their rights.' ES suggested adding 'For this agreement to be valid in relation to data subjects, it must be documented and must have been brought to their attention beforehand; otherwise, the aforementioned rights may be exercised in full before any of the controllers, and it shall be incumbent on them to ensure precise compliance with the legally established benefits.' SK also pleaded in favour of informing data subjects of any arrangements between several controllers.
2. Irrespective of the terms of the arrangement referred to in paragraph 1, the data subject may exercise his or her rights under this Regulation in respect of and against each of the (...) controllers\textsuperscript{201} unless the data subject has been informed in a transparent manner which of the joint controllers is responsible.

\textit{Article 25}

\textit{Representatives of controllers not established in the Union}\textsuperscript{202}

1. \textbf{Where} Article 3(2) \textbf{applies}, the controller shall designate \textbf{in writing} a representative in the Union\textsuperscript{203}.

2. This obligation shall not apply to:

\textsuperscript{201} DE, FR emphasised that it would be in the interest of the data subject to have clear rules which allow it to address its requests to all controllers concerned. Potential language problems in case of controllers established in different Member States were also highlighted. ES indicated that such arrangements can never be to the detriment of the data subject's rights and its proposal for paragraph 2 seeks to take account of the concerns.

\textsuperscript{202} DE, GR and UK scrutiny reservation. Several delegations (DE, NL, SE) expressed doubts as to whether the tool of obliging controllers not established in the EU to appoint representatives was the right one to ensure the application of EU data protection law to the offering of services and goods in the EU, in view, inter alia, of the low success of this tool under the 1995 data protection directive. CZ and UK also questioned the enforceability of this provision and thought it should be considered alongside Article 3(2). BE, DE FR, IT, PL and UK argued that, if such obligation were to be imposed, the Regulation, Article 79(6)(f) of which provides a mandatory fine for failure to appoint a representative, should clearly allocate duties and tasks to the representative. Reference was also made to the lack of clarity regarding possible sanctions in case of non-designation of a representative. FR also thought the representative’s contact details should mandatorily be communicated to the DPA and referred specifically to the potentially problematic case of non-EU air carriers which, often in cooperation with EU carriers, offered flights to EU residents and might not have a representative in the Union.

\textsuperscript{203} SI reservation.
(a) a controller established in a third country where the Commission has decided that the third country ensures an adequate level of protection in accordance with Article 41\(^{204}\); or

(b) an enterprise employing fewer than 250 persons unless the processing it carries out involves specific risks for the rights and freedoms of data subjects, having regard to the nature, scope and purposes of the processing\(^{205}\); or

(c) a public authority or body\(^{206}\).

(d) (…)\(^{207}\)

\(^{204}\) BE, DE, IT, NL, PL and SK reservation: they thought this indent should be deleted. At the request of several delegations, COM confirmed that this indent also covered the Safe Harbour Agreement. It also pointed out that under Article 41(2)(1) of its proposal having effective and enforceable rights was precisely one of the determining elements to be taken into account in the case of an adequacy decision.

\(^{205}\) BE, DE, ES, FR, FI, GR, IT, LT, LV, PL, PT and SK remarked that the SME-criterion in itself, while being relevant, could not be sufficient to determine the applicability of the obligation to appoint a representative. The risk inherent in data processing operations should be more important and this text proposal seeks to incorporate this element. DE remarked that the proposed criterion itself would exclude 99.8 % of all enterprises in third countries from the scope of this obligation. FR thought that the risk-criterion should be described in a uniform manner throughout the Regulation.

\(^{206}\) SI thought this should be drafted more broadly so as to encompass any body which exercised sovereign governmental powers.

\(^{207}\) DE and SK thought that this scenario was not covered by Article 3(2). There appears to be no more need for this subparagraph now in view of the revised recital 23.
3. The representative shall be established in one of those Member States where the data subjects whose personal data are processed in relation to the offering of goods or services to them, or whose behaviour is monitored, reside\textsuperscript{208}.

3a. The representative shall be mandated by\textsuperscript{209} the controller to be addressed in addition to or instead of the controller by, in particular, supervisory authorities and data subjects, on all issues related to the processing of personal data, for the purposes of ensuring compliance with this Regulation.

4. The designation of a representative by the controller shall be without prejudice to legal actions which could be initiated against the controller itself.

\textsuperscript{208} DE pointed out that paragraph 3 leaves it entirely up to businesses offering EU-wide internet services where they appoint a representative within the EU; it thought that this should be done in accordance with the rule on supervisory jurisdiction in the cases referred to in Article 3(2). At any rate, the supervisory authority in that Member State in which the representative is appointed should have jurisdiction.

\textsuperscript{209} BE proposed to state 'is liable'.
Article 26

Processor\textsuperscript{210}

1. (…)

The controller shall use only processors providing sufficient guarantees\textsuperscript{212} to implement appropriate technical and organisational measures (…) in such a way that the processing will meet the requirements of this Regulation (…)\textsuperscript{213, 214}

1a. The provision of sufficient guarantees referred to in paragraph 1 may be demonstrated by means of adherence to codes of conduct pursuant to Article 38 or a certification mechanism pursuant to Article 39.

2. The carrying out of processing by a processor shall be governed by a contract setting out the subject-matter and duration of the contract, the nature and purpose of the processing, the type of personal data and categories of data subjects or other legal act\textsuperscript{215} binding the processor to the controller and stipulating in particular that the processor shall:

\textsuperscript{210} CZ reservation: this article should be deleted. Several delegations (DE, EE, FR IT, LU, NL, SI, SK and UK) pointed to the difficulties in distinguishing the roles of controllers and processors, in particular in the context of cloud computing, where the controller often can not exercise (full) control over the way in which the processor handles the data and thought the proposed provision did not reflect the realities of cloud computing. DE thought the provision needed to be re-examined to see to what extent it is applicable to and meaningful for existing and emerging procedures and services in the health sector, in particular the processing of pseudonymised data or data rendered unintelligible and the administration of medical file systems under the patient’s control (‘Google health’, ‘health vault’).

\textsuperscript{211} DE proposed starting the sentence by stating that the controller shall be responsible for ensuring compliance with data protection rules.

\textsuperscript{212} DK and FR thought the ‘sufficient guarantees’ should be detailed.

\textsuperscript{213} The latter part of the article was deleted as it added nothing substantial: IE, NL and SE. DE thought it could be put in a separate sentence.

\textsuperscript{214} Some delegations thought it should be explicitly stated that the rights of the data subject and the right to compensation for damages must be asserted against the controller.

\textsuperscript{215} FR wanted to know what was meant by an ‘other legal act’.
(a) process the personal data only on instructions from the controller (…)216, unless required to do so by Union or Member State law to which the processor is subject and in such a case, the processor shall notify the controller unless the law prohibits such notification;

(b) (…)

c) take all (…) measures required pursuant to Article 30;

d) determine the conditions for enlisting another processor (…)217;

e) as far as (…) possible, taking into account the nature of the processing218, assist the controller in responding to requests for exercising the data subject’s rights laid down in Chapter III;

---

216 DE wondered whether this requirement was feasible in the context of social media.

217 UK thought this overlapped with other parts of the Regulation (Article 26,(2)(a) and 30). BE thought the requirement should be deleted and DE thought it should at least have been limited to establishment of contractual relationships. AT and SK scrutiny reservation: SK thought there were many questions surrounding the relation with this 'secondary' processor.

218 FR thought this was unclear and should possibly replaced by a reference to risk. IT thought different types of risk could be referred to here.
(f) determine the extent to which the controller is to be assisted in ensuring compliance with the obligations pursuant to Articles 30 to 34;

(g) return the personal data after the completion of the processing specified in the contract or other legal act, unless there is a requirement to store the data under Union or Member State law to which the processor is subject;

(h) make available to the controller (...) all information necessary to demonstrate compliance with the obligations laid down in this Article.

3. The contract referred to in paragraph 2 shall be in writing or in an electronic or other non-legible form which is capable of being converted into a legible form.

4. (...)

5. (...)

---

219 Drafting amended in order to accommodate. FR, ES and NL request that there should be an obligation to return the data.

220 DE referred to 'the principal’s rights of supervision and the contractor’s corresponding rights of tolerance and involvement', for instance rights of entry, certified auditor’s obligations to report periodically.

221 COM reservation on deletion.
Article 27

Processing under the authority of the controller and processor

(...)

Article 28

Records\textsuperscript{223} of categories of personal data processing activities\textsuperscript{224}

1. Each controller (...)

and, if any, the controller's representative, shall maintain a record of all categories of personal data processing activities under its responsibility.\textsuperscript{226} This record shall contain (...) the following information:

(a) the name and contact details of the controller and any joint controller (...), controller’s representative and data protection officer, if any;

\textsuperscript{222} ES, FR, SI and UK stated that it is difficulty to see what is the added value of this Article as compared to Article 26, §2(b). As for employees of the controller, the latter will always be liable for any data protection violations carried out by the former. All confidentiality duties have now been moved to Article 30.

\textsuperscript{223} PL and SK suggested to specify that the records could be kept 'in paper or electronically', but it was decided to keep the wording technologically neutral.

\textsuperscript{224} AT and SI scrutiny reservation. UK stated that it thought that the administrative burden caused by this Article nullified the benefits if the proposed abolition of the notification obligation. DE, LU, NL and SE shared these concerns.

\textsuperscript{225} Several delegations (BE, DE) thought the processor should not have cumulative obligations with the controller. ES and UK pointed out that the impact of cloud computing needed further reflection.

\textsuperscript{226} FR thought it should be specified for how long the documentation needed to be kept.

\textsuperscript{227} ES proposed to insert a sentence along the following lines: 'Controllers that do not have a data protection officer or sufficient certificate in force, shall have the legally established documentation form with regard to all processing operations carried out under their responsibility'. NL thought the keeping of documentation should be made conditional upon a prior risk assessment: 'Where a data protection impact assessment as provided for in Article 33 indicates the processing operation presents a high degree of risk, referred to in Article 33'. RO is also in favour of a less prescriptive list.
(b) (…) 

c) the purposes of the processing, including the legitimate interest when the processing is based on Article 6(1)(f)\textsuperscript{228};

d) a description of categories of data subjects and of the categories of personal data relating to them;

e) the (…) categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries;

f) where applicable, the categories of transfers of personal data to a third country or an international organisation (…)\textsuperscript{229};

g) where possible, the envisaged time limits for erasure of the different categories of data.

(h) (…) 

2a. Each processor\textsuperscript{230} shall maintain a record of all categories of personal data processing activities carried out on behalf of a controller, containing:

(a) the name and contact details of the processor or processors and of each controller on behalf of which the processor is acting, and of the controller's representative, if any;

(b) the name and contact details of the data protection officer, if any;

\textsuperscript{228} UK suggested deleting it, as it overlaps with Article 6(1)(f).

\textsuperscript{229} UK reservation.

\textsuperscript{230} UK thinks this article should not apply to processor(s at all, as all their processing activities are carried out under the responsibility of the controller.
(c) the categories of processing carried out on behalf of each controller;

(d) where applicable, the categories of transfers of personal data to a third country or an international organisation.

3a. The records referred to in paragraphs 1 and 2a shall be in writing or in an electronic or other non-legible form which is capable of being converted into a legible form.

3. On request, the controller and the processor and, if any, the controller's representative, shall make the record available (…) to the supervisory authority.

4. The obligations referred to in paragraphs 1 and 2a shall not apply to:

(a) (…)232

(b) an enterprise or a body employing fewer than 250 persons, unless the processing it carries out involves specific risks for the rights and freedoms of data subjects, having regard to the nature, scope and purposes of the processing; or

---

231 SI wondered why the data subject was not mentioned here. COM stated this information of the data subject is covered by the general principles. FI proposed to insert an exception in case the controller is subject to a professional secrecy duty, but this is already covered by Article 84 of the regulation.

232 COM reservation on deletion.

233 Many delegations criticised the appropriateness of this criterion: AT, BE, DE, DK, ES, FR, GR, IT, LT, LU, NL, MT, PT, and SE. At the suggestion of BE, the criterion was narrowed in the same way as in Article 25(2)(b).
(c) categories of processing activities which by virtue of the nature, scope or purposes of the processing are unlikely to represent specific risks for the rights and freedoms of data subjects.

5. (…)

6. (…)

*Article 29*

*Co-operation with the supervisory authority*

(…)235

---

234 Proposal inspired by Article 18(2) of the Data Protection Directive, in order to take account of delegations that thought that the proposed exceptions were not well-founded and that risk-based exceptions would be preferable. FR thinks that the risk-based approach cannot lead to exemption of certain types of processing operations.

235 PT and ES scrutiny reservation on deletion.
SECTION 2
DATA SECURITY

Article 30
Security of processing

1. Having regard to available technology and the costs of implementation and taking into account the nature, context, scope and purposes of the processing and the risks for the rights and freedoms of data subjects, the controller and the processor\textsuperscript{236} shall implement appropriate technical and organisational measures, including the use of pseudonymous data to ensure a level of security appropriate to these risks.

2. (…)

2a. The controller and processor may demonstrate compliance with the requirements set out in paragraph 1 by means of adherence to codes of conduct pursuant to Article 38 or a certification mechanism pursuant to Article 39.

2b. The controller and processor shall take steps to ensure that any person acting under the authority of the controller or the processor who has access to personal data shall not process them except on instructions from the controller, unless he or she is required to do so by Union or Member State law.

3. (…)

4. (…)

\textsuperscript{236} Several delegations thought that the controller should have the main responsibility (NO, NL, RO, UK).
Article 31

Notification of a personal data breach to the supervisory authority237

1. In the case of a personal data breach which is likely to severely affect the rights and freedoms of data subjects238, the controller shall without undue delay and, where feasible, not later than 72 hours after having become aware of it, notify the personal data breach to the supervisory authority competent in accordance with Article 51. The notification to the supervisory authority shall be accompanied by a reasoned justification in cases where it is not made within 72 hours.

1a. The notification referred to in paragraph 1 shall not be required if a communication of the data subject is not required under Article 32(3)(a) and (b)239.

2. (…) The processor shall alert and inform the controller without undue delay after becoming aware of a personal data breach240 241.

---

237 AT and SI scrutiny reservation. COM reservation: the consistency with the E-Privacy Directive regime should be safeguarded.
238 BE suggested adding: ‘or creates a risk for the data subjects’.
239 BE thought that also point (a) of Article 32(3) should be added here.
240 The Commission highlighted the importance of this obligation, in particular in the context of cloud computing. UK thought this should be moved to Article 26.
241 DE remarked that in view of the Commission proposal of 7 February 2013 for a Directive concerning measures to ensure a high level of network and information security across the Union (COM(2013) 48 final), it should be checked whether in certain cases the authority competent for network and information security should also be notified.
3. The notification referred to in paragraph 1 must at least:

(a) describe the nature of the personal data breach including, where possible and appropriate, the categories and number of data subjects concerned and the categories and approximate number of data records concerned;

(b) communicate the identity and contact details of the data protection officer or other contact point where more information can be obtained;

(c) (…)

(d) describe the likely consequences of the personal data breach identified by the controller;

(e) describe the measures taken or proposed to be taken by the controller to address the personal data breach; and

(f) where appropriate, indicate measures to mitigate the possible adverse effects of the personal data breach.

3a. Where, and in so far as, it is not possible to provide the information referred to in paragraph 3 (d), (e) and (f) at the same time as the information referred to in points (a) and (b) of paragraph 3, the controller shall provide this information without undue further delay.
4. The controller shall document any personal data breaches referred to in paragraphs 1 and 2, comprising the facts surrounding the breach, its effects and the remedial action taken. This documentation must enable the supervisory authority to verify compliance with this Article. 

5. 

[6. The Commission may lay down the standard format of such notification to the supervisory authority, the procedures applicable to the notification requirement and the form and the modalities for the documentation referred to in paragraph 4, including the time limits for erasure of the information contained therein. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2).]

---

242 AT, LU and FR queried what was the retention period for this documentation. IT proposed to insert a reference to the estimated severity of the remedial action taken.

243 BE, DE, IT, LT, RO and UK pleaded for the deletion of paragraph 6.
Article 32

Communication of a personal data breach to the data subject

1. When the personal data breach is likely to severely affect the rights and freedoms of the data subject, the controller shall communicate the personal data breach to the data subject without undue delay.

2. The communication to the data subject referred to in paragraph 1 shall describe the nature of the personal data breach and contain at least the information and the recommendations provided for in points (b), (e) and (f) of Article 31(3).

3. The communication (...) to the data subject referred to in paragraph 1 shall not be required if:

---

244 AT scrutiny reservation. COM reservation: the consistency with the E-Privacy Directive regime should be safeguarded. NL thought there should be an exception for statistical data processing. FR thought that the possible application to public/private archives required further scrutiny.

245 BE and SK scrutiny reservation. BE suggested adding: ‘or creates a risk for the data subjects’.

246 AT, PT and SE clarified there is no valid reason why the data subject should always be informed after the DPA. Therefore this part has been deleted. DE however proposed to start this paragraph by stating: 'As soon as appropriate measures have been taken to render the data secure or where such measures were not taken without undue delay and there is no longer a risk for the criminal prosecution'

247 PL suggested specifying this could be done either in paper or electronic form.

248 DE proposed adding “in generally comprehensible terms”, but this is already covered by Article 12.
the controller (…)\textsuperscript{249} has implemented appropriate technological protection measures and (…) those measures were applied to the data affected by the personal data breach, in particular those that\textsuperscript{250} render the data unintelligible to any person who is not authorised to access it, such as encryption or the use of pseudonymous data\textsuperscript{251} \textsuperscript{252}; or

b. the controller has taken subsequent measures which ensure that the data subjects' rights and freedoms are no longer likely to be severely affected; or

c. it would involve disproportionate effort, in particular owing to the number of cases involved. In such case, there shall instead be a public communication or similar measure whereby the data subjects are informed in an equally effective manner; or

\textsuperscript{249} NL and FR criticised the subjective criterion of satisfying to the satisfaction of the DPA. More generally, NL opined that there was danger of the data protection authority would obtain company secrets from the data controller which the DPA might be obliged to disclose under access to document legislation.

\textsuperscript{250} BE proposed 'have the purpose'.

\textsuperscript{251} AT, FR, IT and PT reservation on reference to pseudonymised data. See however new recital 68a.

\textsuperscript{252} MT and UK thought this exception should also be inserted to Article 31. There might nevertheless be cases where it still might be useful to inform the DPA.
d. it would adversely affect a substantial public interest.

