

COUNCIL OF THE EUROPEAN UNION

Brussels, 25 October 2010

15358/10

COSI 69 ENFOPOL 298 CRIMORG 185 ENFOCUSTOM 94

NOTE

| From: | Presidency |
|---------------|---|
| To: | Council |
| No. prev. doc | 14998/10 COSI 67 ENFOPOL 286 CRIMORG 178 ENFOCUSTOM 89 |
| Subject: | Draft Council Conclusions on the creation and implementation of a EU policy cycle for organised and serious international crime |

- The Standing Committee on operational cooperation on internal security (COSI) agreed on
 October 2010 to establish an EU policy cycle for organised and serious international crime
 and define the different steps needed to fully implement it.
- 2. In its meeting of 31 October 2010, Coreper endorsed the related draft Council Conclusions as set out in document 14998/10 COSI 67 ENFOPOL 286 CRIMORG 178 ENFOCUSTOM 89.
- 3. The Council is therefore invited to approve the Conclusions as set out below and in particular to take note of its role in this cycle, i.e. to take the political decision on JHA crime priorities.

THE COUNCIL OF THE EUROPEAN UNION,

REFERRING TO the Council Conclusions of 12 October 2005¹ regarding the European Crime Intelligence Model (ECIM) providing for a new common concept and methodology to tackle organised crime;

REFERRING TO the Council Conclusions on the Architecture of Internal Security as approved in 2006 in which the establishment of a reference framework for EU internal security consisting of four steps is described²;

RECALLING that the entry into force of the Lisbon Treaty provides the basis and a unique opportunity for developing a security agenda shared by the EU and its Member States with clear roles and responsibilities.

RECALLING that in the Stockholm Programme³, the European Council calls upon the Council and the Commission to define a comprehensive EU Internal Security Strategy based, in particular, on the following principles:

- clarity on the division of tasks between the Union and the Member States, reflecting a shared vision of today's challenges,
- solidarity between Member States,
- reflection of a proactive and intelligence-led approach,
- stringent cooperation between the Union Agencies, including further improving their information exchange,
- the aim of making citizens aware of the importance of the Union's work to protect them and based on the EU common values and principles as reaffirmed in the EU Charter on Fundamental Rights.

² Doc 7039/2/06 JAI 86 CATS 34

³ OJ C 115, 11.5.2010, p. 1

RECALLING that, as set out in the Stockholm Programme developing, monitoring and implementing the Internal Security Strategy should become one of the priority tasks of the Standing Committee on operational cooperation on internal security (COSI) set up under Article 71 TFEU;

RECALLING that in the Stockholm Programme, the European Council calls upon the Council and the Commission:

- to adopt an organised crime strategy, within the framework of the Internal Security Strategy,
- set its priorities in crime policy by identifying the types of crime against which it will deploy the tools it has developed, while continuing to use the Organised Crime Threat Assessment Report (OCTA) and its regional versions;

RECALLING that terrorism, serious and organised crime, cyber-crime, cross-border crime, violence itself, natural and man-made disasters are considered as main challenges for the European Union as identified by the Internal Security Strategy which was endorsed by the European Council at its meeting on 25 and 26 March 2010.

RECALLING that according to the Internal Security Strategy the Commission will adopt a Communication on the Internal Security Strategy, the follow-up of which would need to be aligned to the present Council Conclusions.

RECALLING that, as set out in the Stockholm Programme, "the internal security strategy should also take into account the external security strategy developed by the Union"; account should also be taken of the impact the policy cycle may have on relations with third countries.

15358/10 EB/hm DG H

NOTING the result of the "Harmony" project - "A generic European Crime Intelligence Model - Bringing together the existing instruments and strenghtening Europol's central role" - initiated by Belgium with the support of the European Commission's Framework Partnership Agreement "Prevention of and fight against crime" * While recognizing the importance of the main challenges identified by the Internal Security Strategy, the focus of the project has been initially limited to developing a policy cycle for serious and organised crime.

REFERRING to the first main assessment and description report for internal debate (M.A.D.R.I.D. Report), which was submitted as a basis for the Council's discussion on internal security in June 2010.

BEARING IN MIND that Ministers agreed on 15 July 2010 to work towards an effective implementation of the Internal Security Strategy and, therefore, asked the COSI to develop a methodology that gives an overview of the security issues within Europe, to focus on those threats and challenges that need specific attention and to develop an approach to tackle and monitor these threats and challenges;

CONSCIOUS of the need to further develop and streamline the existing structures and instruments and RECOGNIZING the need to develop a coherent, multidisciplinary and integrated approach in order to increase consistency, efficiency, transparency and accountability in the fight against organised and serious international crime;

RECALLING the creation of the "Comprehensive, Operational, Strategic Planning for the Police" (COSPOL) methodology as a multi-lateral platform for law enforcement cooperation;

CONVINCED that the best way to achieve this approach is by creating and implementing a policy cycle for organised and serious international crime; that such a policy cycle corresponds with the organised crime strategy required by the Stockholm Programme.

