Subject : **Draft Council Regulation establishing a Community Code on the rules governing the movement of persons across borders**

At its meeting on 23 September 2004, the Frontiers Working Party completed the first reading of the Commission proposal for a Council Regulation establishing a Community Code on the rules governing the movement of persons across borders, with the exception of Title III with regard to internal borders.

On the basis of the results of the first reading, the Presidency has drafted a revised version of the above-mentioned draft Council Regulation, as set out in the annex.

The text of the recitals will be examined once the discussion of the Articles is finalised.

DRAFT

COUNCIL REGULATION

establishing a Community Code on the rules governing the movement of persons across borders

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 62(1) and (2)(a) thereof,

Having regard to the proposal from the Commission,¹

Having regard to the Opinion of the European Parliament,²

Whereas:

- (1) Under Article 62(1) of the Treaty, the drafting of measures to ensure there are no checks on persons crossing internal borders forms part of the Union's objective of establishing an area without internal frontiers in which the free movement of persons is ensured, as set out in Article 14 of the Treaty.
- (2) In accordance with Article 61 of the Treaty, the creation of an area in which persons may move freely must be flanked by other measures. The common policy on the crossing of external borders, as provided for by Article 62(2) of the Treaty is such a measure.
- (3) The adoption of common measures on the crossing of internal borders by persons and checks at external borders must reflect the Schengen acquis incorporated in the European Union framework, and in particular the relevant provisions of the Convention implementing the Schengen Agreement of 14 June 1985³ and the Common Manual.⁴
- (4) As regards checks at external borders, the establishment of a “common corpus” of legislation, particularly via consolidation and development of the acquis, is one of the fundamental components of the common policy on the management of the external borders, as defined in the Commission Communication of 7 May 2002 “Towards integrated management of the external borders of the Member States of the European

¹ OJ C [...], [...], p. [...].

² OJ C [...], [...], p. [...].

⁴ OJ C 313, 16.12.2002, p. 97.

Union”.⁵ This objective was included in the “Plan for the management of the external borders of the Member States of the European Union”, approved by the Council on 13 June 2002 and endorsed by the Seville European Council on 21 and 22 June 2002 and by the Thessaloniki European Council on 19 and 20 June 2003.

- (5) The definition of common rules on the movement of persons across borders neither calls into question nor affects the rights of free movement enjoyed by Union citizens and members of their families and by third-country nationals and members of their families who, under agreements between the Community and its Member States, on the one hand, and these countries, on the other, enjoy rights of free movement equivalent to those of Union citizens.
- (6) Border checks are in the interest not only of the States at whose external borders they are carried out but of all Member States which have abolished checks at their internal borders. They must help to combat illegal immigration and trafficking in human beings and to prevent any threat to the Member States' internal security, public policy, public health and international relations. The performance of border checks must be proportionate to these objectives.
- (7) Border checks comprise not only checks on persons at authorised crossing-points but also surveillance between these crossing-points. It is therefore necessary to lay down the conditions, criteria and detailed arrangements governing checks at crossing-points and surveillance.
- (8) Provision must be made for relaxing checks at external borders in the event of exceptional and unforeseen circumstances.
- (9) To reduce the waiting times of persons enjoying the Community right to free movement, who are usually subject only to an identity check, separate lanes should, where circumstances permit, be provided at external border crossing-points, identified by minimum uniform indications in all Member States. Separate lanes should be provided in international airports.
- (10) Member States must ensure that control procedures do not constitute a major barrier to trade and social and cultural interchange at external borders. To this end they should deploy appropriate numbers of staff and resources.
- (11) The Member States are to appoint the national service or services responsible for border-guard tasks in accordance with their national legislation. Where more than one service is responsible in the same Member State, there must be close and constant cooperation between them.
- (12) Operational cooperation and assistance between Member States in relation to border checks will be managed and coordinated by the “European Agency for the Management of Operational Cooperation at the External Borders of the Member States” established by Regulation (EC) No⁶

⁵ COM(2002) 233 final.

⁶ OJ L [...], [...], p. [...].

- (13) With regard to the crossing of internal borders, checks should not be carried out or formalities imposed solely because such a border is crossed.
- (14) It must nevertheless be made clear that this Regulation is without prejudice to the checks carried out under general police powers and the security checks on persons identical to those carried out for national flights, to the possibilities for Member States to carry out exceptional checks on baggage in accordance with Council Regulation (EEC) No 3925/91 concerning the elimination of controls and formalities applicable to the cabin and hold baggage of persons taking an intra-Community flight and the baggage of persons making an intra-Community sea crossing,⁷ and to national legislation on carrying travel or identity documents or the requirement that persons notify the authorities of their presence on the territory of the Member State in question.
- (15) A Member State should also have the possibility of temporarily reintroducing checks at its borders in the event of a serious threat to its public policy, internal security or public health. The conditions and procedures for doing so must be laid down, so as to guarantee the exceptional nature of the measure and the principle of proportionality.
- (16) In the event of an exceptionally serious threat to public policy, internal security or public health affecting one or more Member States, the Council must be in a position to decide immediately to reintroduce checks at all internal borders or at specific borders of all or several Member States. The scope and duration of the checks must be restricted to the bare minimum needed to respond to this threat.
- (17) In an area where persons may move freely, the reintroduction of checks on persons at internal borders must remain an exception and, consequently, the Member State using this measure must inform the other Member States and the Commission in detail of the reasons prompting it to introduce or extend the measure for more than 30 days, in order to engage in a debate and jointly to consider whether alternative measures might be possible. The information sent must be capable of being classified as confidential or secret. The Member State that invoked the safeguard clause must report to the other Member States, the European Parliament and the Commission once the checks have been lifted. The public must also be informed in an appropriate manner of the reintroduction of checks at internal borders and of the authorised crossing-points, save where this is precluded by the reasons for their reintroduction.
- (18) Provision must be made for a procedure enabling the Commission to adapt the detailed practical rules governing border checks.
- (19) The measures needed to implement this Regulation should be taken pursuant to Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission.⁸

⁷ OJ L 374, 31.12.1991, p. 4. Regulation as amended by Parliament and Council Regulation (EC) No 1882/2003 (OJ L 284, 31.10.2003, p. 1).

⁸ OJ L 184, 17.9.1999, p. 23.

- (20) Since the objectives of the proposed action, namely the establishment of rules applicable to the movement of persons across borders, directly affect the Community acquis on external and internal borders and cannot thus be achieved sufficiently by the Member States acting alone, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve this objective.
- (21) This Regulation respects fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the European Union. It will be implemented in accordance with the Member States' obligations as regards international protection and non-refoulement.
- (22) This Regulation replaces the Common Manual and the provisions of the Convention implementing the Schengen Agreement of 14 June 1985 on the crossing of internal and external borders. The Schengen Executive Committee decisions of 22 December 1994 (SCH/Com-ex (94)17, rev. 4)⁹ and 20 December 1995 (SCH/Com-ex (95) 20, rev. 2),¹⁰ and Council Regulation (EC) No 790/2001 of 24 April 2001 reserving to the Council implementing powers with regard to certain detailed provisions and practical procedures for carrying out border checks and surveillance,¹¹ should also be repealed.
- (23) By way of derogation from Article 299 of the Treaty, the only territories of France and the Netherlands to which this Regulation applies are those in Europe. It does not affect the specific arrangements applied in Ceuta and Melilla, as defined in the Act of Accession of the Kingdom of Spain to the Convention implementing the Schengen Agreement of 14 June 1985.¹²
- (24) In accordance with Articles 1 and 2 of the Protocol on the position of Denmark, annexed to the Treaty on European Union and the Treaty establishing the European Community, Denmark will not participate in the adoption of this Regulation and is not therefore bound by it or required to apply it. Given that this Regulation builds upon the Schengen acquis under the provisions of Title IV of the Treaty establishing the European Community, Denmark will decide within a period of six months after the Council has adopted this Regulation whether or not to implement it in its national law, as provided for in Article 5 of the Protocol.
- (25) As regards Iceland and Norway, this Regulation constitutes a development of provisions of the Schengen acquis within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the association of those two States with the implementation, application and development of the Schengen acquis¹³ which fall within the area referred to in Article 1, point B of Council Decision 1999/437/EC of 17 May 1999 on certain arrangements for the application of that Agreement.¹⁴

¹⁴ OJ L 176, 10.7.1999, p. 31.

- (26) This Regulation constitutes a development of the provisions of the Schengen acquis in which the United Kingdom is not participating, in accordance with Council Decision 2000/365/EC of 29 May 2000 on the request by the United Kingdom of Great Britain and Northern Ireland to take part in some of the provisions of the Schengen acquis.¹⁵ The United Kingdom is therefore not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
- (27) This Regulation constitutes a development of the provisions of the Schengen acquis in which Ireland does not take part, in accordance with Council Decision 2002/192/EC of 28 February 2002 concerning Ireland's request to take part in some of the provisions of the Schengen acquis.¹⁶ Ireland is therefore not taking part in the adoption of the Regulation and is not bound by it or subject to its application.
- (28) This Regulation constitutes an act building on the Schengen acquis or otherwise related to it within the meaning of Article 3 of the 2003 Act of Accession, except for Title III, Article 5(4) and those provisions of Title II and its annexes referring to the Schengen information System, for which the provisions of Article 3(2) of the 2003 Act of Accession apply,

TITLE II
EXTERNAL BORDERS

Chapter I
Crossing of external borders
and conditions for entry

Article 4
Crossing external borders

1. External borders may be crossed only at border crossing-points and during the fixed opening hours. The opening hours must be clearly indicated at border posts which are not open 24 hours a day.

Specific crossing-points reserved for residents of border areas may be provided for under the regime of local border traffic. This shall be clearly indicated at those crossing points.

The list of border crossing-points is set out in Annex I.

2. By way of derogation from paragraph 1, exceptions to the obligation to cross external borders only at border crossing-points and during fixed opening hours may be allowed:
- a) under the regime of local border traffic;
 - b) in connection with pleasure boating or coastal fishing;
 - c) for seamen going ashore to stay in the area of the port where their ships call or in the adjacent municipalities;
 - d) for individuals or groups of persons, where there is a requirement of a special nature, provided that they are in possession of the permits required by national legislation and that it does not conflict with the interests of public policy and the internal security of the Member States. Such a permit may be issued only if the person requesting it produces the necessary documents when crossing the border;
 - e) for persons or groups of persons who, due to an unforeseen emergency situation affecting their health, require urgent medical treatment or immediate transfer to a hospital, regardless of whether they fulfil entry requirements.
3. Without prejudice to the exceptions provided for in paragraph 2 or to their international protection obligations, the Member States shall introduce penalties, in accordance with their national law, for the unauthorised crossing of external borders at places other than crossing points or at times other than the fixed opening hours. These penalties must be effective, proportionate and dissuasive.

Article 5
Entry conditions for third-country nationals

1. For stays not exceeding 90 days per six-month period, third-country nationals may be granted entry into the territory of the Member States provided they fulfil the following conditions:
 - a) they possess a valid travel document or documents authorising them to cross the border;
 - b) they are in possession of a valid visa if required;
 - c) they possess documents justifying the purpose and conditions of the intended stay, including, if required, travel medical insurance, and they have sufficient means of subsistence, both for the period of the intended stay and for the return to their country of origin or transit to a third State into which they are certain to be admitted, or are in a position to acquire such means lawfully;
 - d) they are not persons for whom an alert has been issued for the purposes of refusing entry
 - e) they are not considered to be a threat to public policy, internal security, public health or the international relations of any of the Member States and no alert is issued in Member States' national data bases.
2. It is for the third-country national to provide on request the documents justifying the reason for his application to enter the territory

A non-exhaustive list of supporting documents used to verify fulfilment of the conditions set out in paragraph 1 is included in Annex II.
3. Means of subsistence shall be assessed in accordance with the duration and the purpose of the stay and by reference to average prices for board and lodging. The reference amounts set by the Member States are shown in Annex III.
4. Third-country nationals holding a valid residence permit issued by a Member State shall be exempt from the visa requirement for entering the territory of the other Member States.
5. By way of derogation from paragraph 1:
 - a) third-country nationals who do not fulfil the conditions referred to in paragraph 1, points b) and c), but hold, in addition to a valid travel document, a residence permit or a re-entry visa issued by one of the Member States or, where required, both documents, shall be authorised entry to the territories of the other Member States for transit purposes so that they may reach the territory of the Member State which issued the residence permit or re-entry visa, unless their names are on the national list of alerts of the Member State whose external borders they are seeking to cross and the alert is accompanied by instructions as to refusal of entry or transit.

- b) If a third-country national who does not fulfil the conditions for entry given in paragraph 1 invokes the provisions of Article 11(1) and requests entry and transit by the external border of a Member State other than the one which has agreed, exceptionally, to allow him to reside there, he must be refused entry and allowed to present himself at the external border of the latter Member State, for the purpose of entering its territory.
6. Where third-country nationals subject to the visa requirement pursuant to Regulation No 539/2001¹⁹ present themselves at the border without such a visa, they shall be refused entry, in conformity with Article 11, unless they fulfil the conditions laid down in Article 1(2) of Regulation (EC) No 415/2003.²⁰

If these conditions are fulfilled, a visa may be issued at the border in accordance with the above Regulation; visas issued at the border must be recorded on a list.

If it is not possible to affix a visa in the document, it must, exceptionally, be affixed on a separate sheet inserted in the document. In such a case, the uniform format for forms for affixing the visa, laid down by Regulation (EC) No 333/2002,²¹ must be used.

Chapter II

Control of external borders and refusal of entry

Article 6

Checks on persons at border crossing-points

1. Cross-border movement at external borders shall be subject to checks by the national border guards. Checks shall be carried out in accordance with paragraphs 2 and 3.
2. All persons shall undergo a minimum check in order to establish their identities on the basis of the production or presentation of their travel documents. Such minimum check consists of a rapid and straightforward verification of the validity of the document authorising the holder to cross the border and of the presence of signs of falsification or counterfeiting.
3. On entry and exit, third-country nationals shall be subject to a thorough check.

Thorough checks shall comprise:

- a) the verification of travel documents and the other conditions governing entry and residence laid down in Article 5(1) and, where applicable, documents authorising residence and the pursuit of a professional activity;

¹⁹ OJ L 81, 21.3.2001, p.1. Last amended by Regulation No 453/2003, OJ L 69, 13.3.2003, p.10.

²⁰ OJ L 64, 7.3.2003, p. 1.

²¹ OJ L 53, 23.2.2002, p. 4.

- b) the detection and prevention of threats to the internal security, public policy and public health of the Member States, and the recording of offences, particularly through direct consultation of reports on persons and objects included in the Schengen Information System (SIS) and in national data files.

The checks shall also cover the vehicles and objects in the possession of the persons crossing the border

4. Detailed rules governing the checks are laid down in Annex IV.

Article 7 Relaxation of checks

1. Checks at land and sea borders may be relaxed as a result of exceptional and unforeseen circumstances requiring immediate measures to be taken.
2. If the checks provided for by Article 6 cannot be carried out systematically by reason of exceptional and unforeseen circumstances as referred to in paragraph 1, priorities must be set.
3. Detailed rules governing the relaxation of checks and the priority criteria are laid down in Annex V.
4. The relevant Member State shall inform the other Member States and the Commission at the earliest possible opportunity of the measures taken in accordance with paragraphs 1 and 2.
5. Even in the event of checks being relaxed, the officially locally responsible shall stamp the travel documents of third country nationals both on entry and exit, in accordance with Article 9.

Article 8 Separate lanes and information on signs

1. Member States shall provide separate lanes at authorised air border crossing-points in order to carry out the necessary border checks on persons entering their territory, in accordance with Article 6. Such lanes shall be differentiated by means of the signs referred to in paragraph 2.

The establishment of separate lanes shall be optional at Member States' authorised maritime and land border crossing points and at borders between Member States not applying Article 18 at their common borders. The signs referred to in paragraph 2 shall be used if Member States provide separate lanes at these borders.

2. The minimum indications on signs, which may be electronic displays, shall be as follows:
 - a) for lanes to be used solely by persons enjoying the Community right of free movement: the emblem of the European Union with the letters “EU”, “EEA” and “CH” within the circle of stars and the word “CITIZENS” beneath the circle of stars, as shown in Annex VI, part A,
 - b) for lanes intended for the other categories of third country nationals, but which may also be used by those who enjoy the Community right to free movement: the words “ALL PASSPORTS”, as shown in Annex VI, part B.

The indications on the signs mentioned above may be displayed in such language or languages as each Member State considers appropriate.³ At land and seaport border crossing-points, Member States may separate vehicle traffic into different lanes for light and heavy vehicles and buses by using signs as shown in Annex VI, Part C.

Member States may vary the indications on these signs where appropriate in the light of local circumstances.

4. In the event of a temporary imbalance in traffic flows at a particular border crossing point, the rules relating to the use of the different lanes may be waived by the competent authorities for the time necessary to eliminate such imbalance.
5. The adaptation of existing signs to the provisions of paragraphs 1, 2 and 3 shall be completed by 31 May 2009. Where Member States replace existing signs or put up new ones before that date, they must respect the minimum indications provided for in those paragraphs.

Article 9

Stamping of the travel documents of third-country nationals

1. The travel documents of third-country nationals shall be systematically stamped on entry and exit. In particular an entry or exit stamp shall be affixed to:
 - a) the documents, bearing a valid visa, enabling third-country nationals to cross the border;
 - b) the documents enabling third-country nationals to whom a visa is issued at the border by a Member State to cross the border;
 - c) the documents enabling third-country nationals not subject to a visa requirement to cross the border.

2. No entry or exit stamp shall be affixed:
 - a) to the travel documents of third-country nationals enjoying the Community right of free movement. Entry or exit stamp shall not be affixed to the travel document of third country nationals, members of the family of EU citizens, of nationals of the countries of the European Economic Area or of nationals of the Swiss Confederation, provided that they present a residence card issued by a Member State or by one of these third States;
 - b) to the travel documents of seamen who are present within the territory of a Member State only when their ship puts in and in the area of the port of call;
 - c) to pilots' licences or the certificates of aircraft crew members;
 - d) on the travel documents of the beneficiaries of bilateral agreements on local border traffic that do not provide for the stamping of these documents;
 - e) in the case of persons not normally subject to any check (for example Heads of State and dignitaries whose arrival has been officially announced in advance through diplomatic channels);
 - f) to documents enabling nationals of Andorra, Monaco and San Marino to cross the border. Exceptionally, at the request of a third-country national, insertion of an entry or exit stamp may be dispensed with if insertion might cause serious difficulties for that person. In that case, entry or exit must be recorded on a separate sheet indicating the name and passport number..]

4. The practical arrangements for stamping are set out in Annex VII.

Article 10
Surveillance between border crossing-points

1. The competent authorities shall use fixed or mobile units to carry out external border surveillance:
 - a) between authorised crossing-points; and
 - b) at border crossing-points outside normal opening hours.

This surveillance shall be carried out in such a way as to discourage people from circumventing the checks at crossing-points.

2. The main purpose of surveillance of external borders at places other than border crossing-points and surveillance of these crossing-points outside opening hours shall be to prevent unauthorised border crossings, to counter cross-border criminality and to apply or to take measures against persons who have crossed the border illegally.

3. Surveillance between authorised crossing-points shall be carried out by personnel whose numbers and methods shall be adapted to the practical situation. It shall involve frequent and sudden changes to surveillance periods, so that unauthorised border crossings will be an ongoing risk.
4. Surveillance shall be carried out by fixed or mobile units which perform their duties by patrolling or stationing themselves at places known or perceived to be sensitive, the aim of such surveillance being to apprehend individuals crossing the border illegally. Surveillance may also be carried out by technical means, including electronic means.
5. The means and method of surveillance are selected in the light of operational conditions and, in particular, of the type and nature of the border.^{6.} Detailed rules governing surveillance shall be adopted in accordance with the procedure provided for by Article 30(2).

Article 11
Refusal of entry

1. A third-country national who does not fulfil all the entry conditions laid down in Article 5(1) and does not belong to the categories of persons referred to in Article 5(5) and 5(6) shall be refused entry to the territories of the Member States unless a Member State considers it necessary to derogate from that principle on humanitarian grounds, on grounds of national interest or because of international obligations. In such cases authorisation to enter and stay shall be restricted to the territory of the Member State concerned, which shall inform the other Member States accordingly. These rules shall not preclude the application of special provisions concerning the right of asylum and to international protection or the issue of long-stay visas.
2. Entry shall be refused by a substantiated decision taken by the authority empowered to do so by national law, which shall state the procedures for appeal; it shall take effect immediately or, where appropriate, on expiry of the time limit laid down by national law.

The standard form for refusal of entry is given in Annex VIII, Part B. The third-country national concerned must acknowledge receipt of the decision to refuse entry by means of that form.

3. The border guards shall ensure that a third-country national refused entry does not enter the territory of the Member State concerned or, if he has already entered it, leaves immediately.
4. Detailed rules governing refusal of entry are given in Annex VIII, Part A.

Chapter III

Resources for border controls and cooperation between Member States

Article 12 *Resources for border controls*

Member States shall deploy appropriate staff and resources in sufficient numbers to carry out checks at the external borders, in accordance with Articles 6 to 11, in such a way as to ensure a high level of checks at their external borders.

Article 13 *Implementation of controls*

1. The border controls provided for by Articles 6 to 11 of this Regulation shall be carried out by the services of the Member States responsible for border guard duties in accordance with the provisions of this Regulation and with national law.

When carrying out these duties, the powers to instigate criminal proceedings conferred on the border guards by national law and falling outside the scope of this Regulation shall remain unaffected.

Member States shall ensure that the personnel carrying out border guard duties are composed of specialised and properly trained professionals.

2. Measures taken in the performance of border guard duties shall be carried out in proportion to the objectives pursued by such measures.
3. The list of national services responsible for border guard duties under the national law of each Member State is given in Annex IX.
4. To control borders effectively, the Member States shall ensure close, permanent cooperation between all national services responsible for border guard duties.

Article 14 *Cooperation between Member States*

1. The Member States shall assist each other and shall maintain constant, close cooperation with a view to the effective implementation of border control, in accordance with Articles 6 to 13 of this Regulation.
2. Operational cooperation between Member States shall be managed and coordinated in conformity with Regulation No .../2004 establishing a European Agency for the

Management of Operational Cooperation at the External Borders of the Member States of the European Union²².

3. Internal borders may be crossed at any point without a border check on persons, irrespective of their nationality, being carried out.

Article 19
Checks within the territory

The abolition of border checks at the internal borders shall not affect:

- a) the exercise of police powers by the competent authorities under the legislation of each Member State, if the checks at the internal border, in a hinterland area adjacent to the border or in defined border areas are carried out under conditions and for purposes identical to those applying to the territory as a whole, particularly as regards their frequency and intensity;

- b) security checks on persons carried out at ports and airports by the competent authorities under the legislation of each Member State, by port or airport officials or carriers, provided that such checks are also carried out on persons travelling within a Member State;
- c) the possibility for a Member State to provide by legislation for an obligation to hold or carry papers and documents;
- d) the obligation on third-country nationals to report their presence on the territory of any Member State pursuant to Article 22 of the Schengen Convention.

Chapter II

Safeguard clause

Article 20

Reintroduction of checks at internal borders by a Member State

1. A Member State may reintroduce border checks at its internal borders for a limited period of no more than 30 days in the event of a serious threat to public policy, public health or internal security, in accordance with the procedure laid down in Article 21 or, in an emergency, with that laid down in Article 22. The scope and duration of the checks may not exceed what is strictly necessary to respond to the serious threat.
2. If the threat to public policy, internal security or public health persists beyond 30 days, the Member State may maintain border checks on the same grounds as those referred to in paragraph 1 and, taking into account any new elements, for renewable periods of up to 30 days, in accordance with the procedure laid down in Article 23.

Article 21

Procedure in case of foreseeable events

1. If a Member State is planning to reintroduce checks at internal borders under Article 20(1), it shall immediately notify the other Member States and the Commission accordingly, supplying the following information:

 - b) the scope of the proposed decision, specifying the borders at which checks are to be reintroduced;
 - c) the names of the authorised crossing-points;
 - d) the date and duration of the proposed decision;

- e) where appropriate, the measures to be taken by the other Member States.
2. Following the notification from the Member State concerned, and in view of the consultation provided for in paragraph 3, the Commission shall issue an opinion.
3. The information provided for by paragraph 1, as well as the opinion provided for by paragraph 2, shall be the subject of consultations between the requesting State, the other Member States within the Council and the Commission, with a view to organising, where appropriate, mutual cooperation between the Member States and to examining the proportionality of the measures to the event giving rise to the reintroduction of checks and the threats to public policy, internal security or public health.

The consultation mentioned above shall take place at least fifteen days before the date planned for the reintroduction of checks.

4. Checks may only be reintroduced after the consultations referred to in paragraph 3.

Article 22 *Emergency procedure*

1. If considerations of public policy, internal security or public health in a State demand emergency action, the Member State concerned may immediately reintroduce checks at internal borders.
2. The requesting State shall notify the other Member States and the Commission accordingly, without delay, supplying the information referred to in Article 21(1) and giving the reasons that justify the use of the emergency procedure.

2. The requesting Member State shall supply the other Member States and the Commission with all relevant information on the reasons for prolonging the checks at internal borders.

The provisions of Article 21(2) shall apply.

Article 24 *Joint reintroduction of checks at internal borders because of a cross-border terrorist threat*

1. In the event of an exceptionally serious threat to public policy, internal security or public health affecting several Member States, for example in the event of a cross-border terrorist threat, the Council, acting on a proposal by the Commission, may decide by qualified majority to reintroduce checks immediately at all internal borders or at particular borders of all or several Member States. The scope and

duration of these checks may not exceed what is strictly necessary for responding to the exceptional seriousness of the threat.

2. The Council, acting on a proposal by the Commission, shall decide by qualified majority to lift these exceptional measures as soon as the exceptionally serious threat has ceased to exist.
3. The European Parliament shall be informed of the measures taken under paragraphs 1 and 2 without delay.
4. This Article shall not preclude an immediate and concomitant decision taken by a Member State under Article 22.