4. (…)

5. (…)

[6. The Commission may lay down the format of the communication to the data subject referred to in paragraph 1 and the procedures applicable to that communication. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2).\textsuperscript{253}]

\textsuperscript{253} BE, CZ, DK, DE, ES, PL and UK pleaded for the deletion of paragraph 6.
SECTION 3
DATA PROTECTION IMPACT ASSESSMENT AND PRIOR AUTHORISATION

Article 33
Data protection impact assessment

1. Where the processing, taking into account the nature, scope or purposes of the processing, is likely to present specific risks for the rights and freedoms of data subjects, the controller shall, prior to the processing, carry out an assessment of the impact of the envisaged processing operations on the protection of personal data.

2. The following processing operations present specific risks referred to in paragraph 1:

---

254 ES, HU and UK scrutiny reservation; FR thought that the possible application to public/private archives required further scrutiny.
255 ES thought that such assessment should not be required in all cases and wanted to restrict the scope of the Article. ES, FR, LU, PT, RO, SK, SI and UK warned against the considerable administrative burdens flowing from the proposed obligation.
256 BE scrutiny reservation.
257 Deleted in view of BE, DK, FR, SE and PL reservation on reference to processor. COM reservation on deletion.
258 ES had proposed exempting certified processing operations. BE, CZ, EE and had proposed exempting a controller who had appointed a DPO.
(a) a systematic and extensive evaluation (…) of personal aspects relating to (…) natural persons (…), which is based on profiling and on which decisions \(^{259}\) are based that produce legal effects concerning data subjects or severely affect data subjects \(^{260}\);

(b) data revealing racial or ethnic origin, political opinions, religion or philosophical beliefs, trade-union membership, and the processing of genetic data or data concerning health or sex life or criminal convictions and offences or related security measures, where the data are processed for taking (…) decisions regarding specific individuals on a large scale \(^{261}\);

(c) monitoring publicly accessible areas on a large scale, especially when using optic-electronic devices (…) \(^{262}\);

\(^{259}\) BE proposed to replace this by wording similar to that used for profiling in Article 20: 'decision which produces adverse legal effects concerning this natural person or significant adverse effects concerning this natural person'. DE and NL also thought the drafting could be improved.

\(^{260}\) FR thought profiling measures might need to be covered by this Article, but this type of processing is largely covered by paragraph 2(a).

\(^{261}\) DE proposed referring to ‘particularly sensitive personal information, in particular special categories of personal data under Article 9(1), data on children, genetic data or biometric data’. FR and IT are also supportive of the inclusion on sensitive data.

\(^{262}\) BE, FR, SK and IT asked for the deletion or better definition of 'large scale'. COM referred to recital 71 and said that the intention was not to cover every camera for traffic surveillance, but only 'large scale'. DE proposed the following text: ‘processing operations involving personal data which are particularly invasive, for example, on account of their secrecy, where a new technology is used, where it is more difficult for data subjects to exercise their rights, or where legitimate expectations are not met, for example owing to the context of the processing operation’.
(d) personal data in large scale processing systems containing genetic data or biometric data;263

(e) other operations where the competent supervisory authority considers that the processing is likely to present specific risks for the rights and freedoms of data subjects.264

2a. The supervisory authority shall establish and make public a list of the kind of processing which are subject to the requirement for a data protection impact assessment pursuant to point (e) of paragraph 2. The supervisory authority shall communicate those lists to the European Data Protection Board. 265

2b. Prior to the adoption of the list the supervisory authority shall apply the consistency mechanism referred to in Article 57 where the list provided for in paragraph 2a involves processing activities which are related to the offering of goods or services to data subjects in several Member States, or to the monitoring of their behaviour, or may substantially affect the free movement of personal data within the Union. 266

---

263 COM reservation on deletion of reference to children. DE proposed ‘processing operations which have especially far-reaching consequences, which are in particular irreversible or discriminatory, which prevent data subjects from exercising a right or using a service or a contract, or which have a major impact on a large number of persons’.

264 BE and DE reservation: in favour of deleting this subparagraph. NL and PL thought a role could be given to the EDPB in order to determine high-risk operations.

265 New paragraph 2a moved from Article 34(4) and aligned with revised point (e) of paragraph 2. BE, CZ, EE and DE reservation.

266 New paragraph 2b moved from Article 34(5) and aligned with revised point (e) of paragraph 2. BE, CZ, EE and DE reservation.
3. The assessment shall contain at least a general description of the envisaged processing operations, an assessment of the risks for rights and freedoms of data subjects, the measures envisaged to address the risks, safeguards, security measures and mechanisms to ensure the protection of personal data and to demonstrate compliance with this Regulation, taking into account the rights and legitimate interests of data subjects and other persons concerned.

4. (…)

5. Where a controller is a public authority or body and where the processing pursuant to point (c) or (e) of Article 6(1) has a legal basis in Union law or the law of the Member State to which the controller is subject, paragraphs 1 to 3 shall not apply, unless Member States deem it necessary to carry out such assessment prior to the processing activities.

6. (…)

7. (…)

---

267 DE suggests adding 'also in view of Article 30'.
268 NL proposes to specify this reference and refer to Articles 30, 31, 32 and 35.
269 DE and FR scrutiny reservation. DE referred to Article 23 (b) of the 2008 Data Protection Framework Decision, which requires prior consultation of the DPA where the type of processing, in particular using new technologies, mechanism or procedures, holds otherwise specific risks for the fundamental rights and freedoms, and in particular the privacy, of the data subject.'
270 BE, FR indicated that this was a completely impractical obligation. NL and COM were in favour of maintaining it.
271 BE proposed replacing the criterion of a controller being a public body by 'data are processed for the public interest'.
272 IT scrutiny reservation. DK, IT and COM think the wording of this Article could be aligned to the wording of recital 73, as the latter is more broadly drafted than the former.
Article 34

Prior (…) consultation

1. (…)

2. The controller (…)\(^{274}\) shall consult the supervisory authority prior to the processing of personal data where a data protection impact assessment as provided for in Article 33 indicates that the processing is likely to present a high degree of specific risks\(^{275}\)\(^{276}\).

\(^{273}\) ES, HU and UK scrutiny reservation; DE, NL and SK reservation on giving this role to DPAs, which may not be able to deal with these consultations in all cases. NL proposed to delete the entire article. FR however thought that Member States should be given the possibility to oblige controllers to inform the DPA of data breaches. See revised recital 74, which clarifies the scope of the obligation.

\(^{274}\) Deleted in view of BE, DK, FR, SE and PL reservation on reference to processor. COM reservation on deleting processor.

\(^{275}\) FR and SE scrutiny reservation on the concept of a high degree of specific risks. It was pointed out that such assessments might be time-consuming. IT thought there should be scope for consulting the DPA in other cases as well.

\(^{276}\) DE and ES proposed to exempt controllers from the obligation of a prior consultation in case they had appointed a DPO.
3. Where the supervisory authority is of the opinion that the intended processing referred to in paragraph 2 would not comply with this Regulation, in particular where risks are insufficiently identified or mitigated, it shall within a maximum period of 6 weeks following the request for consultation give advice to the data controller (…) 277. This period may be extended for a further month, taking into account the complexity of the intended processing. Where the extended period applies, the controller or processor shall be informed within one month of receipt of the request of the reasons for the delay 278.

4. (…)

5. (…) 279

6. When consulting the supervisory authority pursuant to paragraph 2, the controller (…) shall provide the supervisory authority, on request, with the data protection impact assessment provided for in Article 33 and any (…) information requested by the supervisory authority (…). 280.

277 Drafting amended in order to take account of the concern expressed by several delegations that a sanctioning power for DPAs would be difficult to reconcile with (1) the duty on controllers to make prior consultation under the previous paragraph (DE, DK, NL, SE, SI) and (2) the freedom of expression (NL, PL, SI).

278 ES, NL and SI scrutiny reservation. FR thought that for private controllers an absence of consultation or a negative DPA opinion should result in a prohibition of the processing operation concerned, whereas for public controllers, the DPA could publish a negative opinion, but should not be able to stop the processing.

279 IT reservation on the deletion of paragraphs 4 and 5.

280 DE thought this paragraph should be deleted.
7. Member States shall consult the supervisory authority during the preparation\(^{281}\) of proposals for legislative or regulatory measures which provide for the processing of personal data and which may severely\(^{282}\) affect categories of data subjects by virtue of the nature, scope or purposes of such processing.

7a. Notwithstanding paragraph 2, Member States' law may require controllers to consult with, and obtain prior authorisation from, the supervisory authority in relation to the processing of personal data by a controller for the performance of a task carried out by the controller in the public interest, including the processing of such data in relation to social protection and public health\(^{283}\).

8. (…)

9. (…)

---

\(^{281}\) CZ wanted clarification that this obligation does not apply to private member's bills.

\(^{282}\) COM reservation, in particular regarding regulatory measures: this threshold is not present in the 1995 Directive.

\(^{283}\) DK, NL, PL, SE scrutiny reservation.
SECTION 4
DATA PROTECTION OFFICER

Article 35

Designation of the data protection officer

1. The controller or the processor may, or where required by Union or Member State law shall, designate a data protection officer (…)284.

2. A group of undertakings may appoint a single data protection officer.

3. Where the controller or the processor is a public authority or body, a single data protection officer may be designated for several such authorities or bodies, taking account of their organisational structure and size.

4. (…).

5. The (…) data protection officer shall be designated on the basis of professional qualities and, in particular, expert knowledge of data protection law and practices and ability to fulfil the tasks referred to in Article 37 (…).

6. (…)

284 Made optional further to decision by the Council. DE and AT scrutiny reservation. DE, HU and AT would have preferred to define cases of a mandatory appointment of DPA in the Regulation itself. COM reservation on optional nature and deletion of points a) to c). UK thinks paragraphs 5 to 8 could be deleted.

285 PL suggested adding ‘The controller or the processor may appoint one or more deputy data protection officers. Deputy data protection officer must fulfil conditions stipulated in art. 35 point 5 of this Regulation”

286 PL suggested adding a reference to the absence of a criminal record as a condition.

7. (…). During their term of office, the data protection officer may, apart from serious grounds under the law of the Member State concerned which justify the dismissal of an employee or civil servant, be dismissed only if the data protection officer no longer fulfils the conditions required for the performance of his or her tasks pursuant to Article 37.

8. The data protection officer may be a staff member of the controller or processor, or fulfil the tasks on the basis of a service contract.

9. The controller or the processor shall publish the contact details of the data protection officer and communicate these to the supervisory authority (…).

10. Data subjects may contact the data protection officer on all issues related to the processing of the data subject’s data and the exercise of their rights under this Regulation.

11. (…)

Article 36

Position of the data protection officer287

1. The controller or the processor shall ensure that the data protection officer is properly and in a timely manner involved in all issues which relate to the protection of personal data.

2. The controller or the processor shall support the data protection officer in performing the tasks referred to in Article 37 by providing (…) resources necessary to carry out these tasks as well as access to personal data and processing operations.

287 UK thought articles 36 and 37 could be deleted in a pure risk-based approach.
3. The controller or processor shall ensure that the data protection officer can act in an independent manner with respect to the performance of his or her tasks and does not receive any instructions regarding the exercise of these tasks. The data protection officer shall directly report to the highest management level of the controller or the processor.

4. The data protection officer may fulfil other tasks and duties. The controller or processor shall ensure that any such tasks and duties do not result in a conflict of interests.

---

**Article 37**

**Tasks of the data protection officer**

1. The controller or the processor shall entrust the data protection officer (…) with the following tasks:

   (a) to inform and advise the controller or the processor and the employees who are processing personal data of their obligations pursuant to this Regulation (…);

   (b) to monitor compliance with this Regulation and with the policies of the controller or processor in relation to the protection of personal data, including the assignment of responsibilities, awareness-raising and training of staff involved in the processing operations, and the related audits;

---

288 DE, EE, ES, LV and NL pointed out that the requirement of independence was not the same for DPOs as for DPAs.

289 Moved from Article 35 (6). DE was opposed to this as these requirements were irrelevant to the functional independence of the DPO. FR demanded further clarifications. UK also thought this was too prescriptive. AT thought the redraft did not sufficiently take account of the situation of external DPOs.
(e) (…)

(d) (…)

(e) (…)

(f) (…)

(g) to monitor responses to requests from the supervisory authority and, within the sphere of the data protection officer's competence, to co-operate with the supervisory authority at the latter's request or on the data protection officer’s own initiative;

(h) to act as the contact point for the supervisory authority on issues related to the processing of personal data, including the prior consultation referred to in Article 34, and consult, as appropriate, on any other matter.  

2. (….)

---

290 FR suggested adding an obligation to draft an annual report on his activities, but this may be too heavy an obligation.
SECTION 5
CODES OF CONDUCT AND CERTIFICATION

Article 38
Codes of conduct

1. The Member States, the supervisory authorities, the European Data Protection Board and the Commission shall encourage the drawing up of codes of conduct intended to contribute to the proper application of this Regulation, taking account of the specific features of the various data processing sectors and the specific needs of micro, small and medium-sized enterprises.

1a. Associations and other bodies representing categories of controllers or processors may prepare codes of conduct, or amend or extend such codes, for the purpose of specifying the application of provisions of this Regulation, such as:

(a) fair and transparent data processing;

(aa) the legitimate interests pursued by controllers in specific contexts;

(b) the collection of data;

---

291 COM scrutiny reservation on Section 5.
292 AT, DK, FI, SK and PL scrutiny reservation. DE, FR and SI stated that this article should not apply to the public sector.
293 Several delegations thought more incentives should be made to apply to the use of codes of conduct: BE, DE, DK, LV, SE, SI, UK. Several delegations thought that hortatory language was being used in §1 (SI, PT), §1c (NL, SI, FR)
294 LU pleaded in favour of extending this to multinational companies established in various Member states.
(bb) the use of pseudonymous data²⁹⁵;

(c) the information of the public and of data subjects;

(d) the exercise of the rights of data subjects;

(e) information and protection of children and the way to collect the parent’s and guardian’s consent;

(ee) measures and procedures referred to in Articles 22 and 23 and measures to ensure security (…) of processing referred to in Article 30;

(ef) notification of personal data breaches to supervisory authorities and communication of such breaches to data subjects;

(f) transfer of data to third countries or international organisations²⁹⁶.

1b. Such a code of conduct shall contain mechanisms for monitoring and ensuring compliance with it by the controllers or processors which undertake to apply it, without prejudice to the duties and powers of the supervisory authority which is competent pursuant to Article 51.

2. Associations and other bodies referred to in paragraph 1a which intend to prepare a code of conduct, or to amend or extend an existing code, shall submit the draft code to the supervisory authority which is competent pursuant to Article 51. The supervisory authority shall²⁹⁷ give an opinion on whether the draft code, or amended or extended code, is in compliance with this Regulation.

²⁹⁵ FR scrutiny reservation.
²⁹⁶ NL queried whether this also covered the transfer to processors in 3rd countries.
²⁹⁷ Further to CY, FR, IT, LU, LV and PT suggestion.
2a. Where the opinion referred to in paragraph 2 confirms that the code of conduct, or amended or extended code, is in compliance with this Regulation and the code of conduct does not relate to processing activities in several Member States, the supervisory authority shall register the code and publish the details thereof.

2b. Where the code of conduct relates to processing activities in several Member States, the supervisory authority shall submit it in the procedure referred to in Article 57 to the European Data Protection Board which may give an opinion on whether the draft code, or amended or extended code, is in compliance with this Regulation.

3. Where the opinion referred to in paragraph 2b confirms that the code of conduct, or amended or extended code, is in compliance with this Regulation, the European Data Protection Board shall submit its opinion to the Commission\(^\text{298}\) (…).

4. The Commission may adopt implementing acts for deciding that the codes of conduct and amendments or extensions to existing codes of conduct submitted to it pursuant to paragraph 3 have general validity within the Union\(^\text{299}\). Those implementing acts shall be adopted in accordance with the examination procedure set out in Article 87(2).

5. The Commission shall ensure appropriate publicity for the codes which have been decided as having general validity in accordance with paragraph 4\(^\text{300}\).

---

\(^{298}\) DE, IE, ES, PT also remarked that the DPAs should be involved; to that end paragraph 2a has been inserted. EE, ES and UK thought that the Commission need not be involved.

\(^{299}\) CZ, EE and FR queried what was the legal status of such approved codes of conduct and in particular their binding nature.

\(^{300}\) BG suggests deleting paragraph 4; ES suggests deleting paragraphs 4 and 5.
**Article 38a**  

**Monitoring (...) of codes of conduct**

1. Without prejudice to the duties and powers of the competent supervisory authority under Articles 52 and 53, the monitoring of compliance with a code of conduct pursuant to Article 38 may be carried out by a (...) body which has an appropriate level of expertise in relation to the subject-matter of the code and is accredited for this purpose by the competent supervisory authority.

2. A body referred to in paragraph 1 may be accredited for this purpose if:

   a. it has demonstrated its independence and expertise in relation to the subject-matter of the code to the satisfaction of the competent supervisory authority;

   b. it has established procedures which allow it to assess the eligibility of controllers and processors concerned to apply the code, to monitor their compliance with its provisions and to periodically review its operation;

   c. it has established procedures and structures to deal with complaints about infringements of the code or the manner in which the code has been, or is being, implemented by a controller or processor, and to make these procedures and structures transparent to data subjects and the public;

   d. it (...) demonstrates to the satisfaction of the competent supervisory authority that its tasks and duties do not result in a conflict of interests.

---

301 AT, DE, DK, NL, LU, FI, IT, PT and UK scrutiny reservation.

302 CZ, DK, EE, LV, PT and UK are opposed to giving this role to such separate bodies. Concerns were raised, *inter alia*, on the administrative burden involved in the setting up of such bodies. Codes of conduct are an entirely voluntary mechanism in which no controller is obliged to participate.
3. The competent supervisory authority shall submit the draft criteria for accreditation of a body referred to in paragraph 1 to the European Data Protection Board pursuant to the consistency mechanism referred to in Article 57.

4. Without prejudice to the provisions of Chapter VIII, a body referred to in paragraph 1 may, subject to adequate safeguards, take appropriate action in cases of infringement of the code by a controller or processor, including suspension or exclusion of the controller or processor concerned from the code. It shall inform the competent supervisory authority of such actions and the reasons for taking them.

5. The competent supervisory authority shall revoke the accreditation of a body referred to in paragraph 1 if the conditions for accreditation are not, or no longer, met or actions taken by the body are not in compliance with this Regulation.303

6. This article shall not apply to the processing of personal data carried out by public authorities and bodies.

303 BE proposed adding: 'An infringement of a code of conduct shall not in itself constitute an infringement of this Regulation, unless the Commission has, pursuant to paragraph 4 of Article 38, decided the code has general validity within the European Union.' This proposal should be revisited in the wider context of the discussions on sanctions.
Article 39

Certification

1. The Member States, the European Data Protection Board and the Commission shall encourage, in particular at European level, the establishment of data protection certification mechanisms and of data protection seals and marks for the purpose of demonstrating compliance with this Regulation by controllers and processors. The specific needs of micro, small and medium-sized enterprises shall be taken into account.

2. A certification pursuant to this Article does not reduce the responsibility of the controller or the processor for compliance with this Regulation and is without prejudice to the duties and powers of the supervisory authority which is competent pursuant to Article 51.

3. The controller or processor which submits its processing to the certification mechanism shall provide the body referred to in Article 39a (1) with all information and access to its processing activities which are necessary to conduct the certification procedure.

4. The certification issued to a controller or processor shall be subject to a periodic review by the body referred to in paragraph 1 of Article 39a or by the competent supervisory authority. It shall be withdrawn where the requirements for the certification are not or no longer met.

---

304 AT, DK, EE, FR, FI, IT, PT and UK scrutiny reservation. ES, SI and UK thought further incentives should be provided for using certification mechanism. FR thought the terminology used was unclear an that the DPA should be in a position to check compliance with certified data protection policies; this should be clarified in Article 53.
Article 39a

Certification body and procedure

1. Without prejudice to the duties and powers of the competent supervisory authority under Articles 52 and 53, the certification and its periodic review may be carried out by a certification body which has an appropriate level of expertise in relation to data protection and is accredited by the supervisory authority which is competent according to Article 51.

2. The body referred to in paragraph 1 may be accredited for this purpose if:
   a. it has demonstrated its independence and expertise in relation to the subject-matter of the certification to the satisfaction of the competent supervisory authority;
   b. it has established procedures for the issue, periodic review and withdrawal of data protection seals and marks;
   c. it has established procedures and structures to deal with complaints about infringements of the certification or the manner in which the certification has been, or is being, implemented by the controller or processor, and to make these procedures and structures transparent to data subjects and the public;
   (d) it (...) demonstrates to the satisfaction of the competent supervisory authority that its tasks and duties do not result in a conflict of interests.

3. The supervisory authorities shall submit the draft criteria for the accreditation of the body referred to in paragraph 1 to the European Data Protection Board pursuant to the consistency mechanism referred to in Article 57.

305 AT, DK, EE, FR, IT and PT scrutiny reservation.
4. The body referred to in paragraph 1 shall be responsible for the proper assessment leading to the certification, without prejudice to the responsibility of the controller or processor for compliance with this Regulation.

4a. Without prejudice to the provisions of Chapter VIII, the body referred to in paragraph 1 shall, subject to adequate safeguards, in cases of inappropriate use of the certification or where the requirements of the certification are not, or no longer, met by the controller or processor, withdraw the certification.

5. The body referred to in paragraph 1 shall provide the competent supervisory authority with the details of certifications issued and withdrawn and the reasons for withdrawing the certification.

6. The criteria for certification and the certification details shall be made public by the supervisory authority in an easily accessible form.

6a. The competent supervisory authority shall revoke the accreditation of a body referred to in paragraph 1 if the conditions for accreditation are not, or no longer, met or actions taken by the body are not in compliance with this Regulation.

7. The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of (...) specifying the criteria and requirements to be taken into account for the data protection certification mechanisms referred to in paragraph 1, [including conditions for granting and revocation, and requirements for recognition of the certification and the requirements for a standardised ‘European Data Protection Seal’ within the Union and in third countries].
8. The Commission may lay down technical standards for certification mechanisms and data protection seals and marks and mechanisms to promote and recognize certification mechanisms and data protection seals and marks. Those implementing acts shall be adopted in accordance with the examination procedure set out in Article 87(2)\textsuperscript{306}.

\textsuperscript{306} DE pleaded in favour of deleting the last two paragraphs. ES thought that this should not be left exclusively to the Commission.
CHAPTER V
TRANSFER OF PERSONAL DATA TO THIRD COUNTRIES OR INTERNATIONAL ORGANISATIONS

Article 40
General principle for transfers

(...)

307 FR reservation. In light of the fact that the public interest exception would in many cases be the main ground warranting an international transfer of personal data, some delegations (CZ, DE, CZ, LV, UK) queried whether the 'old' adequacy principle/test should still maintained and set out in such detail, as it would in practice not be applied in that many cases. DE in particular thought that the manifold exceptions emptied the adequacy rule of its meaning. Whilst they did not disagree with the goal of providing protection against transfer of personal data to third countries, it doubted whether the adequacy principle was the right procedure therefore, in view of the many practical and political difficulties (the latter especially regarding the risk of a negative adequacy decision, cf. DE, FR, UK). The feasibility of maintaining an adequacy-test was also questioned with reference to the massive flows of personal data in the context of cloud computing: BG, DE, FR, IT, NL, SK and UK. Also FR asked COM to clarify whether a transfer of data in the context of cloud computing constitutes an international transfer of data. The applicability to the public sector of the rules set out in this Chapter was questioned (EE), as well as the delimitation to the scope of proposed Directive (FR). The impact of this Chapter on existing Member State agreements was raised by several delegations (EE, FR, PL).

308 NL and UK pointed out that under the 1995 Data Protection Directive the controller who wants to transfer data is the first one to assess whether this possible in under the applicable (EU) law and they would like to maintain this basic principle, which appears to have disappeared in the Commission proposal.

309 GR, SE, NL and UK pointed out that this article has no added value to the rest of the Chapter V and it has therefore been deleted. BE, supported by FI and NL, thought that the requirements regarding onward transfer need not be mentioned here, as these were at any rate subsumed under the adequacy requirement. FR thought the requirement of prior originator consent to onward transfer should be expressed in a different manner. ES was opposed to putting the processor and controller on the same footing, and DE scrutiny reservation. COM scrutiny reservation, in particular regards onward transfers.
Article 41

Transfers with an adequacy decision

1. A transfer of personal data to a recipient or recipients in a third country or an international organisation may take place where the Commission has decided that the third country, or a territory or a processing sector within that third country, or the international organisation in question ensures an adequate level of protection. Such transfer shall not require any specific authorisation.

2. When assessing the adequacy of the level of protection, the Commission shall, in particular, take account of the following elements:

---

310 AT, LU and FR expressed their support for maintaining the adequacy procedure. Some delegations raised concerns on the time taken up by adequacy procedures. LV thought a separate paragraph setting.

311 CZ and SI reservation on giving such power to the Commission. NL and UK indicated that on this point the proposal seemed to indicate a shift from the 1995 Data Protection Directive, which put the responsibility for assessing a third country's data protection legislation in the first place with the controller who wanted to transfer personal data. UK had considerable doubts on the feasibility of the list in paragraph 2.

312 FR, IT, SK and AT reservation.

313 IT thought the list should not be exhaustive and therefore proposed adding 'in particular'.
(a) the rule of law, respect for human rights, \textit{and} fundamental freedoms, relevant legislation (…), data protection rules and security measures, \textit{including} rules for onward transfer of personal data to another third country or international organisation, which are complied with in that country or by that international organisation, \textit{as well as} the existence of effective and enforceable data subject rights and effective administrative and judicial redress for data subjects \textit{whose personal data are being transferred} (…)\textsuperscript{315};

(b) the existence and effective functioning of one or more independent supervisory authorities\textsuperscript{316} in the third country, or to which an international organisation is subject, with responsibility for ensuring compliance with the data protection rules (\textit{including adequate sanctioning powers}\textsuperscript{317}), for assisting and advising the data subjects in exercising their rights and for co-operation with the supervisory authorities of the Union and of Member States; and

\textsuperscript{314} GR, AT and SK thought a reference to human rights should be inserted.
\textsuperscript{315} COM scrutiny reservation.
\textsuperscript{316} CZ and NL queried how strict this independence would need to be assessed.
BE suggested adding a reference to independent judicial authorities, FI suggested to refer to 'authorities' \textit{tout court}.
\textsuperscript{317} DE proposal.
(c) the international commitments the third country or international organisation concerned has entered into in relation to the protection of personal data.

3. The Commission, after assessing the adequacy of the level of protection, may decide that a third country, or a territory or a processing sector within that third country, or an international organisation ensures an adequate level of protection within the meaning of paragraph 2. **The Commission shall, as early as possible, request the European Data Protection Board for an opinion on this on the basis of the elements referred to in paragraph 2 and take the utmost account of this opinion.** The implementing act shall specify its territorial and sectoral application and, where applicable, identify the supervisory authority mentioned in point (b) of paragraph 2. The implementing act shall be adopted in accordance with the examination procedure referred to in Article 87(2).

---

318 CH and NL remarked that many of these elements need to be formulated less broadly. FR thought the criteria should be more focused on implementation. According to COM this is mainly the CoE Convention No 108. DE proposed adding 'participation in a suitable international data protection system established in third countries or a territory or a processing sector' and that the list of checks in Article 42(2) should include a new component consisting of the participation of third States or international organisations in international data-protection systems (e.g. APEC and ECOWAS). It also suggested referring to 'ways of ensuring consistent interpretation and application of the data-protection provisions under Articles 55 et seq'.

319 CZ and SI reservation on giving such power to the Commission. DE thought that stakeholders should be involved in this process. NL and UK indicated that on this point the proposal seemed to indicate a shift from the 1995 Data Protection Directive, which put the responsibility for assessing a third country's data protection legislation in the first place with the controller who wanted to transfer personal data.

320 CZ, DE, DK, IT, NL, SK and RO thought an important role should be given to the EDPB in assessing these elements. COM reservation on this addition.

321 FR reservation on the possibility of limiting the scope of such decision.

322 CZ, DE, DK, IT, NL, SK and RO thought an important role should be given to the EDPB in assessing these elements. COM reservation on this addition.

323 BE and LU queried whether Member States would initiate such procedure.

324 DE queried the follow-up to such decisions and warned against the danger that third countries benefiting from an adequacy decision might not continue to offer the same level of data protection. COM indicated there was monitoring of third countries for which an adequacy decision was taken.
3a. Decisions adopted by the Commission on the basis of Article 25(6) or Article 26(4) of Directive 95/46/EC shall remain in force until amended, replaced or repealed by the Commission in accordance with the examination procedure referred to in Article 87(2). The Commission shall, as early as possible, request the European Data Protection Board for an opinion on this review and take the utmost account of this opinion.

4. (…)

4a. The Commission shall monitor the functioning of decisions adopted pursuant to paragraph 3 and decisions adopted on the basis of Article 25(6) or Article 26(4) of Directive 95/46/EC.

5. The Commission may decide that a third country, or a territory or a processing sector within that third country, or an international organisation no longer ensures an adequate level of protection within the meaning of paragraph 2 and may, where necessary, repeal, amend or suspend such decision without retro-active effect. The implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2) or, in cases of extreme urgency (…), in accordance with the procedure referred to in Article 87(3). The Commission shall, as early as possible, request the European Data Protection Board for an opinion on this review and take the utmost account of this opinion.

---

325 Moved from paragraph 8. CZ and AT thought an absolute time period should be set. NL, PT and SI thought this paragraph 8 was superfluous or at least unclear. If maintained it should be moved to the end of the Regulation.

326 Further to DE proposal. COM reservation on this addition.

327 COM reservation on the deletion of its possibility to adopt negative adequacy decisions.

328 BE, DE, FI, LU and FR asked for the deletion of paragraph 5.

329 Further to NL proposal. COM reservation on this addition.
6. A decision pursuant to paragraph 5 is without prejudice to transfers of personal data to the third country, or the territory or (…) processing sector within that third country, or the international organisation in question pursuant to Articles 42 to 44. (…) The Commission shall enter into consultations with the third country or international organisation with a view to remedying the situation giving rise to the Decision made pursuant to paragraph 5.

7. The Commission shall publish in the *Official Journal of the European Union* a list of those third countries, territories and processing sectors within a third country and international organisations in respect of which decisions have been taken pursuant to paragraphs 3 and 5.

8. (…)
Article 42

Transfers by way of appropriate safeguards

1. Where the Commission has taken no decision pursuant to Article 41, a controller or processor may transfer personal data to a recipient or recipients in a third country or an international organisation only if the controller or processor has adduced appropriate safeguards in a legally binding instrument with respect to the protection of personal data or where the controller or the processor has obtained prior authorisation for the transfer by the supervisory authority in accordance with paragraph 5.

2. The appropriate safeguards referred to in paragraph 1 shall be provided for, in particular, by:

(a) binding corporate rules referred to in Article 43; or

(b) standard data protection clauses adopted by the Commission (...) in accordance with the examination procedure referred to in Article 87(2); or

(c) standard data protection clauses adopted by a supervisory authority in accordance with the consistency mechanism referred to in Article 57 and adopted by the Commission pursuant to the examination procedure referred to in Article 87(2); or

333 Several delegations (BE, CH, IT) queried whether this article (in particular paragraphs 2 (a + b) and 5 could also be applied to public authorities UK expressed concerns regarding the length of authorisation procedures and the burdens these would put on DPA resources. The use of this procedures regarding data flows in the context of cloud computing was also questioned.

334 SK scrutiny reservation.

335 FI proposal.

336 COM emphasised the non-exhaustive nature of this list, clarifying that also other types of agreements could be envisaged.

337 FR reservation on the possibility for COM to adopt such standard clauses.
(d) contractual clauses between the controller or processor and the recipient of the data\textsuperscript{338} authorised by a supervisory authority pursuant to paragraph 4; or

(e) an approved code of conduct pursuant to Article 38\textsuperscript{339}; or

(f) a certification mechanism pursuant to Article 39\textsuperscript{340};

341.

3. A transfer based on \textit{binding corporate rules or standard data protection clauses} as referred to in points (a), (b) or (c) of paragraph 2 shall not require any specific authorisation.

4. Where a transfer is based on contractual clauses as referred to in point (d)\textsuperscript{342} of paragraph 2 (…)\textsuperscript{343}, the controller or processor\textsuperscript{344} shall obtain prior authorisation of the contractual clauses (…) from the competent supervisory authority (…).

\textsuperscript{338} BE proposed referring to a sub-processor. ES proposed linking this to the absence of the appointment of a data protection officer.

\textsuperscript{339} COM, FI and IT scrutiny reservation.

\textsuperscript{340} COM scrutiny reservation. NL proposed adding a reference to.

\textsuperscript{341} NL proposed adding a point on 'mutually binding obligations of professional secrecy or existing sectoral legislation which offers special protection to the interests of data subject between the controller or processor and the recipient of the data in the third country, territory or processing sector thereof or international organisation'.

\textsuperscript{342} BE proposed adding a reference point (e). CH thought this paragraph should not be applicable to public authorities.

\textsuperscript{343} ES suggested inserting a reference to the absence of a DPO or certifications.

\textsuperscript{344} BE suggested deleting the reference to the processor.
5. Where, notwithstanding the requirement for a legally binding instrument in paragraph 1, appropriate safeguards with respect to the protection of personal data are not provided for in a legally binding instrument, the controller or processor shall obtain prior authorisation from the competent supervisory authority for any transfer, or category of transfers, or for provisions to be inserted into administrative arrangements providing the basis for such a transfer.

5a. If the transfer referred to in paragraph 4 is related to processing activities which concern data subjects in several Member States, or may substantially affect the free movement of personal data within the Union, the supervisory authority shall apply the consistency mechanism referred to in Article 57.

5b. Authorisations by a Member State or supervisory authority on the basis of Article 26(2) of Directive 95/46/EC shall remain valid until amended, replaced or repealed by that supervisory authority.

---

345 BE, GR want to limit the scope of this paragraph to public authorities. IT, RO and NL on the contrary could not see how it could be applied by public authorities.

346 COM scrutiny reservation.

347 UK and ES disagreed with the principle of subjecting non-standardised contracts to prior authorisation by DPAs. It was thought that this was contrary to the principle of accountability. AT, PL, GR, SI and BG voiced concerns regarding the possibility to transfer personal data in the absence of a legally binding instrument. IT scrutiny reservation; FR scrutiny reservation on the terms 'administrative arrangements' and 'substantially affect the free movement of personal data'. BE also thought this paragraph needed clarification.
**Article 43**

**Transfers by way of binding corporate rules**

1. The competent supervisory authority shall approve binding corporate rules in accordance with the consistency mechanism set out in Article 58 (…) provided that they:

(a) are legally binding and apply to, and are enforced by, every member concerned of the group of undertakings or group of enterprises engaged in a joint economic activity;

(b) expressly confer enforceable rights on data subjects with regard to the processing of their personal data;

(c) fulfil the requirements laid down in paragraph 2.

---

348 Several delegations supported this innovative legal technique: BE, CZ, DE, ESFR, FI, IT, LU, NL, PT and PL. NL thought it should be given a wider scope. BE and NL pointed to the need for a transitional regime allowing to 'grandfather' existing BCRs. NL and GR pleaded in favour of covering data flows in the context of cloud computing and ES thought more flexibility should be provided in this way. NL asked whether the BCRs should also be binding upon employees. SI thought BCRs should also be possible with regard to some public authorities, but COM stated that it failed to see any cases in the public sector where BCRs could be applied.

349 DE and UK expressed concerns on the lengthiness and cost of such approval procedures. The question was raised which DPAs should be involved in the approval of such BCRs in the consistency mechanism.

350 COM and IT scrutiny reservation on ‘group of enterprises engaged in a joint economic activity’ extending the scope beyond one group of undertakings. BE proposed to refer to sub-processors; ES proposed to insert a reference (in paragraph 1(a) as well as in (2)(f)(h)(i) and (k) to 'business partners'.

351 FI proposed clarifying that these rights need to be enforceable in a third country and BE suggested a reference to effective administrative and judicial redress.
2. The binding corporate rules referred to in paragraph 1 shall **contain a description of**\(^{352}\) at least\(^{353}\) the following elements:

(a) the structure and contact details of the group concerned and of each of its members\(^{354}\);

(b) the data transfers or categories of transfers, including the types of personal data, the type of processing and its purposes, the type of data subjects affected and the identification of the third country or countries in question;

(c) their legally binding nature, both internally and externally;

(d) **application of** the general data protection principles, in particular purpose limitation, including the purposes which govern further processing, data quality, legal basis for the processing, processing of special categories of personal data, measures to ensure data security, and the requirements in respect of onward transfers to bodies (…) not bound by the binding corporate rules;

(e) the rights of data subjects in regard to the processing of their personal data\(^{355}\) and the means to exercise these rights, including the right not to be subject to (…) profiling in accordance with Article 20, the right to lodge a complaint before the competent supervisory authority and before the competent courts of the Member States in accordance with Article 75, and to obtain redress and, where appropriate, compensation for a breach of the binding corporate rules;

---

\(^{352}\) Further to NL suggestion.

\(^{353}\) FR pleaded in favour of deleting the words 'at least'. IT is opposed to the deletion thereof.

\(^{354}\) BE proposed a reference to sub-processors.

\(^{355}\) FI proposed clarifying that these rights need to be enforceable in a third country.
(f) the acceptance by the controller or processor established on the territory of a Member State of liability for any breaches of the binding corporate rules by any member concerned not established in the Union; the controller or the processor may only be exempted from this liability, in whole or in part, on proving that that member is not responsible for the event giving rise to the damage;

(g) how the information on the binding corporate rules, in particular on the provisions referred to in points (d), (e) and (f) of this paragraph is provided to the data subjects in accordance with Articles 14 and 14a;

(h) the tasks of any data protection officer designated in accordance with Article 35, including monitoring (…) compliance with the binding corporate rules within the group, as well as monitoring the training and complaint handling;

(hh) the complaint procedures;

(i) the mechanisms within the group (…) for ensuring the verification of compliance with the binding corporate rules\(^\text{356}\);

(j) the mechanisms for reporting and recording changes to the rules and reporting these changes to the supervisory authority;

(k) the co-operation mechanism with the supervisory authority to ensure compliance by any member of the group (…), in particular by making available to the supervisory authority the results of (…) verifications of the measures referred to in point (i) of this paragraph\(^\text{357}\).

\(^{356}\) NL proposed referring to auditing as an example.

\(^{357}\) BE suggested making this more explicit in case of a conflict between the 'local' legislation applicable to a member of the group and the BCR.
[3. The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of further specifying the criteria and requirements for binding corporate rules within the meaning of this Article, in particular as regards the criteria for their approval, the application of points (b), (d), (e) and (f) of paragraph 2 to binding corporate rules adhered to by processors and on further necessary requirements to ensure the protection of personal data of the data subjects concerned.]

4. The Commission may specify the format and procedures for the exchange of information (...) between controllers, processors and supervisory authorities for binding corporate rules within the meaning of this Article. Those implementing acts shall be adopted in accordance with the examination procedure set out in Article 87(2).

**Article 44**

**Rules for specific situations**

1. In the absence of an adequacy decision pursuant to Article 41, of appropriate safeguards pursuant to Article 42, or of binding corporate rules pursuant to Article 43 a transfer or a category of transfers of personal data to a third country or an international organisation may take place only on condition that:

---

358  CZ, IT, SE and NL reservation. FR scrutiny reservation regarding (public) archives. RO thought the EDPB should be involved

359  EE, FR and NL reservation. NL parliamentary reservation. The word 'derogations' was replaced by 'rules' further to the remark by UK and other delegations that in reality these 'derogations' would become the main basis for international data transfers. COM reservation on this change.

360  BE and LU proposed adding a reference to BCRs.

361  Further to LU proposal.

362  FR and PL reservation on the term 'set of transfers'.
(a) the data subject has consented to the proposed transfer, after having been informed that such transfers may pose risks due to the absence of an adequacy decision and appropriate safeguards; or

(b) the transfer is necessary for the performance of a contract between the data subject and the controller or the implementation of pre-contractual measures taken at the data subject's request; or

(c) the transfer is necessary for the conclusion or performance of a contract concluded in the interest of the data subject between the controller and another natural or legal person; or

(d) the transfer is necessary for reasons of public interest;

(e) the transfer is necessary for the establishment, exercise or defence of legal claims; or

(f) the transfer is necessary in order to protect the vital interests of the data subject or of other persons, where the data subject is physically or legally incapable of giving consent; or

363 Further to CZ proposal.
364 The word 'important' was deleted further to remarks by ES, FR, SI and LU. COM reservation on this change. DE remarked that the effects of (d) in conjunction with paragraph 5 need to be examined, in particular with respect to the transfer of data on the basis of court judgments and decisions by administrative authorities of third states, and with regard to existing mutual legal assistance treaties. FR and IT reservation on the (subjective) use of the concept of public interest. IT thought that also here it should be clarified that this ground cannot justify massive and structural transfers of data. PT proposed adding 'fundamental' before 'public interest'; RO also thought it was worded too broadly. IT reservation on this ground.
365 PL requested clarification on this subparagraph. ES suggested adding that this applied regardless of whether these claims where exercised in a judicial procedure or whether in an administrative or any out-of-court procedure.
366 This may also cover public health emergency situations. BE though there was a need for a separate point on this.
[(g) the transfer is made from a register which according to Union or Member State law is intended to provide information to the public and which is open to consultation either by the public in general or by any person who can demonstrate a legitimate interest but only to the extent that the conditions laid down in Union or Member State law for consultation are fulfilled in the particular case\textsuperscript{367}.\textsuperscript{368} or

(h) the transfer which is not large scale or frequent\textsuperscript{369}, is necessary for the purposes of legitimate interests pursued by the controller or the processor\textsuperscript{370} which are not overridden by the interests or rights and freedoms of the data subject and where the controller or processor has assessed all the circumstances surrounding the data transfer operation or the set of data transfer operations and, where necessary, based on this assessment adduced suitable safeguards with respect to the protection of personal data\textsuperscript{371}.\textsuperscript{372}

\textsuperscript{367} FI requested clarification of this subparagraph; SK asked for its deletion.
\textsuperscript{368} The Commission was requested to explain the purpose of this provision.
\textsuperscript{369} DE, ES and SK thought the terms 'frequent or massive' are unclear. ES and UK thought this qualification should be deleted. DE thinks there is danger that point (h) evolves into a 'super derogation' and therefore proposed to revert the balancing of interest and demand an overriding interest of the controller.
\textsuperscript{370} FR requests clarification concerning the concept of "legitimate interest(s)" and would like the balance of Directive 95/46 to be preserved. It scrutiny reservation. AT, PT and PL are opposed to this subparagraph and plead in favour of its deletion.
\textsuperscript{371} RO and IT reservation: IT suggested deleting the words 'where necessary'. AT reservation: it was unclear how this reference to appropriate safeguards relates to appropriate safeguards in Article 42.
\textsuperscript{372} NL, supported by DE, proposed adding a point on prior authorisation pursuant to Article 34.
2. [A transfer pursuant to point (g) of paragraph 1 shall not involve the entirety of the personal data or entire categories of the personal data contained in the register. When the register is intended for consultation by persons having a legitimate interest, the transfer shall be made only at the request of those persons or if they are to be the recipients.]

3. (…)

4. Points (a), (b), (c) and (h)\textsuperscript{373} of paragraph 1 shall not apply to activities carried out by public authorities in the exercise of their public powers.

5. The public interest referred to in point (d) of paragraph 1 must be recognised in Union law or in the national law of the Member State to which the controller is subject. Union or Member State law may designate a public interest of special importance which opposes data transfers to recipients outside the European Union, the European Economic Area, or outside third countries, territories or processing sectors thereof or international organisations that have obtained an adequacy decision pursuant to Article 41\textsuperscript{374}.

\textsuperscript{373} NL proposal, supported by DE. DE is of the opinion that public entities should be exempted because they are already checked by a state authority, which is itself subject to supervision and involved in procedures of mutual administrative and legal assistance.

\textsuperscript{374} NL proposal, supported by DE.
6. The controller or processor shall document the assessment as well as the suitable safeguards (...) referred to in point (h) of paragraph 1 in the records referred to in Article 28 (...) 375.

6a. (...)

7. (...).

Article 45

International co-operation for the protection of personal data 377

1. In relation to third countries and international organisations, the Commission and supervisory authorities shall take appropriate steps to:

(a) develop international co-operation mechanisms to facilitate the effective enforcement of legislation for the protection of personal data;

(b) provide international mutual assistance in the enforcement of legislation for the protection of personal data, including through (...) complaint referral, investigative assistance and information exchange, subject to appropriate safeguards for the protection of personal data and other fundamental rights and freedoms 378;

375 GR suggested deleting this paragraph in view of the administrative burden entails. IT wanted to clarify the notification took place before the transfer.
376 At the suggestion of FR, para. 6a was turned into a separate Article. 89a
377 PL thought (part of) Article 45 could be inserted into the preamble. UK also doubted the need for this article in relation to adequacy and thought that any other international co-operation between DPAs should be dealt with in Chapter VI.
378 AT and FI thought this subparagraph was unclear and required clarification.
(c) engage relevant stakeholders in discussion and activities aimed at promoting international co-operation in the enforcement of legislation for the protection of personal data;

(d) promote the exchange and documentation of personal data protection legislation and practice.

2. For the purposes of paragraph 1, the Commission and supervisory authorities\(^{379}\) shall take appropriate steps to advance the relationship with third countries and international organisations, including their supervisory authorities, in particular where the Commission has decided that they ensure an adequate level of protection within the meaning of Article 41(3)\(^{380}\).

\(^{379}\) DE proposal. COM scrutiny reservation.

\(^{380}\) DE and NL suggested deleting this paragraph.
CHAPTER VI
INDEPENDENT SUPERVISORY AUTHORITIES

SECTION 1
INDEPENDENT STATUS

Article 46
Supervisory authority\textsuperscript{381}

1. Each Member State shall provide that one or more independent public authorities are responsible for monitoring the application of this Regulation.

1a Each supervisory authority shall contribute to the consistent application of this Regulation throughout the Union (…)\textsuperscript{382}. For this purpose, the supervisory authorities shall co-operate with each other and the Commission in accordance with Chapter VII\textsuperscript{383}.

2. Where in a Member State more than one supervisory authority are established, that Member State shall designate the supervisory authority which shall represent those authorities in the European Data Protection Board and shall set out the mechanism to ensure compliance by the other authorities with the rules relating to the consistency mechanism referred to in Article 57.

\textsuperscript{381} At the request of IT, COM clarified that this DPA could be the same as the one designated/set up under the future Data Protection Directive. ES asked for clarification that a DPA may be composed of more members, but this is already sufficiently clear from the current text. DE indicated that it would require an intra-German consistency mechanism between the its various DPAs.

\textsuperscript{382} UK sought reassurance that the supervisory authority could also be given a wider remit, such as ensuring the freedom of information. DE remarked that it would require an intra-German consistency mechanism between the its various DPAs.

\textsuperscript{383} EE, HU, LU, SI and UK thought there was no reason to mention this duty of co-operation here.
[3. Each Member State shall notify to the Commission those provisions of its law which it adopts pursuant to this Chapter, by the date specified in Article 91(2) at the latest and, without delay, any subsequent amendment affecting them\[384\].

**Article 47**\[385\]

**Independence**

1. Each supervisory authority shall act with complete\[386\] independence in performing the duties\[387\] and exercising the powers entrusted to it in accordance with this Regulation.

2. The member or members of each supervisory authority shall, in the performance of their duties and exercise of their powers in accordance with this Regulation\[388\], remain free from external influence, whether direct or indirect\[389\] and neither seek nor take instructions from anybody\[390\].

3. (...)

4. (...)

---

\[384\] DE, NL, EE)that thought that this paragraph could be moved to the final provisions.

\[385\] FR suggested merging articles 47 and 48.

\[386\] EE, LU, SK and SI suggested deleting the word 'completely'.

\[387\] GR scrutiny reservation.

\[388\] Suggestion in order to allay concerns regarding the scope of the obligation of independence.

\[389\] BE scrutiny reservation.

\[390\] IE reservation: IE thought the latter part of this paragraph was worded too strongly.

\[391\] AT, BE, DE and HU would prefer to reinstate this text. CZ, EE and SE were satisfied with the deletion.

\[392\] COM and DE, AT reservation on deletion of paragraphs 3 and 4.
5. Each Member State shall ensure that each supervisory authority is provided with the (...) human, technical and financial resources, premises and infrastructure necessary for the effective performance of its duties and exercise of its powers, including those to be carried out in the context of mutual assistance, co-operation and participation in the European Data Protection Board.

6. Each Member State shall ensure that each supervisory authority has its own staff which shall (...) be subject to the direction of the member or members of the supervisory authority.

7. Member States shall ensure that each supervisory authority is subject to financial control which shall not affect its independence. Member States shall ensure that each supervisory authority has separate, public, annual budgets, which may be part of the overall state or national budget.

---

393 This paragraph was criticised for being too prescriptive (FR, NL, SE, SK) and too vague (LV, UK). IT raised the question of EU funding. AT thought the recital should refer to minimum requirements.

394 BG, DE, LV, NO, PT and UK questioned who were to be considered as members of the DPA and argued that the regulation should allow different models. The question how to distinguish between members and staff was also raised in this context. IT thought EU resources could also be considered.

395 EE reservation.

396 Further to IE suggestion.
Article 48

General conditions for the members of the supervisory authority

1. Member States shall provide that the member or members\(^{397}\) of each supervisory authority must be appointed (...) by the parliament and/or the government or the head of State of the Member State concerned or by an independent body entrusted by Member State law with the appointment by means of a transparent procedure\(^{398}\).

2. The member or members shall have the qualifications, experience and skills required to perform their duties and exercise their powers\(^{399}\).

3. The duties of a member shall end in the event of the expiry of the term of office, resignation or compulsory retirement\(^{400}\) in accordance with the law of the Member State concerned\(^{401}\).

---

\(^{397}\) DE, LV, NO, PT and UK questioned would were to be considered as members of the DPA and argued that the regulation should allow different models.

\(^{398}\) Several delegations (FR, SE, SI and UK) thought that other modes of appointment should be allowed for. NL, LU and UK thought this should not be governed by the Regulation. FR (and RO) thought that a recital should clarify that "independent body" also covers courts.

\(^{399}\) As several delegations (DE, ES, SE) thought that also the appointment of persons with prior data protection experience should be allowed for, this requirement has been deleted. CZ indicated that independence should not be a requirement for appointment, but for the functioning of DPA members.

\(^{400}\) UK thought dismissal for misconduct needed to be listed here as well. CZ stated that the terms resignation or compulsory retirement were unknown under CZ law.

\(^{401}\) COM reservation and DE scrutiny reservation on the expression "in accordance with the law of the Member States concerned". The question is whether this means that the Member States are being granted the power to define the duties further or whether the wording should be understood as meaning that only constitutional conditions or other legal framework conditions (e.g. civil service law) should be taken into account. DE also suggests that rules in the event of death or invalidity be added (see, for example, Article 42(4) of Regulation (EC) No 45/2001) and also suggests referring to a procedure for the nomination of a representative in case the member is prevented from performing his or her duties.
Article 49

Rules on the establishment of the supervisory authority

1. Each Member State shall provide by law for:
   (a) the establishment (...) of each supervisory authority;
   (b) the qualifications (...) required to perform the duties of the members of the supervisory authority;
   (c) the rules and procedures for the appointment of the member or members of each supervisory authority (...);
   (d) the duration of the term of the member or members of each supervisory authority which shall not be less than four years, except for the first appointment after entry into force of this Regulation, part of which may take place for a shorter period where this is necessary to protect the independence of the supervisory authority by means of a staggered appointment procedure.

---

402 BE, CZ, EE, FR, LU, NL, NO, PT, SE, SK, UK are of the opinion that paragraphs 4 and 5 interfere too much with national law. CZ, NO, SE also see no need for paragraph 3. COM, DE and AT scrutiny reservation on deletion of paragraphs 4 and 5.

403 AT scrutiny reservation. DE and FR queried which was the leeway given to Member States by this article as compared to the rules flowing from the previous Articles from the Regulation. Several delegations (FR, GR, SE, SI UK) thought that some of these rules, in particular those spelled out in subparagraphs (c) and (d) were too detailed.

404 IE reservation: IE thought these qualifications need not be laid down in law.

405 DE proposed adding a maximum term of 8 years; IT referred to 7 years.

406 The last part of this point might need to be moved to the final provisions.
(e) whether and, if so, for how many terms\textsuperscript{407} the member or members of each supervisory authority shall be eligible for reappointment;

(f) the (...) conditions governing the obligations of the member or members and staff of each supervisory authority, prohibitions on actions and occupations incompatible therewith during and after the term of office\textsuperscript{408} and rules governing the cessation of employment\textsuperscript{409};

(g) (...)\textsuperscript{410}.

\textsuperscript{407} IT thought a maximum term should be set.

\textsuperscript{408} This addition should cover what was previously stated in Article 48, (3) and (4).

\textsuperscript{409} SE thought that subparagraphs (b), (c) and (f) should be deleted or substantially redrafted as they were too detailed.

\textsuperscript{410} CZ, NL, DE scrutiny reservation on deletion of this point.
2. The member or members and the staff of each supervisory authority shall, in accordance with Union or Member State law, be subject to a duty of professional secrecy both during and after their term of office, with regard to any confidential information which has come to their knowledge in the course of the performance of their (...) duties or exercise of their powers.

**Article 50**

*Professional secrecy*

(...)

---

411 BE proposed adding an additional paragraph on the need to distinguish investigating and sanctioning powers, but this is dealt with by the general safeguard clause in Article 53(5). This is also true for the DE proposal for adding language concerning the duty to report an offence under national law and the privilege against self-incrimination.

412 COM and AT scrutiny reservation on adding the provision on professional secrecy to Article 49, which concerns rules on the establishment of supervisory authorities.

413 UK pointed out that also transparency concerns should be taken into account. Many delegations (CZ, DE, FR, FI; GR, IT, SE, SI, UK) raised practical questions as to the scope and the exact implications of this article. All thought that the rules on professional secrecy should be left to national law and hence the suggestion by CZ (supported by EE, SE, SI and RO) to move this to Article 49 was followed. COM and DE scrutiny reservation on moving this provision to Article 49.
SECTION 2

COMPETENCE\textsuperscript{414}, DUTIES AND POWERS

\textit{Article 51}

\textit{Competence}\textsuperscript{415} \textsuperscript{416}

1. Each supervisory authority shall, on the territory of its own Member State, be competent to (…) exercise the powers conferred on it in accordance with this Regulation regarding each of the following:

a) processing in the context of the activities of an establishment of the controller or processor on the territory of its own Member State;

b) processing (…) affecting data subjects on its territory\textsuperscript{417}; or

\textsuperscript{414} GR thought it would be better to refer to jurisdiction rather than competence. COM reservation. Scrutiny reservation by DE, DK, EE, ES, FR, HU, NL, PT and UK. Some delegations (BG, CY, DE, GR, NL and LU) supported one-stop-shop principle, but had many questions of understanding as to its practical implementation. Other delegations (BE, CZ, ES, FR, IT, AT, PT, RO and SI) had a more critical attitude and entered a reservation. One of the main questions was whether the allocation of competence to the DPA of the main establishment was exclusive and whether it also implied a rule of applicable law (DE, ES). A practical question was that of the language regime which would govern the co-operation between the DPAs and the communication with the controllers and the data protection. All delegations seemed to agree that at any rate the establishment of such a rule could not lead to the exercise of investigative powers by the DPA of one authority in the territory of another Member State.

\textsuperscript{415} At the request of several delegations, COM indicated that the main-establishment rule under this paragraph would not apply to controllers established outside the EU. In the view of the Commission, this constituted an incentive for non-EU controllers to establish themselves in the EU in order to avail themselves of the benefit of the main establishment rule.