⁵ Doc. 14851/10 COSI 66 ENFOPOL 282 CRIMORG 175 ENFOCUSTOM 87

CONCLUDES TO

Establish and implement a multi-annual policy cycle with regard to serious international and
organised crime in order to tackle the most important criminal threats in a coherent and
methodological manner through optimum cooperation between the relevant services of the
Member States, EU Institutions and EU Agencies as well as relevant third countries and
organisations.

The policy cycle for serious international and organised crime consists of four steps:

- i. Policy development on the basis of a European Union Serious and Organised Crime
 Threat Assessment (EU SOCTA) that must provide for a complete and thorough picture
 of criminal threats impacting the European Union.
- ii. Policy setting and decision-making through the identification by the Council of a limited number of priorities, both regional and pan-European. For each of the priorities a Multi-Annual Strategic Plan (MASP) needs to be developed in order to achieve a multidisciplinary, integrated and integral (covering preventive as well repressive measures) approach to effectively address the prioritised threats.
- iii. Implementation and monitoring of annual Operational Action Plans (OAP) that need to be aligned to the strategic goals which have been determined in the MASP, building upon the COSPOL framework as the multilateral cooperation platform to address the prioritised threats.
- iv. At the end of the policy cycle a thorough evaluation needs to be conducted and will serve as an input for the next policy cycle.
- 2. Align the timing and methodology when in the future other policy cycles for areas identified in the Internal Security Strategy were to be created so as to allow the political level to decide at the same time on the priorities.

- 3. Agree and implement an initial and reduced 2 year policy cycle 2011-2013 on the basis of the Organised Crime Threat Assessment of 2011 and following the principles as set out in Annexes 1 and 2. This period allows for the time required to further develop the instruments needed to create a fully fledged 4 year policy cycle.
- 4. Agree, taking into account the result of the evaluation of the initial policy cycle, to and implement a 4 year policy cycle 2013 2017 on the basis of the EU SOCTA 2013 and following the principles as set out in Annex 3 and 4.

INSTRUCTS COSI TO

- 5. Agree and endorse the customer requirements for the EU SOCTA,
- 6. Submit, on the basis of the Policy Advisory Document drafted by the Presidency and the European Commission based upon the OCTA 2011 and the EU SOCTA from 2013 on, conclusions to the Council to decide on the priorities,
- 7. Adopt the Multi-Annual Strategic Plans and the annual Operational Action Plans and coordinate and monitor the implementation thereof.

CALLS UPON THE MEMBER STATES TO

- 8. Integrate the actions developed within the European policy cycle whenever relevant into their national planning and to allocate dedicated resources to support a common EU approach.
- 9. Actively support all the phases that constitute the cycle.

CALLS UPON THE EUROPEAN COMMISSION TO

- 10. Develop together with the experts of the relevant EU Agencies and Member States a Multi-Annual Strategic Plan for each priority, defining the most appropriate strategy to tackle the problem,
- 11. Develop through consultation with the Member States' and EU Agencies' experts an independent mechanism to evaluate the implementation of the MASP and OAPs,
- 12. Report yearly to the COSI on the implementation of planned activities and horizontal cross-cutting issues related to the OAPs,
- 13. Carry out at the end of the policy cycle an overall evaluation of the implementation of the MASP and transmit the results thereof to the Council via the COSI,
- 14. Propose to review the ISEC funding mechanism and to consider the feasibility of setting up of an Internal Security Fund in order to effectively support the activities agreed upon within the policy cycle.

CALLS UPON THE EU AGENCIES TO

- 15. Develop together with the experts of the Member States the Operational Action Plans concerning priorities corresponding to their mandate;
- 16. Integrate the actions developed within the policy cycle into their yearly working programmes;
- 17. Develop under the leadership of Europol the EU SOCTA and its methodology, on the basis of the requirements endorsed by COSI and in close cooperation with the relevant experts;
- 18. Contribute to raising awareness about the EU policy cycle, in particular CEPOL by providing training packages.

15358/10 EB/hm OF H

Policy cycle 2011 – 2013

(Initial and reduced policy cycle for serious international and organised crime)

Important preliminary remark

Acknowledging that a fully fledged policy cycle will only start based on the EU SOCTA 2013, the following approach – as a learning process for the first policy cycle – will be followed based on the OCTA 2011:

- Strategic goal setting by expert group of MS and Agencies per crime priority (commissioned by COSI) area instead of the elaboration of fully-fledged multi-annual strategic plans;
- The conversion of the strategic objectives into operational plans in the COSPOL framework using the template to be developed (see activity 6);
- Covering a time span of two years (instead of a four-year policy cycle) to bridge the period between the OCTA 2011 and EU SOCTA 2013;
- The approach to address the crime priority areas will be organised within the (reviewed)
 COSPOL framework (see activity 13) mainly focusing on law enforcement related issues, instead of an integrated approach.