EXPLANATION:

Border crossing points are based on the Agreement between the Government of the Republic of Finland and the Government of the Russian Federation on mutual border crossing points (Helsinki, 11 March 1994). Those marked with an asterisk are in only limited use in accordance with the Agreement and are kept open for traffic as the need arises. Traffic consists almost exclusively of timber freight. The majority of crossing points are closed most of the time.

1. The documentary evidence referred to in Article 5(2) may include the following:

a) for business trips:

- an invitation from a firm or an authority to attend meetings or events connected with trade, industry or work;
- other documents which show the existence of trade relations or relations for work purposes;
- entry tickets for fairs and congresses.

b) for journeys undertaken for the purposes of study or other types of training:

- a certificate of enrolment at a teaching institute for the purposes of attending vocational or theoretical courses in the framework of basic and further training;
- student cards or certificates for the courses attended.

c) for journeys undertaken for the purposes of tourism or for private reasons:

- an invitation from the host;
- a supporting document from the establishment providing lodging;
- confirmation of the booking of an organised trip;
- a return or round-trip ticket.

d) for the beneficiaries of local border traffic arrangements:

- a certificate attesting residence in the border area, if this is not specified in the travel document;
- any document capable of justifying frequent crossing of the border for local border traffic purposes, such as certificates or attestations substantiating family ties, documents certifying ownership of a property over the border, etc.

e) for journeys undertaken for another reason:

- invitations, enrolments or programmes;
- attendance certificates, entry tickets, receipts, etc.,

for political, scientific, cultural, sports or religious events, stating wherever possible the name of the host organisation and the length of stay.

2. The presumption of sufficient means of subsistence for the purposes of Article 5(1) and (3) will be based, for example, on the cash, travellers' cheques and credit cards in the third-country national's possession. Declarations of sponsorships, where such declarations are provided for by national legislation of the Member States, may also constitute evidence of sufficient means of subsistence.

3. Third country nationals submitted to the visa obligation shall, as a general rule, be in possession of a travel medical insurance, as provided for by Council decision 2004/17/EC.³¹ Where the travel medical insurance is not required, in accordance with Part V, point 1.4, second paragraph, third indent of the Common Consular Instructions, the exemption will be indicated in the national entries section of the visa sticker (“NO INSURANCE REQUIRED”).

³¹ OJ L 5, 9.1.2004, p. 79.

ANNEX III
Reference amounts required for crossing borders fixed annually by the national authorities

BELGIUM

Belgian law lays down general provisions for the verification of adequate means of subsistence, without stipulating any mandatory rules.

The administrative practice is as follows:

Aliens staying with a private person

Proof of means of subsistence may be furnished by means of a letter of guarantee signed by the person accommodating the alien in Belgium and authenticated by the local administrative authority of his place of residence.

The declaration of liability covers the costs of the alien's stay, health care, accommodation and repatriation, should the alien be unable to pay, so as to rule out payment by the public authorities. The declaration must be signed by a person who is *solvent* and, if this person is an alien, is in possession of a residence permit or settlement permit.

If necessary, the alien may also be required to furnish proof of personal resources.

If he has no financial credit whatsoever, he must be able to access at least € 38 for each day of the planned stay.

Aliens staying at a hotel

If the alien is unable to furnish proof of any credit whatsoever, he must be able to access at least approximately € 50 for each day of the planned stay.

Furthermore, in most cases, the person concerned must produce a ticket (air ticket) enabling him to return to his country of origin or residence.

CZECH REPUBLIC

Reference amounts are fixed by Act No. 326/1999 Sb. on Residence of Aliens in the Territory of the Czech Republic and Amendments of Some Acts.

According to Section 5 of the Act on Residence of Aliens in the Territory of the Czech Republic on the request of the Police, an alien shall be obliged to submit a document confirming that funds are available for his/her stay in the Territory (Section 13) or a certified invitation not older than 90 days from the date of its certification by the Police (Sections 15 and 180),

Section 13 provides the following:

"Funds to Cover the Stay in the Territory

- (1) Unless provided otherwise below, the following shall be submitted to prove the availability of funds for the stay in the Territory:
- (a) funds amounting at least to the following:
- 0,5 times the subsistence minimum set out under a special legal regulation as required to cover maintenance and other basic personal needs (hereinafter the "Subsistence Minimum for Personal Needs") per day of stay if the total period of stay is not to exceed 30 days,
 - 15 times the Subsistence Minimum for Personal Needs if the period of stay in the Territory is to exceed 30 days while this sum shall be increased to double the subsistence minimum for each whole month of expected stay in the Territory,
 - 50 times the Subsistence Minimum for Personal Needs in case of stay for the purposes of business activity the total period of which is to exceed 90 days, or
 - a document confirming the payment of services connected with the stay of the alien in the Territory or a document confirming that services will be provided free of charge.
- (2) Instead of funds as referred to in sub-section 1, the following may be used to prove the availability of funds for the stay in the Territory:
- (a) a bank account statement in the name of the alien confirming that the alien is free to use funds in the amount as referred to in sub-section 1 during his stay in the Czech Republic, or
- (b) another document to certify that funds are available, such as a valid internationally recognised credit card.
- (3) An alien who will study in the Territory may submit, as proof of availability of funds for his stay, a commitment by a state authority or a legal entity to cover the stay of the alien by providing funds equivalent to the Subsistence Minimum for Personal Needs for 1 month of expected stay, or a document confirming that all costs related to his studies and stay shall be covered by the receiving organisation (school). If the sum referred to in the undertaking does not reach this amount, the alien shall be obliged to submit a document proving the ownership of funds equivalent to the difference between the Subsistence Minimum for Personal Needs and the amount of the commitment for the period of his expected stay, however, not more than 6 times the Subsistence Minimum for Personal Needs. Document on the provision of means for one's residence may be replaced by a decision or an agreement on the allocation of a grant acquired pursuant to an international treaty by which the Czech Republic is bound.
- (4) An alien who has not attained 18 years shall be obliged to prove the availability of funds for his stay pursuant to sub-section 1 equivalent to a half of the amount”.

and Section 15 provides the following:

“Invitation

In an invitation, the person inviting an alien shall undertake to cover the costs

- (a) related to the maintenance of the alien throughout his stay in the Territory until he leaves the Territory,
- (b) related to the accommodation of the alien throughout his stay in the Territory until he leaves the Territory,
- (c) related to the provision of healthcare to the alien throughout his stay in the Territory until he leaves the Territory, and the transfer of the alien when ill or of the remains of the deceased,
- (d) arising to the Police in connection with the alien staying in the Territory and leaving the Territory in case of administrative expulsion.”

DENMARK

Under the Danish Aliens Law, an alien entering Danish territory must have adequate means for subsistence and for the return journey.

In practice it is for the border control authorities at the point of entry to assess whether this is the case on the basis of the economic situation of the alien, taking account of information on his possibilities with regard to accommodation and the return journey.

The administration has set a figure for adequate means of subsistence of, in principle, DKK 300 per 24 hours.

In addition, the alien must be able to prove that he has adequate means for the return journey, for example in the form of a return ticket.

GERMANY

Pursuant to Article 60(2) of the Aliens Act of 9 July 1990 (AuslG), an alien may be refused entry at the border if there are grounds for expulsion.

This is the case if an alien is forced to claim or claims social welfare benefit from the German State for himself, for members of his family staying in German territory or for his dependants (Article 46(6) of the Aliens Act).

Reference amounts have not been fixed for the use of border control officials. In practice, an amount of € 25 per day is generally used as a basic reference. The alien must also have a return ticket or equivalent financial means.

Nevertheless, before the decision not to admit the alien is made, he must be granted the opportunity to produce, in good time and by legal means, the financial means necessary to secure his stay in German territory, namely by presenting:

- a legal guarantee from a German bank,

- a letter of guarantee from the host,
- a telegraphic money order, or
- a guarantee deposited with the immigration authorities dealing with his visit.

ESTONIA

Under Estonian law, aliens arriving into Estonia without a letter of invitation, shall upon request by a border guard official upon entry into the country provide proof of sufficient monetary means to cover the costs of his/her stay in and departure from Estonia. Sufficient monetary means for each allowed day is considered to be 0,2 times the monthly minimum salary implemented by the Government of the Republic.

Otherwise the inviter shall assume responsibility for the costs of the alien's stay in and departure from Estonia.

GREECE

Ministerial decree No 3011/2/1f of 11 January 1992 fixes the amount of the means of subsistence which foreign nationals – with the exception of nationals of the Member States of the European Community – must have at their disposal if they wish to enter Greek territory.

Pursuant to the abovementioned ministerial decree, the amount of foreign currency enabling foreign nationals of states other than Member States of the European Community to enter Greece is fixed at the equivalent of € 20 in foreign currency per person per day, and a minimum total amount of € 100.

The amount of foreign currency required per day is reduced by 50% for minors who are members of the alien's family.

Nationals of non-Community countries which oblige Greek nationals to change currency at their borders are subject to the same obligation in accordance with the principle of reciprocity.