\textsuperscript{416} See recital 93a. Several delegations feared that this criterion would lead to a multiplication of competence: DK, EE, IE, LU, NL, RO and UK. COM reservation as this wording would have the effect of limiting the competence of DPAs and would be contrary to the Charter of Fundamental Rights.
c) (…) processing by a controller not established in the European Union, any processing referred to in paragraph 2 of Article 3 which is related to data subjects on its territory.\footnote{LU scrutiny reservation.}

1a. Where the processing of personal data takes place in the context of the activities of an establishment of a controller or processor in the Union [and the processing concerned was decided by the main establishment], the supervisory authority competent for the supervision of the main establishment of that controller or processor shall be exclusively competent for the adoption of corrective measures pursuant to paragraph 1b of Article 53. Where a supervisory authority other than that of the main establishment of the controller or processor [finds that the processing concerned was decided by the main establishment and] is of the opinion that measures pursuant to paragraph 1b of Article 53 need to be adopted regarding this processing, it shall refer the matter to the supervisory authority competent for the supervision of the main establishment of the controller or processor. When referring the matter, that supervisory authority may submit a draft measure referred to in paragraph 1b of Article 53.

1b. Where the processing of personal data takes place in the context of the activities of an establishment of a controller or processor in the Union, the supervisory authority competent for the supervision of the main establishment of that controller or processor shall be exclusively competent for adopting authorisations referred to in paragraph 1c of Article 53 that are intended to have an effect in other Member States.
1c. The only supervisory authority competent to perform the duties and exercise the powers conferred on it in accordance with this Regulation regarding a Member State's public authorities and bodies shall be the supervisory authority established in that Member State.

2. (...)

2a. (...)

2b. (...)

3. Supervisory authorities shall not be competent to supervise processing operations of courts acting in their judicial capacity\textsuperscript{419}.

\textit{Article 52

\textbf{Duties}\textsuperscript{420}

1. Without prejudice to other duties set out under this Regulation\textsuperscript{421}, each supervisory authority shall on its territory\textsuperscript{422}:

(a) monitor and enforce the application of this Regulation;

\textsuperscript{419} FR, HU, NL, RO and UK scrutiny reservation. DE suggested adding "other matters assigned to courts for independent performance. The same shall apply insofar as judicially independent processing has been ordered, approved or declared admissible", as the derogation must apply whenever courts' work falls within the scope of their institutional independence, which is not only the case in the core area of judicial activity but also in areas where courts are assigned tasks specifically for independent performance.

\textsuperscript{420} DE, IT, AT, PT and SE scrutiny reservation. UK thinks the term 'functions' rather than 'duties' should be used.

\textsuperscript{421} New text as paragraphs (f) to (i) have been deleted as these duties were already laid down elsewhere in the Regulation.

\textsuperscript{422} A recital should be drafted in order to clarify that Member States may allocate other tasks to DPAs. DE thought it preferable to use the words 'at least' in the chapeau. See also new point (g) in paragraph 1.
(aa) promote public awareness of the risks, rules, safeguards and rights in relation to the processing of personal data. Activities addressed specifically to children shall receive specific attention;

(ab) inform the national parliament, the government or other political institution as well as the public on any issue related to the protection of personal data

(ac) promote the awareness of controllers and processors of their obligations under this Regulation;

(ad) upon request, provide information to any data subject concerning the exercise of their rights under this Regulation and, if appropriate, co-operate with the supervisory authorities in other Member States to this end;

(b) deal with complaints lodged by a data subject, or body, organisation or association representing a data subject in accordance with Article 73, and investigate, to the extent appropriate, the subject matter of the complaint and inform the data subject or the body, organisation or association of the progress and the outcome of the investigation within a reasonable period, in particular if further investigation or coordination with another supervisory authority is necessary;

---

423 Moved from Article 52(1)(j) as this a duty rather than a power from the DPA.
424 IT scrutiny reservation on the term complaint; UK thought the emphasis should be on complaint-resolution.
425 BE suggested limiting this to the data subject itself.
426 IT suggested fixing a 10-weeks period for dealing with the complaint.
(c) share information with and provide mutual assistance to other supervisory authorities with a view to ensuring the consistency of application and enforcement of this Regulation;

(d) conduct investigations on the application of this Regulation either on its own initiative or on the basis of a information received from another supervisory or other public authority;

(e) monitor relevant developments, insofar as they have an impact on the protection of personal data, in particular the development of information and communication technologies and commercial practices;

(f) (...);

(fa) (...);

(g) (...);

(ga) (...);

(gb) (...);

(gc) (...);

(gd) (...);

(h) (...);

(ha) (...);

(hb) (...);

(i) (...);

(j) contribute to the activities of the European Data Protection Board;
(k) issue opinions\textsuperscript{427} as well as fulfil any other duties related to the protection of personal data.

2. (…).

3. (…).

4. Each supervisory authority shall enable the submission of complaints referred to in point (b) of paragraph 1, by measures which can be completed electronically, \textit{such as providing a complaint submission form}, without excluding other means of communication.

5. The performance of the duties of each supervisory authority shall be free of charge for the data subject and for the data protection officer.

6. Where requests are manifestly unfounded or excessive, in particular because of their repetitive character, the supervisory authority may refuse to act on the request\textsuperscript{428}. The supervisory authority shall bear the burden of demonstrating the manifestly unfounded or excessive character of the request\textsuperscript{429}.

\textsuperscript{427} Some delegations (IE, PL) thought this was worded too generally.

\textsuperscript{428} EE pointed out that under its constitution this required an act of parliament. NL and RO also thought this should be left to Member States.

\textsuperscript{429} DE, NL and SE reservation: this could be left to general rules.
Article 53

Powers

1. Each Member State shall provide by law that its supervisory authority shall have at least the following monitoring powers:

(a) to order the controller and the processor, and, where applicable, the representative to provide any information it requires for the performance of its duties;

(aa) to carry out data protection audits;

430 DE, NL, RO, PT and SE scrutiny reservation; SE thought this list was too broad. Some Member States were uncertain (CZ, RO and UK) or opposed (DE, DK, NL and IE) to categorising the DPA powers according to their nature.

431 Several Member States (DE, FR, SI) stated that it was unacceptable that the supervisory authority would be able to exercise these powers vis-à-vis public authorities. DE thought a distinction should be drawn between powers with regard to public and non-public bodies. Direct powers of instruction in respect of public bodies subject to supervisory and judicial control, which might therefore lead to conflicts, would be problematic for Germany. Moreover, consideration also needs to be given to the delimitation between this proposal and the proposal for a Directive on police and judicial affairs, which accords fewer powers to the supervisory authorities in some respects.

Suggested amendment in order to allay the concern from Member States (FR, NL) that they should be able to specify in their national law, as has been the case under the 1995 Data Protection Directive, the exact scope of, conditions and guarantees for the exercise of these powers. COM reservation.

Further to BG suggestion, supported by EE, IT, NL, to make this an indicative list. RO argued in favour of the inclusion of an explicit reference to the power of DPAs to issue administrative orders regarding the uniform application of certain data protection rules. COM and ES scrutiny reservation on 'at least' in paragraphs 1 and 1a.

NL thought that all the powers listed in para. 1 should also be available vis-à-vis others than controllers and processors.

CZ, IT, PL and SK scrutiny reservation. CZ and PL pleaded for a recital explaining that audit could be understood as inspection. NL indicated that such audits could also be carried out by an external office, but the current drafting does not preclude this.
(b) to order the controller or the processor to comply with the data subject's requests to exercise his or her rights provided by this Regulation;

(c) (...)

(d) to notify the controller or the processor of an alleged infringement of this Regulation, and where appropriate, order the controller or the processor to remedy that infringement.\footnote{436}

1a. Each Member State shall provide by law that its supervisory authority shall have at least the following investigatory powers:

(a) to obtain, from the controller and the processor, access to all personal data and to all information necessary for the performance of its duties;

(b) to obtain access to any premises of the controller and the processor, including to any data processing equipment and means.

1b. Each Member State shall provide by law that its supervisory authority shall have the following corrective powers:

(a) to issue warnings to a controller or processor that intended processing operations are likely to infringe provisions of this Regulation;

\footnote{436} BE suggested adding the power to oblige the controller to communicate the personal data breach to the data subject.
(b) to issue reprimands to a controller or processor where processing operations have infringed provisions of this Regulation.

(c) (...);

(d) to order the controller or processor to bring processing operations into compliance with the provisions of this Regulation, where appropriate, in a specified manner and within a specified period; inter alia by carrying out a data protection audit or by ordering the rectification, restriction or erasure of data pursuant to Articles 16, 17a and 17 and the notification of such actions to recipients to whom the data have been disclosed pursuant to Articles 17(2a) and 17b;

(e) to impose a temporary or definitive limitation on processing;

(f) to order the suspension of data flows to a recipient in a third country or to an international organisation;

(g) to impose an administrative fine pursuant to Articles 79 and 79a, in addition to, or instead of measures referred to in this paragraph, depending on the circumstances of each individual case.

1c. Each Member State shall provide by law that its supervisory authority shall have the following authorisation powers:

(a) give advice in accordance with the prior consultation procedure referred to in Article 34.

---

437 EE, IT, PL, SE and SK scrutiny reservation.
438 PL scrutiny reservation on points (a) and (b).
439 NL scrutiny reservation. The word 'limitation' may accommodate concerns relating to the compatibility with the freedom of expression.
440 SK reservation.
(b) authorise standard data protection clauses referred to in point (c) of Article 42(2);

(c) authorise contractual clauses referred to in point (d) of Article 42(2);

(d) approve binding corporate rules pursuant to Article 43.

2. The procedure for exercising the powers referred to in paragraphs 1, 1a, 1b and 1c shall be laid down in Member State law. The exercise of those powers shall be subject to appropriate procedural safeguards, including effective judicial remedy and due process, set out in Union and Member State law.441

3. Each Member State shall provide by law that its supervisory authority shall have the power to bring infringements of this Regulation to the attention of the judicial authorities or to commence or engage otherwise in legal proceedings, in order to enforce the provisions of this Regulation.

4. (…)443

5. (…)

441 The reference to national law will allow Member States to apply their procedural rules (cf. remarks by BE, DE, ES) and should also allay concerns regarding self-incrimination.

442 DE, FR and RO reservation on proposed DPA power to engage in legal proceedings. UK scrutiny reservation. CZ reservation on the power to bring this to the attention of the judicial authorities.

443 DE thought paras 3 and 4 should be deleted.
Article 54

Activity report

Each supervisory authority shall draw up an annual report on its activities. The report shall be transmitted to the government and the national parliament and shall be made available to the public, the Commission and the European Data Protection Board.

444 This article does not detract from the possibility for Member States to provide under national law that other, extraordinary reports may also be conveyed to the parliament and the government. However SI pointed out that there is no need to oblige Member States to do so, certainly as there is a risk of an 'overkill' of reports.

445 ES suggested adding 'other authorities designated under national law'.
CHAPTER VII\textsuperscript{446}  
CO-OPERATION AND CONSISTENCY  

SECTION 1  
CO-OPERATION

\textit{Article 54a}  

\textit{Cooperation between the main establishment authority and other supervisory authorities regarding the exercise of corrective powers}\textsuperscript{447}  

1. Where the processing of personal data takes place in the context of the activities of an establishment of a controller or processor in the Union, the supervisory authority of the main establishment of the controller or processor, to which a matter regarding the exercise of the corrective powers has been referred in accordance with paragraph 1a of Article 51, shall cooperate with the supervisory authorities of the Member States concerned in an endeavour to reach consensus on the cases set out hereafter.

2. When preparing and deciding on a measure referred to in paragraph 1b of Article 53, the authority competent for the main establishment shall:

a) share all relevant information with the supervisory authorities of the Member States concerned;

b) submit the draft measure to all supervisory authorities of the Member States concerned;

c) take utmost account of the views of the supervisory authorities of the Member States concerned.

\textsuperscript{446} AT and FR scrutiny reservation on Chapter VII.

\textsuperscript{447} BE, CZ, CY, DE, EE, FR, FI, RO, PT and NL scrutiny reservation.
3. Where any of the supervisory authorities has objected, within a period of four weeks after having been consulted under paragraphs 1 or 2, to the draft measure, this authority may submit the matter to the consistency mechanism referred to in Article 57. Where a supervisory authority concerned has not objected within this period, it is deemed to be in agreement with the draft measure.

4. Where the supervisory authority of the main establishment of the controller or processor does not act on a draft measure referred to in paragraph 2 of Article 54a, within a period of four weeks after having received the draft measure, the supervisory authority which has referred the matter in accordance with paragraph 1a of Article 51, may submit the matter to European Data Protection Board under the consistency mechanism referred to in Article 57.

4a. If the supervisory authority of the main establishment of the controller or processor does not act within six weeks after the matter has been referred to the European Data Protection Board, the supervisory authority which has referred the matter in accordance with paragraph 1a of Article 51, may adopt a measure referred to in paragraph 1b of Article 53. It shall take the utmost account of the opinion of the Board, in case the Board has issued an opinion on the matter.

5. The supervisory authority of the main establishment of the controller or processor and the other supervisory authorities concerned shall supply the information required under this Article to each other by electronic means, using a standardised format.
Article 55

Mutual assistance 448

1. Supervisory authorities shall provide each other with relevant information and mutual assistance in order to implement and apply this Regulation in a consistent manner, and shall put in place measures for effective co-operation with one another. Mutual assistance shall cover, in particular, information requests and supervisory measures, such as requests to carry out prior authorisations and consultations, inspections and investigations. This shall apply in particular where the supervisory authority to which the complaint has been lodged is not the authority of the main establishment of the controller or processor. Mutual assistance shall also cover the provision of information on the conduct of investigations where the controller or processor has establishments in several Member States or where data subjects in several Member States are likely to be affected by processing operations by the controller or processor. 449

448 DE, NL SE and UK scrutiny reservation. Several other delegations indicated that further clarity was required on this fundamental Article and the concept of mutual assistance, and announced text proposals: EE pleaded for much more detailed rules on mutual assistance, as is already the case in civil and criminal law. AT, supported by DE, declared that it had no specific problem with this Article, but that, in general, there was a need to follow developments in relation to CoE Convention No. 108. 449 ES requested that the added text be taken out.
2. Each supervisory authority shall take all appropriate measures required to reply to the request of another supervisory authority without undue delay and no later than one month after having received the request. Such measures may include, in particular, the transmission of relevant information on the conduct of an investigation (…).

3. The request for assistance shall contain all the necessary information, including the purpose of the request and reasons for the request. Information exchanged shall be used only for the purpose for which it was requested.

4. A supervisory authority to which a request for assistance is addressed may not refuse to comply with it unless:

   (a) it is not competent for the subject-matter of the request or for the measures it is requested to execute; or

   (b) compliance with the request would be incompatible with the provisions of this Regulation or with Union or Member State law to which the supervisory authority receiving the request is subject.

---

450 ES reiterated its suggestion to reduce it to 15 days. PT supported the suggestion of two weeks, with a possibility of adding more time, if needed. RO, on the other hand, found one month too short, and requested SE remarked that this timeline might be unrealistic in some cases. COM indicated that it was only a deadline for replying, but that paragraph 5 allowed longer periods for executing the assistance requested. UK requested a timetable, indicating deadlines.

451 EE and SE scrutiny reservation.

452 SE indicated further scrutiny was required as to whether other grounds of refusal were required. UK thought that this paragraph was drafted in much too absolute a fashion.

453 Several delegations stressed the importance of establishing which is the competent DPA: DE, EE, SE, SI. NL and IT asked for further clarification.
5. The requested supervisory authority shall inform the requesting supervisory authority of the results or, as the case may be, of the progress or the measures taken in order to respond to the request. In cases of a refusal under paragraph 4, it shall explain its reasons for refusing the request.\textsuperscript{454}

6. Supervisory authorities shall, as a rule, supply the information requested by other supervisory authorities by electronic means\textsuperscript{455}, using a standardised format.

7. No fee shall be charged for any action taken following a request for mutual assistance. Supervisory authorities may agree with other supervisory authorities rules for indemnification by other supervisory authorities for specific expenditure arising from the provision of mutual assistance in exceptional circumstances.\textsuperscript{456}

\textsuperscript{454} RO scrutiny reservation.
\textsuperscript{455} PT (supported by RO) suggested adding "or other means if for some reason, electronic means are not available, and the communication is urgent"
\textsuperscript{456} PT, UK and DE asked for clarification in relation to the resources needed / and estimate of costs.
8. Where a supervisory authority does not provide the information referred to in paragraph 5 within one month of receiving the request\textsuperscript{457} of another supervisory authority, the requesting supervisory authority may adopt a provisional measure\textsuperscript{458} on the territory of its Member State in accordance with Article 51(1) and shall submit the matter to the European Data Protection Board and the Commission in accordance with the consistency mechanism referred to in Article 57\textsuperscript{459}.

9. The supervisory authority shall specify the period of validity of such a provisional measure which shall not exceed three months\textsuperscript{460}. The supervisory authority shall, without delay, communicate such a measure, together with its reasons for adopting it, to the European Data Protection Board and to the Commission in accordance with the consistency mechanism referred to in Article 57.

10. The Commission may specify the format and procedures for mutual assistance referred to in this article and the arrangements for the exchange of information by electronic means between supervisory authorities, and between supervisory authorities and the European Data Protection Board, in particular the standardised format referred to in paragraph 6. Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2)\textsuperscript{461}.

\textsuperscript{457} RO found this deadline too short.
\textsuperscript{458} LU requested more clarification with regard to what would happen if this provisional measure were not confirmed.
\textsuperscript{459} EE, FR, RO, and UK reservation. DE scrutiny. UK did not find the drafting sufficiently clear, for instance regarding which authority would be competent and action on other Member States territory. COM specified that this Article would apply specifically in bilateral relations (whereas Article 56 would cover joint operations), the underlying philosophy being to avoid extraterritorial activity.
\textsuperscript{460} DE asked for deletion of this deadline; the measure should be withdrawn if the conditions for imposing it were no longer fulfilled.
\textsuperscript{461} DE, IT, EE, CZ and NL reservation. EE questioned whether implementing acts where necessary for this purpose. ES reminded about its proposal for an Article 55a.
Article 56

Joint operations of supervisory authorities

1. The supervisory authorities may, where appropriate, conduct joint operations, including joint investigations and joint enforcement measures in which members or staff from other Member States’ supervisory authorities are involved.

2. In cases where the controller or processor has establishments in several Member States or where [a significant number of data subjects in more than one Member States are likely to be substantially affected by processing operations, a supervisory authority of each of those Member States shall have the right to participate in the joint operations, as appropriate. The competent supervisory authority shall invite the supervisory authority of each of those Member States to take part in the joint operations concerned and respond to the request of a supervisory authority to participate without delay.

