COUNCIL REGULATION

amending Regulations (EC) No 2015/2006 and (EC) No 40/2008, as regards fishing opportunities and associated conditions for certain fish stocks

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy¹, and in particular Article 20 thereof,

Having regard to Council Regulation (EC) No 1559/2007 of 17 December 2007 establishing a

¹ OJ L 358, 31.12.2002, p. 59. Regulation as amended by Regulation (EC) No 865/2007 (OJ L 192, 24.7.2007, p. 1).

multi-annual recovery plan for bluefin tuna in the Eastern Atlantic and Mediterranean and amending Regulation (EC) No 520/2007², and in particular Article 7 thereof, Having regard to the proposal from the Commission³,

Whereas:

- (1) Council Regulation (EC) No 2015/2006⁴ fixes for 2007 and 2008 the fishing opportunities for Community fishing vessels for certain deep-sea fish stocks.
- (2) The descriptions of certain fishing zones in that Regulation should be clarified in order to ensure the correct identification of the area in which a quota can be fished.
- (3) Council Regulation (EC) No 1559/2007 establishes a multi-annual recovery plan for bluefin tuna in the Eastern Atlantic and Mediterranean and amends Regulation (EC) No 520/2007.
- (4) In order to ensure that the recovery plan is fully implemented, certain measures provided for in Article 7 of that Regulation should be adopted; in particular, the number of vessels authorised to fish for bluefin tuna of below the minimum size in the Atlantic, and their total allowable catch, should be fixed and distributed between the Member States concerned.
- (5) Council Regulation (EC) No 40/2008⁵ fixes for 2008 the fishing opportunities and associated conditions for certain fish stocks and groups of fish stocks, applicable in Community waters and, for Community vessels, in waters where catch limitations are required.
- (6) The coordinates for certain fisheries restrictive areas were inaccurately indicated in that Regulation and should be corrected.

² OJ L 340, 22.12.2007, p. 8.

³ OJ C ..., p. ...

⁴ OJ L 384, 29.12.2006, p. 28. Regulation as last amended by Regulation (EC) No 1533/2007 (OJ L 337, 21.12.2007, p. 21).

⁵ OJ L 9, 23.1.2008, p. 1.

- (7) Annex IA to Regulation (EC) No 40/2008 lays down the provisional catch limits for cod in ICES zones VIIb-k, VIII, IX and X and in EC waters of CECAF area 34.1.1. Following a new scientific assessment of the state of that stock by the International Council for the Exploration of the Sea (ICES), it is important to set the final total allowable catch for that stock.
- (8) Certain quotas and footnotes were inaccurately indicated in that Regulation for certain species and should be corrected.
- (9) Pursuant to consultations between the Community and Iceland on 10 April 2008, an arrangement was reached on capelin quotas for Icelandic vessels to be fished from the Community quota allocated under its Agreement with the Government of Denmark and the local Government of Greenland before 30 April 2008, and on redfish quotas for Community vessels fishing for redfish in the Icelandic Exclusive Economic Zone to be fished between July and December. That arrangement should be implemented in Community law.
- (10) The Agreement established between the European Community, the Faroe Islands, Greenland, Iceland, Norway and the Russian Federation in Copenhagen on 13 and 14 February 2008 regarding the management of redfish in the Irminger Sea and adjacent waters in the NEAFC Convention Area in 2008 should be implemented in Community law. As the Agreement is applicable for the whole of 2008, the measures adopted for its implementation should apply retroactively from 1 January 2008.
- (11) The conclusions of the EU-Greenland Joint Committee meeting in Nuuk on 27 November 2007 and the technical meeting in Copenhagen on 12 February 2008, as regards the EC share of redfish in Greenland waters of ICES zones V and XIV should be implemented in Community law. As the arrangement concluded with Greenland is connected to the NEAFC Agreement on management of redfish in the Irminger Sea, the measures adopted for the implementation of the conclusions of the EU-Greenland Joint Committee meeting should also apply retroactively from 1 January 2008.

- (12) In accordance with the Agreed Record of conclusions of fisheries consultations between the European Community and Norway of 26 November 2007, the Community is to undertake trials in 2008 on technical measures for towed gears to reduce the proportion, in number, of the catch of cod that is discarded to equal to or less than 10 %. That arrangement should be implemented in Community law.
- (13) In order to ensure certainty for the fishermen concerned and to allow them to plan their activities for this fishing season as soon as possible, it is imperative to grant an exception to the six-week period referred to in Title I(3) of the Protocol on the role of national Parliaments in the European Union annexed to the Treaty on the European Union and to the Treaties establishing the European Communities.
- (14) Regulations (EC) No 2015/2006 and (EC) No 40/2008 should therefore be amended accordingly,

HAS ADOPTED THIS REGULATION:
