Subject: Cohesion Policy legislative package  
- Presidency compromise on Ex Ante Conditionality

---

Delegations will find attached a compromise text on a new definition of Ex Ante Conditionality, Article 17, recital 17, and Annex IV of the Common Provisions Regulation.

The modifications highlighted in bold are those in comparison to the revised versions (corrigendum) presented by the Commission on 14 March 2012.

Art 2: new definition:

**"Applicable *ex ante* conditionality" means a precisely pre-defined critical factor, which is a necessary prerequisite for and has a direct and genuine link to and direct impact on the effective and efficient achievement of the specific objective for an investment priority or a Union priority."**

Art. 2: new definition:

**"A specific objective is the result to which an investment priority or Union priority shall contribute in a specific national or regional context through actions or measures undertaken within a priority."**

Recital 17

(17) Member States should concentrate support to ensure a significant contribution to the achievement of Union objectives in line with their specific national and regional development needs. *Ex ante* conditionalities **as well as a concise and exhaustive set of objective criteria for their assessment** should be defined to ensure that the necessary **prerequisites** for the effective **and efficient** use of Union support are in place. **To this end, an *ex ante* conditionality should apply to a priority of a given programme only when it has a direct and genuine link to and a direct impact on the effective and efficient achievement of the specific objectives for an investment priority or a Union priority, while not every specific objective is necessarily linked to an *ex ante* conditionality laid down in the Fund-specific rules.** The fulfilment of **the applicable** *ex ante* conditionalities should be assessed by the **Member State** in the framework of its **establishment** of the Partnership **Agreement or** programmes, **taking account of the principle of proportionality. The Commission shall verify the consistency of this assessment in accordance with the principles of**

**proportionality and subsidiarity and respecting national and regional competences to decide on the specific and adequate policy measures, including the content of strategies.**

In cases where there is a failure to fulfil an **applicable** *ex ante* conditionality **within the defined deadline**, the Commission should have the power to suspend **interim** payments to the **affected parts of the** programme **under precisely pre-defined conditions**.

#### *Article 17*

##### **Ex ante conditionalities**

1. [...]
2. **In accordance with their specific institutional arrangements,** Member States shall assess **in the framework of their establishment of the Partnership Agreement or programmes,** whether the **ex ante conditionalities laid down in the respective fund-specific rules are applicable to the specific objectives pursued within the priorities of their programmes and whether the applicable ex ante conditionalities are fulfilled. Ex ante conditionalities shall apply only to the extent and provided that the definition laid down in Article 2 is complied with regarding the specific objectives pursued under the priorities of the programme. The assessment shall be limited to the criteria laid down in the fund-specific rules and may be proportional having regard to the level of support allocated.**
3. **A programme or the Partnership Agreement shall indicate the applicable ex ante conditionalities, which pursuant to the assessment referred to in paragraph 2, are not fulfilled at the date of transmission of the Partnership Agreement, together with the priorities affected, actions to be taken, and their timetable.** Member States shall [...] **fulfill these ex ante conditionalities not later than 31 December 2016 and report on their fulfillment not later than in the annual implementation report in 2017 or the progress report in 2017 in accordance with Article 44 (5) [...].**
4. [...]

4. a The Commission shall assess the **consistency and the adequacy of the** information provided **by the Member State** on the **applicability** of *ex ante* conditionalities **and on the fulfillment of applicable *ex ante* conditionalities** in the framework of its assessment of the Partnership Agreement and/or programmes. **This assessment shall be limited to the criteria laid down in the fund-specific rules, shall be proportional having regard to the level of support allocated and shall respect national and regional competences to decide on the specific and adequate policy measures including the content of strategies.**
- 4 b In case of disagreement between the Commission and a Member State on the applicability of an *ex ante* conditionality to the specific objective of the priorities of a programme or its fulfillment, both the applicability in accordance with Article 2 and the non-fulfillment shall be proven by the Commission.**
5. [...] **The Commission** may decide, when adopting a programme, to suspend all or part of interim payments to the **relevant priority of this** programme pending the [...] completion of actions [...] **referred to in paragraph 3 where necessary to avoid significant prejudice to the effectiveness and efficiency of the achievement of the specific objectives of the priority concerned.** The failure to complete actions to fulfil an **applicable *ex ante* conditionality which has not been fulfilled at the date of submission of the respective programme,** by the deadline set out in **paragraph 3,** shall constitute a basis for suspending **interim** payments by the Commission **to the affected priorities of the programme. In both cases, the amount of suspension shall be proportional taking into account the actions to be taken and the funds at risk.**
5. a **The provisions of paragraph 5 shall not be applicable in case of agreement between the Commission and the Member State on the non-applicability of an *ex ante* conditionality or on the fact that an applicable *ex ante* conditionality has been fulfilled, as indicated by the approval of the programme and the Partnership Agreement, or in the absence of Commission observations within 60 days of the submission of the report referred to in paragraph 3. [...]**

**5. b** **The Commission shall without delay lift the suspension of interim payments for a priority where a Member State has completed actions relating to the fulfilment of *ex ante* conditionalities applicable to that programme and which had not been fulfilled at the time of the decision of the Commission on the suspension. It shall also without delay lift the suspension where following an amendment of the programme related to the priority concerned the *ex ante* conditionality concerned is no longer applicable.**

6. Paragraphs 1 to **5 b** shall not apply to programmes under the European territorial cooperation goal.