---

462 IT requested a specification in this Article that this was also about multilateral cooperation. FR asked for a clearer distinction between Articles 55 and 56. DE, EE, PT and UK scrutiny reservation. Several delegations (DE, LV, NL, SE, IT, UK) supported the idea of joint operations, but thought more details needed to clarified. DE and EE referred to a criminal law model of a joint investigation team. LU indicated it was not convinced of the added value of joint investigations. UK requested to make sure that these mechanisms would work in practice and drew the attention to fact that paragraphs 1 and 3 were discretionary, whereas paragraph 2 was binding, and that this was confusing and potentially contradictory.

463 COM reservation; more criteria should be added IT, supported by FR, BE and CZ suggested stressing the multilateral aspect by adding text.

464 LU asked for a clarification of who would be the lead authority. UK stated that it seemed like a mix of Art. 51(1) and 51(2) competences.

465 SE entered a favourable scrutiny reservation on this paragraph.
3. A supervisory authority may, in compliance with its own Member State law, and with the seconding supervisory authority’s authorisation, confer powers, including investigative powers on the seconding supervisory authority’s members or staff involved in joint operations or, in so far as the host supervisory authority’s law permits, allow the seconding supervisory authority’s members or staff to exercise their investigative powers in accordance with the seconding supervisory authority’s law. Such investigative powers may be exercised only under the guidance and in the presence of members or staff from the host supervisory authority. The seconding supervisory authority’s members or staff shall be subject to the host supervisory authority’s national law. (...)

3a. Where, in accordance with paragraph 1, staff of a supervisory authority are operating in another Member State, the Member State of the operating supervisory authority shall be liable for any damage caused by them during their operations, in accordance with the law of the Member State in whose territory they are operating.

3b. The Member State in whose territory the damage was caused shall make good such damage under the conditions applicable to damage caused by its own staff. The Member State of the supervisory authority whose staff have caused damage to any person in the territory of another Member State shall reimburse the latter in full any sums it has paid to the victims or persons entitled on their behalf.

466 SI and GR suggestion.
467 DE, LU, PT and COM scrutiny reservation on the deletion of this last phrase.
3c. Without prejudice to the exercise of its rights vis-à-vis third parties and with the exception of paragraph 3b, each Member State shall refrain, in the case provided for in paragraph 1, from requesting reimbursement of damages it has sustained from another Member State.  

4. (…)

5. Where a joint operation is intended and a supervisory authority does not comply within one month with the obligation laid down in the second sentence of paragraph 2, the other supervisory authorities may adopt a provisional measure on the territory of its Member State in accordance with Article 51(1).

6. The supervisory authority shall specify the period of validity of a provisional measure referred to in paragraph 5, which shall not exceed three months. The supervisory authority shall, without delay, communicate such a measure, together with its reasons for adopting it, to the European Data Protection Board and to the Commission in accordance with the consistency mechanism referred to in Article 57.

---

Inspired by Article 3 of the Council Framework Decision of 13 June 2002 on joint investigation teams. UK reservation on paras. 3a, 3b and 3c.

NL asked whether the measures of paragraphs 5 and 6 were really necessary. EE suggested a merger of the two paragraphs.
SECTION 2
CONSISTENCY

Article 57

Consistency mechanism

1. For the purpose set out in Article 46(1a), the supervisory authorities shall co-operate with each other through the consistency mechanism as set out in this section.

---

470 BE, IT, SK and SI scrutiny reservation. BE reservation on the time required for a consistency mechanism procedure. DE parliamentary reservation and BE and UK reservation on the role of COM in the consistency mechanism.

471 EE, FI, LU, NL and UK scrutiny reservation.

472 CZ, DE, ES thought that supervisory authorities of third countries for which there is an adequacy decision should be involved in the consistency mechanism; if third countries participated in the consistency mechanism, they would be bound by uniform implementation and interpretation.
1a. Where the processing of personal data takes place in the context of the activities of an establishment of a controller or processor in the Union, the supervisory authority competent for the supervision of the main establishment of that controller or processor, shall communicate a draft measure referred to in paragraph 1b of Article 53 to the European Data Protection Board and the Commission when data subjects in one or more other Member States have substantially been affected or are likely to be substantially affected by the processing for which it intends to adopt a measure pursuant to paragraph 1b of Article 53. It shall not be obliged to do so if the matter has already been dealt with in the cooperation mechanism under Article 54a to the satisfaction of all supervisory authorities involved.\footnote{New text ailed at addressing concerns voiced by FR, IT, PL and UK that this should be limited to cases where a coordination mechanism implemented by the lead authority does not result a solution acceptable to all supervisory authorities concerned.}

2. The supervisory authority competent for the supervision of the main establishment of the controller or processor which intends to adopt a measure aimed at producing effects in more than one Member State, shall communicate the draft measure to the European Data Protection Board and the Commission, when the measure:

(a) (...);

(b) (...);

(c) aims at adopting a list of the processing operations subject to the requirement for a data protection impact assessment pursuant to Article 33(2b); or
(ca) concerns a matter pursuant to Article 38(2b) whether a draft code of conduct or an amendment or extension to a code of conduct is in compliance with this Regulation; or

(cb) aims to approve the criteria for accreditation of a body pursuant to paragraph 3 of Article 38a or a certification body pursuant to paragraph 3 of Article 39a;

(d) aims to determine standard data protection clauses referred to in point (c) of Article 42(2); or

(e) aims to authorise contractual clauses referred to in point (d) of Article 42(2); or

(f) aims to approve binding corporate rules within the meaning of Article 43.

3. Where the competent supervisory authority does not submit a draft measure referred to in paragraphs 1a and 2 to the Board or does not comply with the obligations for mutual assistance in accordance with Article 55 or for joint operations in accordance with Article 56, any supervisory authority concerned, the European Data Protection Board or the Commission may request that such matter shall be communicated to the European Data Protection Board.

4. (…)

---

474 BE, IT, SE, SI, SK and PL thought the scope of this paragraph should be limited so as to limit the number of cases.

475 LU proposed restricting this to cases where the coordination mechanism implemented by the competent authority did not allow for a solution to be reached; ES referred to cases where the other authorities did not agree with the proposal of the competent(lead) authority.
5. Supervisory authorities and the Commission shall electronically communicate to the European Data Protection Board, using a standardised format any relevant information, including as the case may be a summary of the facts, the draft measure, the grounds which make the enactment of such measure necessary, and the views of other supervisory authorities concerned.

6. The chair of the European Data Protection Board shall without undue delay electronically inform the members of the European Data Protection Board and the Commission of any relevant information which has been communicated to it using a standardised format. The secretariat of the European Data Protection Board shall, where necessary, provide translations of relevant information.

Article 57a

Identification of the supervisory authority competent for the main establishment

1. Any controller or processor may indicate to the supervisory authority of the Member State in which it considers that its main establishment is located the scope of its processing activities and ask it for confirmation that it is the authority referred to in paragraphs 1a and 1b of Article 51. The authority shall communicate its reply to the other supervisory authorities concerned.

2. Where there are conflicting views between the supervisory authorities concerned on which supervisory authority is exclusively competent in accordance with paragraphs 1a and 1b of Article 51, any of the supervisory authorities concerned may communicate the matter to the European Data Protection Board. The European Data Protection Board shall issue an opinion on the identification of the supervisory authority of the main establishment in accordance with Article 58.
Article 58

Opinion by the European Data Protection Board 476

1. (…)
2. (…)
3. (…)
4. (…)
5. (…)
6. (…)
6a. (…)
7. In the cases referred to in paragraphs 1a and 2 of Article 57, the European Data Protection Board shall issue an opinion on the subject-matter submitted to it in provided it has not already issued an opinion on the same matter 477. This opinion shall be adopted within one month 478 by simple majority of the members of the European Data Protection Board. Regarding the draft measure circulated to the members of the Board in accordance with paragraph 6 of Article 57, a member which has not objected within the period indicated by the Chair, shall be deemed to be in agreement with the draft measure.

7a. Within the period referred to in paragraph 7 the supervisory authority competent for the supervision of the main establishment shall not adopt its draft measure.

476 NL and UK scrutiny reservation.
477 ES suggested keeping the possibility for one DPA requesting an opinion from the EDPB.
478 RO and GR proposed two months.
7b. The chair of the European Data Protection Board shall inform, without undue delay, the supervisory authority referred to, as the case may be, in paragraphs 1a and 2 of Article 57 and the Commission of the opinion and make it public.

8. The supervisory authority referred to in paragraphs 1a and 2 of Article 57 shall take utmost account of the opinion of the European Data Protection Board and shall within two weeks after receiving the opinion, electronically communicate to the chair of the European Data Protection Board whether it maintains or amends its draft measure and, if any, the amended draft measure, using a standardised format.

9. Where the supervisory authority concerned does not intend to follow the opinion, it shall inform the chair of the European Data Protection Board and the Commission within the period referred to in paragraph 8 and shall explain its refusal to follow the opinion.

10. (…)

11. (…).

Article 59

Opinion by the Commission

(…)

Article 60

Suspension of a draft measure

(…)

---

479 Deleted in accordance with the request from BE, CZ, DE, ES, SE and UK. COM and FR reservation on deletion.

480 Deleted at the suggestion of BE, CZ, DE, ES, IT, SE and UK. PT scrutiny reservation. COM and FR reservation on deletion.
Article 61

Urgency procedure

1. In exceptional circumstances, where the competent supervisory authority considers that there is an urgent need to act in order to protect rights and freedoms of data subjects, it may, by way of derogation from the consistency mechanism referred to in Article 57 or the procedure referred to in Article 54a, immediately adopt provisional measures pursuant to points (a) and (b) of paragraph 1 of Article 53 and points (d), (e) and (f) of paragraph 1b of Article 53 for the territory of its own Member State, with a specified period of validity. The supervisory authority shall, without delay, communicate those measures and the reasons for adopting them, to the European Data Protection Board and to the Commission.

2. Where a supervisory authority has taken a measure pursuant to paragraph 1 and considers that final measures need urgently be adopted, it may request an urgent opinion of the European Data Protection Board, giving reasons for requesting such opinion.

---

481 DE scrutiny reservation. COM explained that the urgency procedure was an essential part of the consistency mechanism. The existence of an urgency procedure was welcomed by several delegations (DE, ES, IT, NL), but also gave rise to many questions. There was lack of clarity surrounding the criteria which could warrant the taking of provisional measures (DE, FR, PT), in particular by another DPA. The need to respect certain procedural guarantees (e.g. giving notice to the data controller) prior to the taking of provisional measures was emphasised by FR.

482 COM scrutiny reservation. The conditions under which the EDPB needed to be informed also gave rise to questions (GR, ES). COM stated the obligation only existed in cross-border one-stop-shop mechanism cases.

483
3. Any supervisory authority may request an urgent opinion where the competent supervisory authority has not taken an appropriate measure in a situation where there is an urgent need to act, in order to protect the rights and freedoms of data subjects, giving reasons for requesting such opinion, including for the urgent need to act.

4. By derogation from paragraph 7a of Article 58, an urgent opinion referred to in paragraphs 2 and 3 of this Article shall be adopted within two weeks by simple majority of the members of the European Data Protection Board.

Article 62

Implementing acts

1. The Commission may adopt implementing acts of general scope for:

   (a) (...)

   (b) (...);

   (c) (...);

   (d) specifying the arrangements for the exchange of information by electronic means between supervisory authorities, and between supervisory authorities and the European Data Protection Board, in particular the standardised format referred to in Article 57(5) and (6) and in Article 58(8).

   Those implementing acts shall be adopted in accordance with the examination procedure referred to in Article 87(2).

2. (...)

3. (...)

484 COM reservation on deletion.
Article 63

Notification of measures adopted by the main establishment supervisory authority

1a. The supervisory authority competent for the supervision of the main establishment of that controller or processor shall notify the measures referred to in paragraphs 1a and 1b of Article 51 that were adopted under the cooperation or consistency mechanism to the controller or processor concerned.

1b. The supervisory authority to which a complaint has been lodged shall inform the data subject of the measure which the authority referred to in paragraph 1 has adopted.

1. (...).

2. (...).

---

485 EE and SI reservation; DE and DK scrutiny reservation.
SECTION 3
EUROPEAN DATA PROTECTION BOARD

Article 64

European Data Protection Board

1. A European Data Protection Board is hereby set up.

2. The European Data Protection Board shall be composed of the head of one supervisory authority of each Member State and of the European Data Protection Supervisor.

3. Where in a Member State more than one supervisory authority is responsible for monitoring the application of the provisions pursuant to this Regulation, they shall nominate the head of one of those supervisory authorities as joint representative.

4. The Commission shall have the right to participate in the activities and meetings of the European Data Protection Board and shall designate a representative without voting rights. The chair of the European Data Protection Board shall communicate the activities of the European Data Protection Board.

---

Several Member States (BE, DE, IT, PL and PT) pleaded in favour of granting the EDPB the power to take legally binding decisions in the context of the consistency mechanism and do away with the proposed Commission power to intervene. It was argued that the DPAs should have the same independence vis-à-vis the Commission, as vis-à-vis the Member States’ authorities. COM argued that it was legally impossible under the T(F)EU to confer such powers on the EDPB.

The term 'Board' seems inappropriate and could be replaced by Committee.

BE, supported by CZ, SE and SI, suggested adding "or his/her representative". IT suggested referring to Art. 68(2).

NO pleaded in favour of the participation of the associated States. COM replied that the modalities for such participation were provided for in the association agreement.

IT pleaded in favour of also including the Council and the Parliament.
Article 65  

Independence

1. The European Data Protection Board shall act independently when performing its tasks pursuant to Articles 66 and 67.  

2. Without prejudice to requests by the Commission referred to in point (b) of paragraph 1 and in paragraph 2 of Article 66, the European Data Protection Board shall, in the performance of its tasks, neither seek nor take instructions from anybody.

Article 66  

Tasks of the European Data Protection Board

1. The European Data Protection Board shall promote the consistent application of this Regulation. To this effect, the European Data Protection Board shall, on its own initiative or at the request of the Commission, in particular:

   (a) advise the Commission on any issue related to the protection of personal data in the Union, including on any proposed amendment of this Regulation;

---

491 UK and SI scrutiny reservation.  
492 DE scrutiny reservation.  
493 DE suggested adding the provision of an opinion on the level of data protection in third countries or international organisations. UK expressed concerns about the extensive list of tasks in a period of scarce resources. IT wanted it to figure that the list was not exhaustive.
(b) examine, on its own initiative or on request of one of its members\textsuperscript{494} or on request of the Commission\textsuperscript{495}, any question covering the application of this Regulation and issue guidelines, recommendations and best practices\textsuperscript{496} in order to encourage consistent application of this Regulation;

\hspace*{1cm}(ba) draw up guidelines for supervisory authorities concerning the application of measures referred to in point (c) of paragraph 1 of Article 53 and in paragraph 1b of Article 53 and the fixing of administrative fines pursuant to Articles 79 and 79\textsuperscript{a}\textsuperscript{497};

(c) review the practical application of the guidelines, recommendations and best practices referred to in points (b) and (ba);

\hspace*{1cm}(ca) encourage\textsuperscript{498} the drawing-up of codes of conduct and the establishment of data protection certification mechanisms and data protection seals and marks pursuant to Articles 38 and 39\textsuperscript{499}.

\textsuperscript{494} FR suggested that controllers be added here. However a controller can always ask 'its' DPA to submit a certain issue to the DPA.

\textsuperscript{495} Some Member States (IT, DE) thought that, if Commission requests were included here, a similar possibility for the Council and the Parliament should be provided.

\textsuperscript{496} FR expressed the opinion that it would be preferable to have a legally binding text.

\textsuperscript{497} RO, SE and UK scrutiny reservation. UK and SE inquired how this would be possible in relation to national law. CZ and SI noted that the method stated would not be appropriate in relation to individuals, and suggested adding "for undertakings".

\textsuperscript{498} The term, that a couple of delegations found too weak, has been overtaken from Articles 38 and 39. IT, FR and UK entered a scrutiny reservation in view of the fact that these two Articles have not been finalised.

\textsuperscript{499} RO a scrutiny reservation.
(cb) give the Commission an opinion on the level of protection in third countries or international organisations, in particular in the cases referred to in Article 41;

(d) issue opinions on draft measures of supervisory authorities pursuant to the consistency mechanism referred to in Article 57;

(e) promote the co-operation and the effective bilateral and multilateral exchange of information and practices between the supervisory authorities;

(f) promote common training programmes and facilitate personnel exchanges between the supervisory authorities, as well as, where appropriate, with the supervisory authorities of third countries or of international organisations;

(g) promote the exchange of knowledge and documentation on data protection legislation and practice with data protection supervisory authorities worldwide;

2. Where the Commission requests advice from the European Data Protection Board, it may indicate a time limit, taking into account the urgency of the matter.

3. The European Data Protection Board shall forward its opinions, guidelines, recommendations, and best practices to the Commission and to the committee referred to in Article 87 and make them public.

---

500 IT scrutiny reservation on paras. (cb) and (d).
4. The Commission shall inform the European Data Protection Board of the action it has taken following the opinions, guidelines, recommendations and best practices issued by the European Data Protection Board.

Article 67

Reports

1. (…).

2. The European Data Protection Board shall draw up an annual report regarding the protection of natural persons with regard to the processing of personal data in the Union and, where relevant, in third countries and international organisations. The report shall be made public and be transmitted to the European Parliament, the Council and the Commission.

3. The annual report shall include a review of the practical application of the guidelines, recommendations and best practices referred to in point (c) of Article 66(1).

Article 68

Procedure

1. The European Data Protection Board shall take decisions by a simple majority of its members (…).

2. The European Data Protection Board shall adopt its own rules of procedure and organise its own operational arrangements.

501 Some delegations suggested replacing this term that could give rise to confusion, with another, such as for instance "resolution". COM would consider an alternative.
**Article 69**

*Chair*

1. The European Data Protection Board shall elect a chair and two deputy chairpersons from amongst its members (…).\(^{502}\)

2. The term of office of the chair and of the deputy chairpersons shall be five years and be renewable once\(^{503}\).

---

**Article 70**

*Tasks of the chair*

1. The chair shall have the following tasks\(^{504}\):

   (a) to convene the meetings of the European Data Protection Board and prepare its agenda;

   (b) to ensure the timely performance of the tasks of the European Data Protection Board, in particular in relation to the consistency mechanism referred to in Article 57.

2. The European Data Protection Board shall lay down the attribution of tasks between the chair and the deputy chairpersons in its rules of procedure.

---

\(^{502}\) COM found this problematic and maintained its reservation on deletion.

\(^{503}\) NL thought that also the case where a chair or a deputy chairperson ceases to be a member of the European Data Protection Board[/Committee], should be addressed by the Regulation. However, this may be left to national law of the Member state concerned. COM and SK scrutiny reservation.