SPAIN

Aliens must prove that they have adequate means of subsistence. The minimum amount is given below:

- (a) for the costs of their stay in Spain:€ 30, or the equivalent in foreign currency, multiplied by the planned number of days of the stay in Spain and by the number of family members travelling with the person concerned. Regardless of the planned duration of the stay, the minimum amount for which he must provide proof must always be € 300 per person.
- (b) for their return to the State of provenance or for transit via third States: the personal, non-transferable and fixed-date ticket or tickets for the planned means of transport.

Aliens must prove that they have the above means of subsistence either by producing them if they are in cash, or by producing certified cheques, traveller's cheques, receipts, letters of credit or a bank certificate confirming the existence of these means. Failing these documents,

any other supporting documents recognised by the Spanish border police authorities may be produced.

FRANCE

The reference amount for the adequate means of subsistence for the planned duration of an alien's stay or for his transit via France to a destination in a third State is equal to the amount of the guaranteed minimum wage in France (SMIC) calculated daily on the basis of the rate fixed on 1 January of the current year.

This amount is regularly reassessed on the basis of the French cost of living index:

- automatically whenever the retail price index rises more than 2%,
- by a governmental decision – after consultation with the national commission for collective bargaining – to grant a rise higher than the rise in the retail price index.

As of 1 July 2002, the daily amount of the SMIC (minimum wage) is € 47,80.

Holders of an accommodation certificate must possess a minimum amount of money, equivalent to half the SMIC, in order to stay in France. This amount is therefore € 23,90 per day.

ITALY

Article 4(3) of the "Consolidated text of provisions governing immigration and the status of aliens" No 286 of 28 July 1998 states that Italy, in accordance with the obligations assumed through membership of specific international agreements, shall allow entry into its territory to aliens who prove themselves to be in possession of suitable documentation to confirm the purpose and conditions of their residence and sufficient means of support for the duration of their residence as well as, except in the case of residence permits for work purposes, for their return to the country they came from. Means of support are defined in the relevant directive issued by the Minister for the Interior. Aliens not satisfying these requirements or who are considered a threat to the national security or public policy of the State or of one of the countries with which Italy has signed agreements for the abolition of internal border controls and the free movement of persons may not enter Italy, subject to the limits and derogations laid down in those agreements.

The directive in question, which was issued on 1 March 2000 and has the title "Definition of means of support for entry and residence of aliens in the national territory", lays down that:

- a) the availability of means of support may be demonstrated by producing currency or equivalent bills of exchange or bank guarantees or insurance policies guaranteeing payment, by means of documents attesting to prepaid services or documents proving the availability of funds from income in the national territory;
- b) the monetary amounts established in the directive are to be revised annually, after application of the parameters relating to average annual variation produced by ISTAT and calculated on the basis of the general consumer price index for foodstuffs, drinks, transport and accommodation services;

- c) the alien must indicate the availability of suitable accommodation in Italian territory and possession of the sum needed for repatriation, which may also be demonstrated by showing a return ticket;
- d) the minimum means of support needed per person for the issue of a visa and for entry to Italian territory for the purposes of tourism are defined in accordance with Table A below.

CYPRUS

According to the Aliens and Immigration Regulations (Regulation (9(2)(B))) the entry of aliens for temporary stay in the Republic depends on the discretionary power of the immigration officers at the borders, which is exercised according to the general or specific instructions of the Minister of Interior or to the provisions of the above mentioned Regulations. The immigration officers at the borders decide on the entry on a case by case basis, taking into consideration the purpose and length of stay, possible hotel reservations or hospitality by persons normally residing in Cyprus.

LATVIA

Article 81 of the Cabinet of Ministers Regulation No 131 of 6 April 1999 as amended by the Cabinet of Ministers Regulation No 124 of 19 March 2002, stipulates that upon the request of an official of the State Border Guard, an alien or a stateless person shall present the documents referred to in sub-paragraphs 67.2.2 and 67.2.8 of these Regulations:

67.2.2. a health resort or travel voucher confirmed in accordance with the regulatory enactments of the Republic of Latvia, or a tourist carnet prepared pursuant to a specified pattern and issued by the Alliance of International Tourism (AIT);

67.2.8. for the receipt of a single entry visa:

67.2.8.1. traveller's cheques in the convertible currency or cash in LVL or in convertible currency corresponding to LVL 60 for each day; if the person presents the documents proving the payment already made for a certified place of accommodation for the whole duration of his/her stay – traveller's cheques in the convertible currency or cash in LVL or in convertible currency corresponding to LVL 25 for each day;

67.2.8.2. a document which certifies the reservation of a certified place of accommodation;

67.2.8.3. a round trip ticket with fixed dates.

LITHUANIA

Pursuant to Article 7(1) of the Lithuanian Law on the Legal Status of Aliens, an alien shall be refused admission to the Republic of Lithuania where he is unable to prove that he has sufficient funds for the stay in the Republic of Lithuania, a return trip to his country or for proceeding to another country which he has the right to enter.

However, there are no reference amounts for the above. Decisions are made on case-by-case basis depending on the purpose, type and duration of the stay.

LUXEMBOURG

The law of Luxembourg does not provide for any reference amount for border controls. The official carrying out the control decides on a case-by-case basis whether an alien who presents himself at the border has adequate means of subsistence. To this end, the official takes into account the purpose of the stay and the type of accommodation.

HUNGARY

A reference amount is specified in the aliens policing legislation: under Decree No 25/2001 (XI. 21.) of the Minister of Interior, currently at least HUF 1000 is required upon each entry.

Under Article 5 of the Aliens Act (Act XXXIX of 2001 on the Entry and Stay of Foreigners), the means of subsistence required for entry and stay may be certified by the presentation of

- Hungarian currency or foreign currency or non-cash means of payment (e.g. cheque, credit card, etc.),
- a valid letter of invitation issued by a Hungarian national, a foreigner holding a residence permit or settlement permit or a legal entity if the person inviting the foreigner declares to cover the costs of the accommodation, lodging, health care and return (repatriation). The official consent of the aliens policing authority shall be attached to the letter of invitation,
- confirmation of board and lodging reserved and paid in advance by means of a travel agency (voucher),
- any other credible proof.

MALTA

It is the practice to ensure that persons entering Malta would have a minimum amount of MTL 20 (EUR 48) per day for the duration of their visit.

NETHERLANDS

The amount which border control officials take as a basis when verifying means of subsistence is currently € 34 per person per day.

The application of this criterion is flexible since the required amount of the means of subsistence is determined on the basis of the planned duration of the stay, the reason for the visit and the personal circumstances of the person concerned.

AUSTRIA

Pursuant to Article 52(2) Z 4 of the Law on Aliens, aliens shall be refused at the border if they have no place of residence in Austria and do not have sufficient means of subsistence to meet the costs of their stay and return.

However, there are no reference amounts for the above. Decisions are made on a case-by-case basis depending on the purpose, type and duration of the stay. Cash and – depending on the circumstances of the individual case – traveller's cheques, credit cards, bank guarantees or letters of guarantee from solvent persons living in Austria may be accepted as proof.

POLAND

Amounts required for crossing borders are determined in the Ordinance of the Minister of Internal Affairs and Administration of 20 June 2002 on the amount of means to cover expenses concerning to entry, transit, stay and departure of aliens crossing the border of the Republic of Poland and detailed rules of documentation evidencing possession of these means – Dz.U. 2002, Nr 91, poz. 815).

Amounts indicated in above regulation are as follows:

- PLN 100 per day of stay for persons over 16 years old, but not less than 500 PLN,
- PLN 50 per day of stay for persons under 16 years old, but not less than 300 PLN,
- PLN 20 per day of stay, but not less than 100 PLN, for persons participating in tourist trips, youth camps, sport competitions or having costs of stay in Poland covered or arriving to Poland for health treatment in a sanatorium,
- PLN 300 for persons over 16 years old, whose stay in Poland does not exceed 3 days (including transit),
- PLN 150 for persons under 16 years old, whose stay in Poland does not exceed 3 days (including transit).

PORTUGAL

Aliens must be in possession of the following amounts if they wish to enter or stay in Portugal:

€ 75 – for each entry

€ 40 – for each day spent in the territory

Aliens who are able to prove that their board and lodging are guaranteed for the duration of their stay may be exempted from paying the above amounts.

SLOVENIA

EUR 70 per person for each day of the planned stay.

SLOVAKIA

Pursuant to Article 4(2)(c) of Act No 48/2002 Z. z. on the Stay of Aliens, an alien is obliged, upon request, to prove he or she has a financial amount for the stay, in convertible currency, amounting to at least half the minimum wage determined by provided for in Act No 90/1996 Z. z. on minimum wage as amended, for each day of the stay; an alien younger

than 16 years old is obliged to prove he or she has the financial means for the stay amounting to half of this.

FINLAND

The amount which border control officials take as a basis for means of subsistence is at present € 40 per person per day.

SWEDEN

Swedish law does not stipulate a reference amount for the crossing of borders. The border control officer decides on a case-by-case basis whether the alien has adequate means of subsistence.

ICELAND

Under Icelandic law, aliens must prove that they are in possession of enough money to meet their needs in Iceland and to make the return journey. In practice, the reference amount is ISK 4 000 per person. If subsistence expenses are borne by a third party, the amount is halved. The total minimum amount is ISK 20 000 for each entry.

NORWAY

Under Article 27(d) of the Norwegian Immigration Law, any foreign national who is unable to prove that he has adequate funds for his stay in the Kingdom and for the return journey, or that he can count on such funds, may be turned back at the border.

The amounts deemed necessary are fixed individually and decisions are taken on a case-by-case basis. Account is taken of the length of stay, whether the foreign national will be staying with family or friends, whether he has a ticket for the return journey and whether a guarantee has been given for the stay (as an indication, an amount of NOK 500 per day is deemed to be adequate for visitors who are not staying with relations or friends).

ANNEX IV
Checks at border crossing-points

1. The thorough check on third-country nationals provided for by Article 6(3) shall include in particular:

a) a detailed examination of the following aspects:

- verification that the document presented is not expired, that it is a document valid for crossing the border and that it is accompanied, where applicable, by the requisite visa;

- scrutiny of the document for signs of falsification or counterfeiting;

b) verification regarding the origin and destination of the individual and the purpose of the journey and, if necessary, checking the corresponding supporting documents;

c) verification that the individual has sufficient means of subsistence for the length of stay envisaged, for his return or transit to a third country, or that he can obtain these means legally, and that he has travel medical insurance, where applicable;

d) verification that the person, his vehicle and the objects he is transporting are not likely to jeopardise the public policy, internal security, public health or international relations of any of the Member States. Such verification shall include direct consultation of the data and alerts on persons and, where necessary, objects contained in the Schengen Information System (SIS) and in national data files and the action to be performed, if any, as a result of an alert. If consultation of the SIS reveals that an alert has been made as defined in Articles 95 and 100 of the Schengen Convention, the action requested which appears on the screen must first be performed.

2. At all border (land, sea and airport) posts, all service information and any other particularly important information shall be entered in a manual or electronic register. The message should include the following information in particular:

- the names of the border guard responsible locally for border checks and of the other officers in each team;
- relaxation of checks on persons applied in accordance with Article 7;
- the issuing of documents in place of passports and of visas issued at the border;
- persons apprehended and complaints (criminal offences and administrative breaches);
- persons refused entry or exit (number and nationalities);
- the security codes of entry and exit stamps, the identity of border guards using the stamps, as well as the information related to lost and stolen stamps;
- other particularly important police or judicial measures;
- particular occurrences.

ANNEX V
Relaxation of checks at land borders

1. The exceptional and unforeseen circumstances referred to in Article 7(1) are met where unforeseen events lead to such intensity of traffic that the delay in the time taken to reach checking posts becomes excessive, and all resources have been exhausted as regards staff, facilities and organisation.

2. Where checks are relaxed in accordance with Article 7(1) and (2), checks on entry movements shall in principle take priority over checks on exit movements. Such relaxation of checks may only be temporary, must be adapted to the circumstances justifying it and must be introduced gradually.

ANNEX VII
Affixing stamps

1. In case of entry of persons submitted to the visa obligation, the stamp must, if possible, be affixed so that it covers the edge of the visa without affecting the legibility of the indications on the visa or the security features of the visa sticker. If several stamps have to be affixed (for example in the case of a multiple-entry visa), this is done on the page facing the one on which the visa is affixed.

If that page cannot be used, the stamp is entered on the following page.

2. Different shaped stamps (rectangular for entry, rectangular with rounded corners for exit) are used to certify entry and exit. These stamps contain the letter(s) identifying the State, the name of the border post, the date, the serial number and a pictogram indicating the type of border crossed (land, sea or air).

Stamps also contain a two-digit security code, to be changed at regular intervals not exceeding one month.

3. Member States must ensure that the national contact points responsible for exchanging information on the security codes of the entry and exit stamps used at border crossing-points have immediate access to information regarding common entry and exit stamps used at the external border of the Member State concerned, and in particular to information on the following:

- the border crossing-point to which a given stamp is assigned;
- the identity of the border control official to whom a given stamp is assigned at any given time;
- the security code of a given stamp at any given time.

Any inquiries regarding common entry and exit stamps are to be made through the abovementioned national contact points.

The national contact points will also forward immediately to the other contact points, the General Secretariat of the Council, and the Commission information regarding a change in the contact points as well as lost and stolen stamps.

ANNEX VIII

Part A Procedures for refusing entry

1. When refusing entry, the competent border guard:

- fills in the standard form for refusing entry, as shown in Part B, and gives a copy to the third-country national affected by the decision;
- affixes an entry stamp on the passport, cancelled by a cross in indelible black ink, and writes opposite it on the right-hand side, also in indelible ink, the letter(s) corresponding to the reason(s) for refusing entry, the list of which is given on the abovementioned standard form for refusing entry;
- in case of third country nationals submitted to the visa obligation, if he notes that the holder of a short-stay visa has been the subject of an alert in the SIS for the purposes of being refused entry, he shall cancel the visa by applying a stamp stating “CANCELLED”. He must inform his central authorities of this decision forthwith. The procedure for doing this is described at point 2.1 of Annex 14 to the Common Consular Instructions;
- record every refusal of entry in a register or on a list stating identity, nationality, the references of the document authorising the third-country national to cross the border and the reason for, and date of, refusal of entry;
- if there are grounds both for refusing entry to a third-country national and arresting him, he must contact the judicial authorities responsible to decide on the action to be taken in accordance with national law.

2. If a third country national, refused entry, has been brought to the border by a carrier by air, sea or land, the authority responsible locally must:

- order the carrier to take charge of the alien and transport him or her without delay to the third State from which he was brought, to the third State which issued the document authorising him to cross the border, or to any other third State where he is guaranteed admittance. If the carrier cannot comply with the onward transportation order immediately, immediate transportation to a third State by another carrier must be ensured. The carrier must be made to bear the costs of lodging, maintenance and the return journey, in accordance with Council Directive 2001/51/EC of 28 June 2001,³⁴

- pending onward transportation, take appropriate measures, in compliance with national law and having regard to local circumstances, to prevent third-country nationals refused entry from entering illegally.

ANNEX X

Special detailed rules for different types of border and the different means of transport used for crossing the Member States' external borders

1. Land borders

1.1. Checks on road traffic

1.1.1. To ensure effective checks on persons, while ensuring the safety and smooth flow of road traffic, movements at border crossing-points must be regulated in an appropriate manner. In case of need, measures to channel and block traffic will be taken in compliance with the agreements on co-located national control offices.

1.1.2. At land borders, Member States may, where they deem appropriate and if circumstances allow, install channels or operate separate control lanes at certain border crossing-points, in accordance with Article 8.

Separate channels or lanes may be dispensed with at any time by the Member States' competent authorities, in exceptional circumstances and where traffic and infrastructure conditions so require.

Member States may cooperate with neighbouring countries with a view to the installation of separate channels and lanes at external border crossing-points.

1.1.3. Where a Member State decides to install channels or operate separate lanes, the rules set out in Article 8(2) and (3) on the minimum indications to be used on signs shall apply.

Specific lanes may be designed and installed for persons eligible for a local border traffic regime.

1.1.4. As a general rule, persons travelling in vehicles may remain inside them during checks. However, if circumstances so require, persons may be requested to alight from their vehicles. Checks must be made outside the checkpoint kiosk, beside the vehicle. Thorough checks must take place, if local circumstances allow, beside the highway in areas designated for that purpose. In the interests of staff safety, checks shall be carried out, where possible, by two border guards.

In the event of heavy traffic, bus passengers on regular local lines must be checked first where the local situation allows.

1.2. Checks on rail traffic

1.2.1. The authorities responsible for border control shall ensure that checks are carried out both on train passengers and on railway staff. Checks on rail traffic may be carried out in the following two ways:

- on the platform, in the first station of arrival or departure on the territory of a Member State,
- on board the train, during transit.

When carrying out these checks, the provisions of agreements on co-located national control offices shall be taken into account.

1.2.2. To facilitate rail traffic flows of high speed passenger trains, the States directly affected by the transit of trains may decide, by common agreement, to carry out checks on passengers from third countries either in the stations of destination, and/or on board the train during transit between these stations, provided that the passengers stay on board the train in the previous station/stations.

With respect to trains from third States making several stops in the territory of the Member States, if the rail transport carrier is in a position to board passengers exclusively for the remaining part of the journey within the territory of the Member States, such passengers shall be subject to entry checks either on the train or at the station of destination.

When travelling in the opposite direction, the passengers shall be subject to exit checks under similar arrangements.

1.2.3. Passengers who wish to take the train in the circumstances described under point 1.2.2 on the territory of the Member States shall receive clear notification prior to the train's departure that they might be subject to personal checks during the journey or at the station of destination.

1.2.4. The border guard locally responsible may order the cavities of cars to be inspected sporadically or for specific reasons, if necessary with the assistance of the train inspector, to ensure that persons or objects subject to border police checks are not concealed in them.

1.2.5. Where there are reasons to believe that persons who have been reported or suspected of having committed an offence, or third-country nationals intending to enter illegally, are hiding on a train, the border guard responsible, if he cannot act in accordance with his national provisions, shall notify the Member States towards or within whose territory the train is moving.

2. Air borders

2.1. Procedures for checks at international airports

2.1.1. The competent authorities of Member States shall ensure that the airport operator takes the requisite measures to physically separate the flows of passengers from or to internal flights and the passenger flows from or to other flights. Appropriate infrastructures must be set in place at all international airports to that end.

2.1.2. The place where persons and hand baggage are checked will be determined in accordance with the following procedure:

- a) Passengers on a flight from a third State who board an internal flight shall be subject to an entry check at the airport of arrival of the flight from a third State. Passengers on an internal flight who board a flight for a third State (transfer passengers) shall be subject to an exit check at the airport of departure of the latter flight.

- b) For flights from or to third States with no transfer passengers and flights making more than one stop-over at the airports of the Member States where there is no change of plane:
- i) passengers on flights from or to third States where there is no prior or subsequent transfer within the territory of the Member States shall be subject to an entry check at the airport of entry and an exit check at the airport of exit;
 - ii) passengers on flights from or to third States with more than one stop-over on the territory of the Member States where there is no change of plane (transit passengers), and provided that passengers cannot board the aircraft for the leg situated within the territory of Member States, shall be subject to an entry check at the airport of arrival and an exit check at the airport of departure;
 - (iii) where an airline may, for flights from third States with more than one stop-over within the territory of the Member States, board passengers only for the remaining leg within this territory, passengers shall be subject to an exit check at the airport of departure and an entry check at the airport of arrival.

Checks on passengers who, during these stop-overs, are already on board the aircraft and have not boarded in the territory of the Member States shall be carried out in accordance with point (b)(ii). The reverse procedure shall apply to this category of flights where the country of destination is a third State.

2.1.3. Checks on persons shall normally not be carried out on the aircraft or at the gate, unless circumstances so require. In order to ensure that, at the airports designated as authorised border crossing-points, passengers may be checked in accordance with the rules set out in Articles 6 to 11, Member States must, in agreement with the airport authorities and the transport undertaking, take the appropriate measures to ensure that passenger traffic is channelled to facilities reserved for checks.

Member States shall ensure that the airport operator takes the necessary measures to prevent unauthorised persons entering and leaving the reserved areas, for example the transit area. Checks in the transit area shall normally not be carried out, unless circumstances so require; checks may be carried out, in particular, on persons submitted to an airport transit visa in order to check that they are really in possession of such a visa.

2.1.4. Where, in cases of force majeure or imminent danger or on the instructions of the authorities, an aircraft on an international flight has to land on a landing ground which is not an authorised border crossing-point, that aircraft may continue its flight only after authorisation from the authorities responsible for border checks and surveillance and from customs. The same shall apply where a foreign aircraft lands without permission. In any event, Articles 6 to 11 shall apply to checks on passengers on such aircraft.

2.2. Procedures for checks in aerodromes

2.2.1. It must be ensured that passengers are also checked, in accordance with the rules set out in Articles 6 to 11, in airports which do not hold the status of international airport under the

relevant national law (“aerodromes”) but through which the routing of international flights is authorised.

2.2.2. It shall not be necessary to make appropriate arrangements in aerodromes to ensure that inflows of passengers from internal and international flights are physically separated, without prejudice to Regulation (EC) No 2320/2002 establishing common rules in the field of civil aviation security.³⁶ When the volume of traffic is low, the border guards need not be present at all times, provided that there is a guarantee that the necessary personnel can be deployed in good time.

2.2.3. When the presence of the border guards is not assured at all times in the aerodrome, the director of this aerodrome is required to give adequate notice to the authorities responsible for carrying out border checks about the arrival and the departure of internationally-routed airplanes. Calling in auxiliary police officers is authorised, provided that this is permissible under national law.

2.3. Checks on passengers in private flights

2.3.1. In the case of private flights the captain must transmit to the border authorities of the Member State of destination and, where appropriate, of the Member State of first entry, prior to take-off, a general declaration comprising inter alia a flight plan in accordance with Annex 2 to the Convention on International Civil Aviation and information concerning passengers' identity.

2.3.2. Where private flights coming from a third State and bound for a Member State make stop-overs in the territory of other Member States, the competent authorities of the Member State of entry must carry out checks on persons and apply an entry stamp to the general declaration referred to in point 2.3.1.

2.3.3. Where uncertainty exists whether a flight is exclusively coming from, or solely bound for, the territories of the Member States without landing on the territory of a third State, the competent authorities must carry out checks on persons in airports and aerodromes in accordance with points 2.1 to 2.2.

2.3.4. The arrangements for the entry and exit of gliders, micro-light aircraft, helicopters, small-scale aircraft capable of flying short distances only and airships shall be laid down by national law and, where applicable, by bilateral agreements.

3. Sea borders

3.1. General checking procedures on maritime traffic

3.1.1 Checks on ships shall be carried out at the port of arrival or departure, on board ship or in an area set aside for the purpose, located in the immediate vicinity of the vessel. However, in accordance with the agreements reached on the matter, checks may also be carried out during crossings or, upon the ship's arrival or departure, in the territory of a third State.

The purpose of checks is to ensure that both crew and passengers fulfil the conditions laid down in Article 5, without prejudice to Article 17(1)(b).

³⁶ OJ L 355, 30.12.2002, p. 1.

3.1.2. In the event of exceptional and unforeseen circumstances, checks on shipping traffic may be relaxed in accordance with Article 7.

3.1.3. The ship's captain shall draw up a list, in duplicate, of the crew and of any passengers in accordance with the rules laid down in Directive 98/41/EC³⁷ and Directive 2002/6/EC³⁸. Upon arriving in the port he shall give the list(s) to the officers responsible for checks, which shall be carried out on board ship or nearby. If, for reasons of force majeure, the list or lists cannot be sent to the officers carrying out checks, a copy must be sent to the appropriate border post or shipping authority, which shall see that it is forwarded without delay to the authorities empowered to carry out border checks.

As regards regular ferry connections, the ship's captain or the passenger registrar shall not be required to draw up a passenger list.

3.1.4. One copy of the two lists duly signed by the checking officer shall be returned to the ship's captain, who must be able to produce it on request when in port.

3.1.5. The ship's captain, or failing that the individual or corporation who represents the shipowner in all matters relating to the shipowner's duties in fitting out the vessel ("shipowner's agent"), must report promptly any changes to the composition of the crew or the number of passengers in accordance with the rules laid down in Directive 98/41/EC and Directive 2002/6/EC.

In addition, the captain is required to notify the competent authorities promptly, and if possible even before the ship enters port, of the presence on board of stowaways. Stowaways shall, however, remain under the responsibility of the ship's captain.

3.1.6. The ship's captain must notify the border authorities of the ship's departure in due time and in accordance with the rules in force in the port concerned; if he is unable to notify these authorities, he must advise the appropriate shipping authority. The second copy of the previously completed and signed list(s) shall be returned to these authorities.

3.2. Specific checking procedures for certain types of shipping

Cruise ships

3.2.1. If a cruise ship calls in succession at several ports situated in the territory of the Member States without calling at any port situated outside this territory, no checks shall normally be carried out. Nevertheless, on the basis of an assessment of the risks related to security and illegal immigration, checks may be carried out on passengers of these ships.

3.2.2. If a cruise ship calls in succession at ports situated in the territory of the Member States as well as at ports situated outside this territory, checks shall be as follows:

- an administrative check of the crew- and passenger list of the ship shall be carried out at the first port of entry in the territory of the Member State, in order to ascertain that the crew and the passengers fulfil the conditions provided for by Article 5(1), a), b), d) and e) of this Regulation;

³⁷ OJ L 188, 2.7.1998, p. 35.

³⁸ OJ L 67, 9.3.2002, p. 31.

- a face-to-face check of those passengers disembarking or embarking the ship shall be carried out at each port situated in the territory of Member States in accordance with the provisions of Articles 6, 9 and 11 of this Regulation.

Pleasure boating

3.2.4. Member States shall require pleasure boats coming from a port of anchorage other than their own to dock in an authorised port of entry in order to carry out checks, on entry and exit, on the persons on board.

3.2.5. Persons engaged in pleasure boating who leave and return within the same day or within a short period to their boat's usual port of anchorage located within the territory of a Member State, and who are known to the port authorities, shall not be systematically checked. According to the assessment of the risks of illegal immigration, and in particular where the coastline of a third State is located in the immediate vicinity of the territory of the Member State concerned, personalised spot checks and/or a physical search of the vessel must be carried out.