\(^{504}\) BE suggesting adding another task, namely the chair's role towards the exterior.
Article 71

Secretariat

1. The European Data Protection Board shall have a secretariat. The European Data Protection Supervisor shall provide that secretariat.\textsuperscript{505}

2. The secretariat shall provide analytical, administrative and logistical support to the European Data Protection Board under the direction of the chair.

3. The secretariat shall be responsible in particular for:

(a) the day-to-day business of the European Data Protection Board;
(b) the communication between the members of the European Data Protection Board, its chair, and the Commission and for communication with other institutions and the public;
(c) the use of electronic means for the internal and external communication;
(d) the translation of relevant information;
(e) the preparation and follow-up of the meetings of the European Data Protection Board;
(f) the preparation, drafting and publication of opinions and other texts adopted by the European Data Protection Board.

\textsuperscript{505} DE, EE, FR, ES, RO, PT, SI, SK and UK reservation on entrusting the EDPS with the EDPB secretariat. The risk of conflicts of interest of EDPS staff was also raised. FR and UK inquired about the costs. NL scrutiny reservation.
Article 72

Confidentiality\textsuperscript{506}

1. The discussions\textsuperscript{507} of the European Data Protection Board shall be confidential.

\textsuperscript{506} DE, EE, ES, RO, PL, PT, SE and UK reservation: it was thought that the EDPB should operate in a manner as transparent as possible and a general confidentiality duty was obviously not conducive to this. This article should be revisited once there is more clarity on the exact role and powers of the board, including the question whether the EDPS shall ensure the Secretariat.

\textsuperscript{507} IT scrutiny reservation: it suggested replacing this term with 'minutes' or 'summary records', thereby distinguishing between confidentiality of decision-making and access to documents.
CHAPTER VIII
REMEDIES, LIABILITY AND SANCTIONS\(^{508}\)

Article 73
Right to lodge a complaint with a supervisory authority\(^{509}\)

1. Without prejudice to any other administrative or judicial remedy, every data subject shall have the right to lodge a complaint with a supervisory authority competent in accordance with Article 51\(^{510}\), if the data subject considers that the processing of personal data relating to him or her does not comply with this Regulation\(^{511}\).

1a. The supervisory authority to which a complaint has been lodged shall not take any measure [referred to in paragraph 1b of Article 53] if a possible violation of the same rights related to the same processing activities is already being examined by a court in accordance with Article 74, provided the data subject is party to these proceedings\(^{512}\).

2. (…)

3. (…)

---

\(^{508}\) AT, FR, EE, ES and RO scrutiny reservation.

\(^{509}\) BE, CY CZ, EE, IE, LY, PT and SI scrutiny reservation.

\(^{510}\) The reference to article 51 allows to make a complaint to the DPA of the habitual residence, as that DPA is competent whenever data subjects on its territory are affected by processing. BG, IE, PL and IT scrutiny reservation on this reference. COM reservation. COM, BG, IT and LU though that the data subject should be able to lodge a complaint with any DPA without limitation since the protection of personal data was a fundamental right.

\(^{511}\) DE, supported by NL, suggested adding "when its rights are not being respected".

\(^{512}\) COM reservation. An analogous rule for parallel proceedings will have to be established for the case where the same case is pending before another DPA. This is, however, intrinsically linked to the one-stop-shop mechanism. AT feared this paragraph 1a could lead to forum-shopping. SI thought this could be set out in a recital.
4. Without prejudice to its duties under paragraph 1 (b) of Article 52\textsuperscript{513}, when the supervisory authority to which a complaint has been lodged is not competent for the supervision of the controller or the processor, it shall ex officio transmit the complaint to the supervisory authority which is competent under Article 51\textsuperscript{514}.

5. The supervisory authority to which the complaint has been lodged shall inform the complainant on the progress and the outcome of the complaint. Where the supervisory authority competent in accordance with Article 51 finds the complaint unfounded, the supervisory authority to which the complaint has been lodged shall notify the complainant thereof and inform him of the reasons for the rejection and of the possibility of an judicial remedy pursuant Article 74\textsuperscript{515}.

Article 74

Right to a judicial remedy against a supervisory authority\textsuperscript{516}

1. Without prejudice to any other administrative or non-judicial remedy, each natural or legal person shall have the right to an effective judicial remedy against a decision of a supervisory authority concerning them, including when the complaint has been rejected, in part or wholly\textsuperscript{517}.

\textsuperscript{513} This reference is intended to address concerns raised by BG, CZ, HU that the DPA should not be a mere post box but it should decide when to forward the complaint or when to undertake measures. DK thought that the non-competent DPA could verify the complaint and see if there were some misunderstandings.

\textsuperscript{514} ES, FR and IT reservation. Recital 111 clarifies that DPA to which the complaint was lodged and that is not the competent authority should not be a pure letter box but should at least take a preliminary look at the complaint.

\textsuperscript{515} NL and FR scrutiny reservation. Article 54c (2) already provides for a general duty for the supervisory authority with which a complaint has been lodged to notify the data subject of any measures taken (i.e. the scenario of a 'positive' reply by the DPA).

\textsuperscript{516} ES, PT and SI reservation. EE, IT and UK scrutiny reservation.

\textsuperscript{517} DE, supported by SE, suggested adding: 'by which it is adversely affected'.
2. Without prejudice to any other administrative or non-judicial remedy, each data subject shall have the right to a judicial remedy where the supervisory authority competent in accordance with Article 51 does not deal with a complaint or does not inform the data subject within three months or any shorter period provided under Union or Member State law on the progress or outcome of the complaint lodged under Article 73.

3. Proceedings against a decision of a supervisory authority shall be brought before the courts of the Member State where the supervisory authority is established.

4. (…)

5. (…)\textsuperscript{523}

\textsuperscript{518} COM reservation.

\textsuperscript{519} SI indicated that under its law the DPA was obliged to reply within two months.

\textsuperscript{520} SE scrutiny reservation. BE reservation. BE said that there was a link to Article 53 and the main establishment and the DPA of the habitual residence. Support from NL. IT thought that paragraphs 1 and 2 overlapped. NO wanted to delete paragraph 2 since a court review would endanger the independency of the DPA.

\textsuperscript{521} IT suggests stating that proceedings may be brought before the courts of the Member state where the natural or legal person has his/her habitual residence or is established.

\textsuperscript{522} In view of the reservations from BE, ES and FR, the reference to national law has been kept only in recital 113.

\textsuperscript{523} COM reservation on deletion of paragraphs 4 and 5. DE scrutiny reservation on deletion of paragraphs 4 and 5.
Article 75

Right to a judicial remedy against a controller or processor\textsuperscript{524}

1. Without prejudice to any available administrative or non-judicial remedy, including the right to lodge a complaint with a supervisory authority under Article 73, a data subject shall have the right to an effective judicial remedy\textsuperscript{525} if they consider that their rights under this Regulation have been infringed as a result of the processing of their personal data in non-compliance with this Regulation.

2. Proceedings against a controller or a processor shall be brought before the courts of the Member State where the controller or processor has an establishment (…).\textsuperscript{526} Alternatively, such proceedings may be brought before the courts of the Member State where the data subject has his or her habitual residence, unless the controller is a public authority acting in the exercise of its public powers.\textsuperscript{527}

3. (…)

4. (…)

\textsuperscript{524} DE, EE, PL, PT, SI and SK scrutiny reservation. ES, IT reservation.

\textsuperscript{525} ES asked how judicial remedy would be interpreted and how a missed deadline or that there will be no judicial review would be considered.

\textsuperscript{526} In view of the concerns raised, the reference to national law has been kept only in recital 113

\textsuperscript{527} ES wanted to know how the last sentence would apply in practice. With reference to habitual residence in Article 75, and the possibility for the data subject to lodge a complaint in any MS, the UK wanted to know if that meant that the data subject could seek judicial remedy in any Member State.
Article 76 528

**Representation of data subjects**

1. The data subject shall have the right to mandate a body, organisation or association, which has been properly constituted according to the law of a Member State and whose statutory objectives include the protection of data subjects’ rights and freedoms with regard to the protection of their personal data, 529 to lodge the complaint on his or her behalf 530 and to exercise the rights referred to in Articles 73, 74 and 75 on his or her behalf 531.

1a. [Independently of a data subject's mandate or complaint, any body, organisation or association referred to in paragraph 1 532 shall have the right to lodge a complaint with the supervisory authority competent in accordance with Article 51 533 if it has reasons to consider that a personal data breach referred to in Article 32(1) has occurred and Article 32(3) does not apply. 534].

---

528 DE, ES, PT and SI scrutiny reservation. CZ, EE, IT, NL, SI and UK thought this article was superfluous.
529 COM said that consumer organisations and data protection organisations enhance fundamental rights so it was important that they could lodge complaints.
530 IT scrutiny reservation.
531 DE parliamentary reservation; BE, EE reservation and IT scrutiny reservation. EE, supported by SE, thought that the data subject could choose anybody to represent her/him so this drafting was a limitation so a reference to national law was needed. Support from SE.
532 PL asked how an organisation could know about a breach. PT did not want to exclude the possibility of an organisation to lodge complaint if that was provided in national law but meant that the wording was not clear.
533 COM reservation on limitation to competent supervisory authority.
534 This paragraph was moved from Article 73(3). BE, EE, FR reservation. BG, DE, IT, LU, NL, PT and UK scrutiny reservation. UK in particularly queried whether such possibility would also be open to an association when the data subject itself considered that the reply he/she had received was satisfactory. ES on the contrary thought that this possibility should not be limited to data breaches. UK thought that paragraph 1 was sufficient. For SE it was not acceptable that an organisation etc. had an independent right to lodge a complaint.
Article 76a
Suspension of proceedings

1. Where a competent court of a Member State has reasonable grounds to believe that proceedings concerning the same processing activities are being conducted in another Member State, it shall contact the competent court in the other Member State to confirm the existence of such proceedings.

2. Where a possible violation of the same rights related to the same processing activities is already being examined by a court in another Member State, the competent court may suspend its proceedings concerning a natural and/or legal person provided these persons are also party to the proceedings in the other Member State.

---

535 COM scrutiny reservation on deletion of paragraphs 3 to 5. FR reservation on the deletion of paragraphs 3 to 4.
536 AT, BE, EE, ES, FI, FR, IT, NL, PT and SE scrutiny reservation. ES thought that *lis pendens* necessitated the same persons, same proceeding, same object of dispute and same claim and that that could be difficult to establish. UK, supported by FR, cautioned against having a too prescriptive text, support from FR SE thought that GDPR should not regulate *lis pendens*, instead it should be up to the DPA and MS courts to decide. For LU this was a question of judicial cooperation between judicial authorities. NO and FR asked how this text related to Regulation No 44/2001 and the Lugano Convention FI considered that it was necessary to have rules on this question in GDPR.
537 LU suggested to replace "shall" with "may".
538 NL and PL thought that it was difficult to force courts to stay proceedings waiting for another court to decide. NL asked how it was possible for a court to know that another case was going on elsewhere. COM thought that limitation to "same parties" was not appropriate here.
Article 77

Right to compensation and liability 539

1. Any person who has suffered 540 damage 541 as a result of a processing operation which is non compliant 542 with this Regulation shall have the right to receive compensation from the controller or processor 543 for the damage suffered. 544

---

539 Several Member States (DE, NL and UK) have queried whether there was an EU concept of damage and compensation or whether this was left to Member State law. IT suggested specifying that these rules are to be applied according to national law, support from CZ, NL, RO and SI. COM thinks that it has to be left to ECJ to interpret these rules and concepts. FR scrutiny reservation; FR questioned the division of responsibilities and the link to Articles 24 and 25 and national law in this field as well as the principle of subsidiarity.

540 DE and SK suggested adding “material or immaterial/moral”. NO suggested clarifying this in a recital.

541 BE asked whether a violation of the principles of the Regulation was enough to constitute a damage or whether the data subject had to prove a specific damage (obligation de moyens ou de résultat). COM said that the data subject had to prove the damage.

542 COM reservation as the current draft (contrary to the initial version and the 195 Directive) no longer embodies the principle of strict liability.

543 DE suggested restricting the possibility to seek compensation from the processor to cases where, in violation of point (a) of paragraph 2 of Article 26, the processor has processed personal data contrary to or in the absence of instructions from the controller. ES suggested adding a reference to ‘a right to exercise a direction action’, but this is already encompassed in the current draft.

544 SE considered that Article 77 was unclear and wanted to know whether both an economic and immaterial damage was covered.
2. Where more than one controller or processor or a controller and processor are involved in the processing which gives rise to the damage, each controller or processor shall be jointly and severally liable for the entire amount of the damage. This is without prejudice to recourse claims between controllers and/or processors.

3. The controller or the processor may be exempted from this liability, in whole or in part, if the controller or the processor proves that they are not responsible for the event giving rise to the damage.

Article 78
Penalties

(...)

---

545 IE queried why the reference to Article 24(2) had been removed and then the second sentence had been added: what the purpose to bring a claim against all of them and then sort out the individual responsibility?

546 UK thought that one controller or processor might be more responsible than another so it should be allowed for a relative responsibility. SE said that according Directive 95/46 (Article 23) the burden of proof and division of responsibility between the controller and the processor it was only the controller that was held responsible.

547 SI reservation: SI thought this paragraph could be deleted and left entirely to national law.

548 PL thought this should be turned into a mandatory provision.

549 DE and PL thought this paragraph needed to be further elaborated. DE in particular thought that the relationship to Article 39 needed to be further clarified. SI thought an arrangement for strict liability in the case of processing by public bodies should be inserted into this paragraph.

550 This Article was moved to Article 79b. Scrutiny reservation by SK, RO and PT.
Article 79

General conditions for imposing administrative fines

1. Each supervisory authority [competent in accordance with Article 51] shall be empowered to impose administrative fines pursuant to this Article in respect of infringements of this Regulation referred to in Article 79a. Administrative fines shall, depending on the circumstances of each individual case, be imposed in addition to, or instead of, measures referred to in Article 53.

2. Administrative fines imposed pursuant to Article 79a shall in each individual case be effective, proportionate and dissuasive.

2a. When deciding whether to impose an administrative fine in addition to, or instead of, measures referred to in points (a) to (f) of paragraph 1b of Article 53 and deciding on the amount of the administrative fine in each individual case due regard shall be had to the following:

(a) the nature, gravity and duration of the infringement having regard to the nature scope or purpose of the processing concerned;

---

551 DK reservation: it indicated that this system of administrative fining was incompatible with its constitutional legal system. PL thought that Article 79 should set out guidelines only, with possibly a maximum threshold for the DPA to impose fines.

552 Some delegations thought that the corrective measures of Article 53 (1b) should be listed rather here.

553 Moved here from paragraph 2b (further to remarks by FR, IE, IT and CZ).

554 Some delegations (EE, SK, PL) thought that aggravating circumstances should be distinguished from mitigating circumstances. SK suggested laying down exact thresholds (e.g. more than 2/3 of the maximum fine in case of aggravating circumstances). IT thought the possibility of EDPB guidance should be referred to here. NL thought that the status of codes of conduct and certification as well as the consequences of adhering to them needed to be looked at.
(b) the intentional or negligent character of the infringement,

(c) the number of data subjects affected by the infringement and
the level of damage suffered by them;

(d) action taken by the controller or processor to mitigate the
damage suffered by data subjects;

(e) the degree of responsibility of the controller or processor having
regard to technical and organisational measures implemented by
them pursuant to Articles 23 and 30;

(f) any previous infringements by the controller or processor;

(g) any financial benefits gained, or losses avoided, directly or
indirectly from the infringement;

(h) the manner in which the infringement became known to the
supervisory authority, in particular whether, and if so to what
extent, the controller or processor notified the infringement;

(i) in case measures referred to in point (b) and (c) of paragraph 1
and points (a), (d), (e) and (f) of paragraph 1b of Article 53,
have previously been ordered against the controller or
processor concerned with regard to the same subject-matter,
compliance with these measures;

555  DK, ES and SI reservation. SI stated that a DPA was not equipped to assess
this.

556  CZ was concerned that this factor might amount to a violation of the privilege
against self-incrimination

557  This should also accommodate concerns regarding the privilege against self-
incrimination by removing a general reference to co-operation in the
investigation. IT thought this paragraph should refer more generally to
previous incidents. DE pleaded for its deletion.
(j) adherence to approved codes of conduct pursuant to Article 38 or approved certification mechanisms pursuant to Article 39;  

(k) (...);  

(l) (...);  

(m) any other aggravating or mitigating factor applicable to the circumstances of the case.

2b. (...).

3. (...)

3a. (...)

3b. Each Member State may lay down the rules on whether and to what extent administrative fines may be imposed on public authorities and bodies established in that Member State.

4. The exercise by the supervisory authority [competent in accordance with Article 51] of its powers under this Article shall be subject to appropriate procedural safeguards in conformity with Union law and Member State law, including effective judicial remedy and due process.

---

558 DE reservation: DE pointed out that non-adherence to approved codes of conduct or approved certification mechanisms could as such not amount to a violation of the Regulation.

559 Removed at the suggestion of DE and SK.

560 If Member states are entirely free to decide whether or not to provide for sanctions against public authorities, it does not seem appropriate to list the fact that the controller is a public body here.

561 COM reservation on deletion; linked to reservation on Article 79a.

562 COM reservation on deletion.

563 DE would prefer to rule out this possibility in the Regulation. ES thought it should be provided that no administrative fines can be imposed on the public sector.
Article 79a

Administrative fines\textsuperscript{564,565}

1. The supervisory authority [competent in accordance with Article 51] may impose a fine that shall not exceed [...] EUR, or in case of an undertaking [...] \%\textsuperscript{566} of its total worldwide annual turnover\textsuperscript{567} of the preceding financial year, on a controller who, intentionally or negligently\textsuperscript{568}:

\textsuperscript{564} DE, EE, ES, PT and SI scrutiny reservation. FI and SI reservation. COM reservation on replacing ‘shall’ by ‘may’ and the deletion of amounts and percentages in paragraphs 1, 2 and 3. DE wanted the risk-based approach to be made clearer. DE thought that proportionality was important because Article 79a concerned fundamental rights/rule of law and deemed it disproportionate that a supervisory authority could impose a fine that the data subject was unaware of. DE said that it was necessary to set out the fines clearly and that the one-stop shop principle did not allow for exceptions being set out in national law. IE thought the gravity of offences was not sufficiently illustrated, e.g. infringement in para. 3(m), which according to IE is the most serious one. FR reservation: the strictness of the text may impinge on the independence of the DPA.

\textsuperscript{565} A majority of Member States (BE, CY DE, EE, ES, FI, IT, LV, LU, MT and NL) appear to be in favour of different scales of sanctions. COM referred to the Market Abuse Regulation with three levels of fines. DK, HU, IE, SE and UK were opposed to maintaining different sanctions scales. FR and PL did not favour it, but could accept it.