3.2.6. Where a pleasure boat wishes, exceptionally, to enter a port which is not an authorised border crossing-point, the authorities responsible for checks must be notified if possible before the vessel enters the port, and in any event upon its arrival. The authorities should agree on the request. The declaration regarding passengers shall be made by lodging the list of persons on board with the port authorities. This list shall be made available to the authorities responsible for carrying out checks.

Likewise, if for reasons of force majeure the vessel has to dock in a port other than an authorised border crossing-point, the port authorities must contact the authorities in the nearest authorised port of entry in order to report the vessel's presence.

3.2.7. During these checks, a document containing all the technical characteristics of the vessel and the names of the persons on board shall be handed in. A copy of this document shall be given to the authorities in the authorised ports of entry and departure. As long as the vessel remains in the territorial waters of one of the Member States, a copy of this list must be included amongst the ship's papers.

Coastal fishing

3.2.8. The crews of coastal fisheries vessels who return every day or nearly every day to the port of registration or to any other port situated in the territory of the Member States without docking in a port situated in the territory of another State shall not be systematically checked. Nevertheless, the assessment of the risks of illegal immigration, in particular where the coastline of a third State is located in the immediate vicinity of the territory of the Member State concerned, must be taken into account in order to determine the frequency of the spot checks to be carried out. According to those risks, checks on persons and/or a physical search of the vessel must be carried out.

3.2.9. The crews of coastal fisheries vessels not registered in a port situated in the territory of a Member State shall be checked in accordance with the provisions relating to seamen.

The ship's captain is required to notify the appropriate authorities of any alteration to the crew list and of the presence of any passengers.

Ferry connections

3.2.10. Controls shall be carried out on passengers on board of regular ferry connections other than those referred to in Article 2, point 4). The following rules shall apply:

- a) a distinction should be drawn between the checks carried out on third-country nationals and the checks on persons enjoying the Community right to free movement. Where possible, the necessary construction work should be undertaken to ensure this, in accordance with Article 8;
- b) checks on foot passengers shall be carried out individually;
- c) checks on vehicle occupants shall be carried out while they are at the vehicle;
- d) ferry passengers travelling by coach shall be considered as foot passengers. These passengers shall alight from the coach for the checks;
- e) checks on heavy goods vehicle drivers and any accompanying persons shall be conducted while the occupants are at the vehicle. This check shall in principle be organised separately from checks on the other passengers;
- f) to ensure that checks are carried out quickly, there shall be an adequate number of gates. If necessary, a second gate shall be established;
- g) so as to detect illegal immigrants in particular, random checks shall, at the very least, be made on the vehicles used by the passengers, and where applicable on the loads and other goods stowed in the vehicle;
- h) ferry crew members shall be dealt with in the same way as commercial ship crew members.

4. Inland waterway navigation

4.1. "Inland waterways shipping involving the crossing of an external border" covers the use, for business or pleasure purposes, of all types of boat and floating vessels on rivers, canals and lakes.

4.2. As regards boats used for business purposes, the captain and the persons employed on board who appear on the crew list and members of the families of these persons who live on board shall be regarded as crew members or equivalent.

4.3. The relevant provisions of points 3.1 to 3.2 shall apply *mutatis mutandis* to checks on inland waterways shipping.

ANNEX XI

Special arrangements for certain categories of persons

1. Pilots of aircraft and other crew members

1.1. The holders of a pilot's licence or a crew member certificate as provided for in Annex 9 to the Civil Aviation Convention of 7 December 1944 may, in the course of their duties and on the basis of those documents:

- embark and disembark in the stop-over airport or the airport of arrival situated in the territory of a Member State;
- enter the territory of the municipality of the stop-over airport or the airport of arrival situated in the territory of a Member State;
- go, by any means of transport, to an airport situated in the territory of a Member State in order to embark on an aircraft departing from that same airport.

In all other cases, the requirements provided for by Article 5(1) shall be fulfilled.

1.2. Articles 6 to 11 shall apply to checks on aircraft crew members. Wherever possible, priority must be given to checks on aircraft crews. Specifically, they shall be checked either before passengers or at special locations set aside for the purpose. Crews known to staff responsible for checks in the performance of their duties may be subject to random checks only.

2. Seamen

2.1. Seamen holding a seafarer's identity document issued in accordance with the Geneva Convention of 19 June 2003 (No 185), the London Convention of 9 April 1965 and the relevant national provisions may go ashore to stay in the area of the port where their ships call or in the adjacent municipalities without presenting themselves at a border crossing-point, on condition that they appear on the crew list, which has previously been submitted for checking by the competent authorities, of the ship they belong to.

According to the assessment of the risks, with special reference to illegal immigration and security, seamen must also be visually checked by the competent authorities before they go ashore.

If a sailor constitutes a threat to public policy, internal security or public health, he may be refused permission to go ashore.

2.2. Seamen who intend to stay outside the municipalities situated in the vicinity of ports must comply with the conditions for entry to the territory of the Member States, as laid down in Article 5(1).

2.3. By way of derogation from point 2.2, holders of a seafarer's identity document may be authorised to enter the territory of the Member States, even if they do not fulfil the conditions for entry laid down in Article 5(1)(b) and (c), in the circumstances set out below:

- a) boarding a ship which has already anchored or is about to arrive in a port of the Member States;

- b) transit to a third State or return to the State of origin;
- c) emergency cases or cases of necessity (illness, dismissal, end of contract, etc.).

In such cases, holders of a seafarer's identity document who are required to hold a visa on account of their nationality and are not in possession of one when entering the territory of a Member State may be issued with a visa at the border in accordance with the provisions of Regulation (EC) No 415/2003.

3. Holders of diplomatic, official or service passports and members of international organisations

3.1. In view of the special privileges or immunities they enjoy, the holders of diplomatic, official or service passports issued by States or Governments recognised by the Member States, as well as the holders of documents issued by the international organisations listed in point 3.4, who are travelling in the course of their duties may be granted favourable treatment by being given priority over other travellers at border checks even though they remain, where necessary, subject to the requirement for a visa.

As a general rule, persons holding these documents shall not be required to prove that they have sufficient means of subsistence.

3.2. If a person presenting himself at the external border invokes privileges, immunities and exemptions, the officer responsible for carrying out checks may require him to provide evidence of his status by producing the appropriate documents, in particular certificates issued by the accrediting State or a diplomatic passport or other means. If he has doubts, the officer may, in case of urgent need, apply direct to the Ministry of Foreign Affairs.

3.3. Accredited members of diplomatic missions and of consular representations and their families may enter the territory of the Member States on presentation of the card referred to in Article 17(2) and of the document authorising them to cross the border. Moreover, border guards may not in any circumstances refuse the holders of diplomatic, official or service passports entry to the territory of the Member States without first consulting the appropriate national authorities. This shall also apply where an alert has been entered in the SIS for this person.

3.4. The documents issued by the international organisations for the purposes specified in point 3.1 are in particular the following:

- United Nations laissez-passers issued to staff of the United Nations and subordinate agencies under the Convention on Privileges and Immunities of Specialised Agencies adopted by the United Nations General Assembly on 21 November 1947 in New York;
- European Community (EC) laissez-passers;
- European Atomic Energy Community (Euratom) laissez-passers;

- legitimacy certificate issued by the Secretary-General of the Council of Europe;
- documents issued pursuant to paragraph 2 of Article III of the Agreement between the Parties to the North Atlantic Treaty regarding the Status of their Force (military ID cards accompanied by a travel order, travel warrant, or an individual or collective movement order).

4. Cross-border workers

4.1. The procedures for checking cross-border workers are governed by the general rules on border controls, in particular Articles 6 and 11. Checks may, however, be relaxed in accordance with Article 7.

4.2. Individuals well known by the border guards due to their frequent crossing of the border at the same border crossing point, and whom, on the basis of an initial check, have not resulted as being subject of an alert in the SIS or in a national data file will be subject only to random checks to ensure that they hold a valid document authorising them to cross the border and fulfil the necessary entry conditions. Thorough checks must be carried out on these persons from time to time, without warning and at irregular intervals.

4.3 Where a Member State decides to adopt a local border traffic regime, the practical simplifications introduced under the regime, as provided for in Articles 4(1) and (2) and 9(1)(d), shall automatically apply to cross border workers.

5. Minors

5.1. Border guards shall pay particular attention to minors, whether travelling accompanied or unaccompanied..

5.2. In the case of accompanied minors, the border guard must check that the persons accompanying minors have parental care over them, especially where minors are accompanied by only one adult and there are serious grounds for suspecting that they may have been unlawfully removed from the custody of the person(s) legally exercising parental care over them. In the latter case, the border guard must carry out further investigation.

5.3. In the case of minors travelling unaccompanied, border guards shall ensure, by means of thorough checks on travel documents and supporting documents, that the minors do not leave the territory against the wishes of the person(s) having parental care over them.