\textsuperscript{566} EE did not consider it appropriate to set out sanctions in percentage because the sanction was not predictable. PT considered that there should be minimum penalties for a natural person and that for SMEs and micro enterprises the volume of the business should not be looked at when applying the fines (this factor should only be applicable for multinationals). PL thought that administrative fines should be implemented in the same way in all MS. PL said that the fines should be flexible and high enough to represent a deterrent, also for overseas companies.

\textsuperscript{567} UK commented that turnover was used in competition law and asked whether the harm was the same here. EE asked how the annual turnover was connected to the sanction. SI thought that compared to competition law where the damage concerned the society as a whole, data protection concerned private infringements. COM said that both competition law and data protection concern economic values, whereas data protection protects values of the data subject.

\textsuperscript{568} IT wanted to delete "intentionally or negligently" and thought that those notions were already integrated part of the mechanism to calculate fines.
(a) does not respond within the period referred to in Article 12(2) to requests of the data subject;

(b) charges a fee in violation of the first sentence of paragraph 4 of Article 12.

2. The supervisory authority [competent in accordance with Article 51] may impose a fine that shall not exceed […] EUR, or in case of an undertaking […]% of its total worldwide annual (…) turnover of the preceding financial year569, on a controller or processor who, intentionally or negligently:570

(a) does not provide the information, or (…) provides incomplete information, or does not provide the information timely or in a sufficiently transparent manner, to the data subject pursuant to Articles 12(3), 14 and 14a;

(b) does not provide access for the data subject or does not rectify personal data pursuant to Articles 15 and 16 or does not comply with the rights and obligations pursuant to Articles 17, 17a, 17b, 18 or 19;

(c) (…);

(d) (…);

(e) does not or not sufficiently determine the respective responsibilities with joint controllers pursuant to Article 24;

569 DE suggestion.
570 IT considered that paragraphs 2 and 3 were very generic and only described the infringements but that the scale of gravity was not well defined. IT asked for a better categorisation of the infringements.
(f) does not or not sufficiently maintain the documentation pursuant to Article 28 and Article 31(4).

(g) (…)

3. The supervisory authority [competent in accordance with Article 51] may impose a fine that shall not exceed [...] EUR or, in case of an undertaking, [...] % of its total worldwide annual turnover of the preceding financial year\(^{571}\), on a controller or processor who, intentionally or negligently:

(a) processes personal data without a (…)\(^{572}\) legal basis for the processing or does not comply with the conditions for consent pursuant to Articles 6, 7, 8 and 9;

(b) (…);

(c) (…);

(d) does not comply with the conditions in relation to (…) profiling pursuant to Article 20;

(e) does not (…) implement appropriate measures or is not able to demonstrate compliance pursuant to Articles 22 (…) and 30;

(f) does not designate a representative in violation of Article 25;

(g) processes or instructs the processing of personal data in violation of (…) Articles 26;

\(^{571}\) DE suggestion.

\(^{572}\) FI pointed out that "sufficient" was unclear taking into consideration of the principles in Article 6 (f).
(h) does not alert on or notify a personal data breach or does not timely or completely notify the data breach to the supervisory authority or to the data subject in violation of Articles 31 and 32;

(i) does not carry out a data protection impact assessment in violation of Article 33 or processes personal data without prior consultation of the supervisory authority in violation of Article 34(1);

(j) (...);

(k) misuses a data protection seal or mark in the meaning of Article 39 or does not comply with the conditions and procedures laid down in Articles 38a and 39a;

(l) carries out or instructs a data transfer to a recipient in a third country or an international organisation in violation of Articles 40 to 44;

(m) does not comply with an order or a temporary or definite ban on processing or the suspension of data flows by the supervisory authority pursuant to Article 53(1) or does not provide access in violation of Article 53(2).

(n) (...)

(o) (...).

[3a. If a controller or processor intentionally or negligently violates several provisions of this Regulation listed in paragraphs 1, 2 or 3, the total amount of the fine may not exceed the amount specified for the gravest violation.]

573 IT wanted to reinstate failure to cooperate with the DPO. IE that thought that this was a subjective infringement.
4. [The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of adjusting the maximum amounts of the administrative fines referred to in paragraphs 1, 2 and 3 to monetary developments, taking into account the criteria referred to in paragraph 2a of Article 79.]

Article 79b

Penalties

1. For infringements of the provisions of this Regulation not listed in Article 79a Member States shall lay down the rules on penalties applicable to such infringements and shall take all measures necessary to ensure that they are implemented (...). Such penalties shall be effective, proportionate and dissuasive.

2. (...).

3. Each Member State shall notify to the Commission those provisions of its law which it adopts pursuant to paragraph 1, by the date specified in Article 91(2) at the latest and, without delay, any subsequent amendment affecting them.

---

574 CZ, DE, NL and RO reservation. NL that thought that guidelines from the EDPB could solve the problems on the amounts. CZ wanted to delete the paragraph and thought that the DPA could set out the amounts.

575 DE, DK, EE, ES, IT, PL and PT and SK scrutiny reservation. COM explained that infringements not listed in Article 79a were those under national law, referred to in Chapter IX, for example infringements in employment law and relating to freedom of expression. In that way Article 79b is complementary to the list in Article 79 and does not exclude other penalties. IT thought it was better to delete the Article but lay down the possibility to legislate at national level. FR reservation on the imposition of criminal penalties. DE in favour of referring expressis verbis to criminal penalties.

576 BE and EE reservation.
CHAPTER IX
PROVISIONS RELATING TO SPECIFIC DATA PROCESSING SITUATIONS

Article 80
Processing of personal data and freedom of expression

1. Member State law shall (...) reconcile the right to the protection of personal data pursuant to this Regulation with the right to freedom of expression, including the processing of personal data for journalistic purposes and the purposes of artistic or literary expression.

2. (...)

Article 80a
Processing of personal data and public access to official documents

Personal data in official documents held by a public authority or a public body may be disclosed by the authority or body in accordance with Union law or Member State law to which the public authority or body is subject in order to reconcile public access to such official documents with the right to the protection of personal data pursuant to this Regulation.
Article 80b

*Processing of national identification number*

Within the limits of this Regulation, Member States may determine the conditions for the processing of a national identification number or any other identifier of general application. Member State law shall provide for specific and suitable measures to safeguard the rights and freedoms of the data subject.

Article 81

*Processing of personal data for health-related purposes*

1. Within the limits of this Regulation and in accordance with points (g) and (h) of Article 9(2), (…) personal data referred to in Article 9(1) may be processed on the basis of Union law or Member State law which (…) provides for suitable and specific measures to safeguard the data subject's legitimate interests when necessary for:

   (a) the purposes of preventive or occupational medicine, medical diagnosis, the provision of care or treatment or the management of health-care services, and where those data are processed by a health professional subject to the obligation of professional secrecy under Union or Member State law or rules established by national competent bodies to the obligation of professional secrecy or by another person also subject to an equivalent obligation of secrecy; under Member State law or rules established by national competent bodies; or

   (b) reasons of public interest in the area of public health, such as protecting against serious cross-border threats to health or ensuring high standards of quality and safety, inter alia of medicinal products or medical devices; or

   (c) (…)
2. Processing of personal data concerning health which is necessary for historical, statistical or scientific (...) purposes, such as patient registries set up for improving diagnoses and differentiating between similar types of diseases and preparing studies for therapies, is subject to the conditions and safeguards referred to in Articles 83a to 83c.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of further specifying other reasons of public interest in the area of public health as referred to in point (b) of paragraph 1, as well as criteria and requirements for the safeguards for the processing of personal data for the purposes referred to in paragraph 1.

Article 82

Processing in the employment context

1. Within the limits of this Regulation, Member States may adopt by law specific rules regulating the processing of employees' personal data in the employment context, in particular for the purposes of the recruitment, the performance of the contract of employment, including discharge of obligations laid down by law or by collective agreements, management, planning and organisation of work, health and safety at work, and for the purposes of the exercise and enjoyment, on an individual or collective basis, of rights and benefits related to employment, and for the purpose of the termination of the employment relationship.

2. Each Member State shall notify to the Commission those provisions of its law which it adopts pursuant to paragraph 1, by the date specified in Article 91(2) at the latest and, without delay, any subsequent amendment affecting them.

577 This might need to be moved to Chapter XI on final provision.
3. The Commission shall be empowered to adopt delegated acts in accordance with Article 86 for the purpose of further specifying the criteria and requirements for the safeguards for the processing of personal data for the purposes referred to in paragraph 1.

*Article 82a*

**Processing for purposes of social protection**

Within the limits of this Regulation, Member States may adopt specific rules for the processing of personal data in the public interest for the purpose of social protection, carried out by public authorities or by bodies or associations. Member State law shall provide for specific and suitable measures to safeguard the rights and freedoms of the data subject.

*Article 83a*

**Processing of personal data for historical purposes**

1. **Within the limits of this Regulation,** processing of personal data for historical purposes in archives carried out by public authorities or public bodies pursuant to Union or Member State law **and** shall not be considered incompatible with the purpose for which the data are initially collected **and may be processed** for those purposes for a longer period than necessary for that initial purpose which does not exceed the period necessary for the sole purpose of **processing for historical purposes,** provided that the controller provides appropriate safeguards for the rights and freedoms of data subjects, in particular to ensure that the data are not processed for any other purposes or used in support of measures or decisions regarding any particular individual, and specifications on the conditions for access to the data.
2. **By derogation from paragraph 1 and without prejudice to Article 80a**, the controller shall **take appropriate measures to** ensure that personal data which are processed for the purposes referred to in paragraph 1 **may be made accessible to recipients only for reasons of public interest or for safeguarding the rights and freedoms of the data subject or overriding rights and freedoms of others according to Union or Member State law to which the controller is subject.**

3. **Article 14a shall not apply where and insofar as, the data are processed only for historical purposes, the provision of such information proves impossible or would involve a disproportionate effort or if recording or obtaining or disclosure is expressly laid down by Union law or Member State law. In these cases, the controller shall provide for appropriate measures to safeguard the rights and freedoms of the data subject.**

4. Articles 15, 17, 17a, and 18 shall not apply **insofar as such restriction is necessary for the fulfilment for the purposes referred to in paragraphs 1 and 2**, provided that the controller provides appropriate measures to, taking into account the risks for the rights and freedoms of data subjects, in particular to ensure that the data are not used for taking measures or decisions regarding particular individual.

**Article 83b**

*Processing of personal data for statistical purposes*

1. **Within the limits of this Regulation, personal data may be processed for statistical purposes carried out by public authorities or public bodies performing tasks of official statistics in the public interest pursuant to Union or Member State law and shall not be considered incompatible with the purpose for which the data are initially collected and may be processed for those purposes for a longer period than necessary for that initial purpose, provided that:**
(a) these purposes cannot be otherwise fulfilled by processing data which does not permit or not any longer permit the identification of the data subject;

(b) data enabling the attribution of information to an identified or identifiable data subject is kept separately from the other information as long as these purposes can be fulfilled in this manner;

(c) the data are not processed for any other purpose, in particular not for the purpose of supporting measures or decisions with respect to that individual; and

(d) that the controller provides appropriate safeguards for the rights and freedoms of the data subject individual.

2. Article 14a shall not apply where and insofar as, the data are processed for statistical purposes, the provision of such information proves impossible or would involve a disproportionate effort or if obtaining or disclosure is expressly laid down by Union law or Member State law. In these cases, the controller shall provide for appropriate measures to safeguard the rights and freedoms of the data subject.

2a. Articles 15 and 16 shall not apply where and insofar as, for processing for statistical purposes, it proves impossible or would involve a disproportionate effort for the controller to grant access to, or rectification of, the personal data.

3. Articles 17, 17a, and 18 shall not apply when and insofar as such restriction is necessary for the fulfilment of statistical purposes and personal data are kept for a period which does not exceed the period necessary for the sole purpose of compiling statistics, provided that that the controller provides appropriate measures to safeguard the rights and freedoms of the data subjects, in particular to ensure that the data are not used for taking measures or decisions regarding particular individuals.
Article 83c
Processing for scientific purposes

1. **Within the limits** of this Regulation, personal data may be processed for scientific purposes and shall not be considered incompatible with the purpose for which the data are initially collected and may be processed for those purposes for a longer period than necessary for that initial purpose, provided that:

   (a) these purposes cannot be otherwise fulfilled by processing data which does not permit or no longer permits the identification of the data subject;

   (b) data enabling the attribution of information to an identified or identifiable data subject is kept separately from the other information, as long as these purposes can be fulfilled in this manner;

   (c) the data are not processed for any other purpose, in particular not for the purpose of supporting measures or decisions with respect to that individual; and

   (d) the controller implements appropriate measures to safeguard the rights and freedoms of the data subject.

2. Personal data processed for scientific purposes may be published or otherwise publicly disclosed by the controller only if the publication of personal data is necessary to present scientific findings or to facilitate scientific purposes insofar as the interests or the rights or freedoms of the data subject do not override these interests and:

   (a) the data subject has given explicit consent; or

   (b) the data were made **manifestly** public by the data subject; or

   (c) the publication or other public disclosure is necessary to present scientific findings or to facilitate scientific purposes insofar as the interests or the rights or freedoms of the data subject do not override these interests.
3. Processing of personal data for scientific purposes shall not be considered incompatible with the purpose for which the data are initially collected, provided that the controller implements appropriate safeguards for the rights and freedoms of data subjects, in particular to ensure that the data are not processed for any other purposes or used in support of measures or decisions regarding any particular individual or by the use of pseudonymous data.

4. Article 14a shall not apply where and insofar as, the data are processed only for scientific purposes, the provision of such information proves impossible or would involve a disproportionate effort or if obtaining or disclosure is expressly laid down by Union law or Member State law. In these cases, the controller referred to in paragraph 1 shall provide for appropriate measures to safeguard the rights and freedoms of the data subject.

5. Articles 17, 17a, and 18 shall not apply when and insofar as such restriction is necessary for the fulfilment of scientific purposes and personal data are kept for a period which does not exceed the period necessary for solely for scientific purposes, provided that that the controller implements appropriate measures to safeguard the rights and freedoms of the data subjects, in particular to ensure that the data are not used for taking measures or decisions regarding particular individuals.

Article 84

Obligations of secrecy

1. Within the limits of this Regulation, Member States may adopt specific rules to set out the investigative powers by the supervisory authorities laid down in Article 53(2) in relation to controllers or processors that are subjects under national law or rules established by national competent bodies to an obligation of professional secrecy or other equivalent obligations of secrecy, where this is necessary and proportionate to reconcile the right of the protection of personal data with the obligation of secrecy. These rules shall only apply with regard to personal data which the controller or processor has received from or has obtained in an activity covered by this obligation of secrecy.
2. Each Member State shall notify to the Commission the rules adopted pursuant to paragraph 1, by the date specified in Article 91(2) at the latest and, without delay, any subsequent amendment affecting them\textsuperscript{578}.

\textit{Article 85}

\textit{Existing data protection rules of churches and religious associations}

1. Where in a Member State, churches and religious associations or communities apply, at the time of entry into force of this Regulation, comprehensive rules relating to the protection of individuals with regard to the processing of personal data, such rules may continue to apply, provided that they are brought in line with the provisions of this Regulation.

2. Churches and religious associations which apply comprehensive rules in accordance with paragraph 1 shall provide for the establishment of an independent supervisory authority in accordance with Chapter VI of this Regulation.

\textsuperscript{578} This might need to be moved to Chapter XI on final provision.
CHAPTER X
DELEGATED ACTS AND IMPLEMENTING ACTS

Article 86

Exercise of the delegation

1. The power to adopt delegated acts is conferred on the Commission subject to the conditions laid down in this Article.

2. The delegation of power referred to in (...) Article 8(3), Article 9, (...), Article 39a(7), [Article 43(3)], (...), Article 79a(4), Article 81(3), Article 82(3) and Article 83(3) shall be conferred on the Commission for an indeterminate period of time from the date of entry into force of this Regulation.

3. The delegation of power referred to in (...) Article 8(3), (...) Article 39a(7), [Article 43(3)], (...) Article 79a(4), Article 81(3) and Article 82(3) may be revoked at any time by the European Parliament or by the Council. A decision of revocation shall put an end to the delegation of power specified in that decision. It shall take effect the day following the publication of the decision in the Official Journal of the European Union or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.

4. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.

---

579  COM reservation on the deletion of empowerments for delegated acts or implementing acts.
5. A delegated act adopted pursuant to (…) Article 8(3), Article 9(3), (…) Article 39a(7), [Article 43(3)], (…), Article 79a(4), Article 81(3 and Article 82(3) (…) shall enter into force only if no objection has been expressed either by the European Parliament or the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or the Council.

Article 87

Committee procedure

1. The Commission shall be assisted by a committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011.

2. Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

3. Where reference is made to this paragraph, Article 8 of Regulation (EU) No 182/2011, in conjunction with Article 5 thereof, shall apply.
CHAPTER XI
FINAL PROVISIONS

Article 88
Repeal of Directive 95/46/EC

1. Directive 95/46/EC is repealed.

2. References to the repealed Directive shall be construed as references to this Regulation. References to the Working Party on the Protection of Individuals with regard to the Processing of Personal Data established by Article 29 of Directive 95/46/EC shall be construed as references to the European Data Protection Board established by this Regulation.

Article 89
Relationship to and amendment of Directive 2002/58/EC

1. This Regulation shall not impose additional obligations on natural or legal persons in relation to the processing of personal data in connection with the provision of publicly available electronic communications services in public communication networks in the Union in relation to matters for which they are subject to specific obligations with the same objective set out in Directive 2002/58/EC.

2. Article 1(2) of Directive 2002/58/EC shall be deleted.
Article 89a

Relationship to previously concluded Agreements

International agreements involving the transfer of personal data to third countries or international organisations which were concluded by Member States prior to the entry into force of this Regulation, and which are in compliance with Directive 95/46/EC, shall remain in force until amended, replaced or revoked.\(^{580}\)

Article 90

Evaluation

The Commission shall submit reports on the evaluation and review of this Regulation to the European Parliament and the Council at regular intervals. The first report shall be submitted no later than four years after the entry into force of this Regulation. Subsequent reports shall be submitted every four years thereafter. The Commission shall, if necessary, submit appropriate proposals with a view to amending this Regulation, and aligning other legal instruments, in particular taking account of developments in information technology and in the light of the state of progress in the information society. The reports shall be made public.

Article 91

Entry into force and application

1. This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

2. It shall apply from [two years from the date referred to in paragraph 1].

\(^{580}\) COM reservation based on strong legal doubts on the legality of such proposal. COM refers to recital 79. DK, IT, RO and UK scrutiny reservation.
This Regulation shall be binding in its entirety and directly applicable in all Member States.
