THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 137(2) thereof,

Having regard to the Commission's proposal,

Having regard to the opinion of the European Economic and Social Committee¹,

After consulting the Committee of the Regions,

Acting in accordance with the procedure laid down in Article 251 of the Treaty²,

¹ Opinion delivered on 17 January 2006.

requirements regarding the exposure of workers to the risks arising from physical agents (noise)\(^1\), Directive 2004/40/EC of the European Parliament and of the Council of 29 April 2004 on the minimum health and safety requirements regarding the exposure of workers to the risks arising from physical agents (electromagnetic fields)\(^2\) and Directive 2006/25/EC of the European Parliament and of the Council of 5 April 2006 on the minimum health and safety requirements regarding the exposure of workers to risks arising from physical agents (artificial optical radiation)\(^3\).

(3) The provisions on the preparation of reports in the individual Directives within the meaning of Article 16(1) of Directive 89/391/EEC and in Directives 91/383/EEC, 92/29/EEC and 94/33/EC are inconsistent in terms of both frequency and content.

---

(4) The obligations on the Member States to report on the practical implementation and on the Commission to draw up a report on the basis of the national reports are an important part of the legislative cycle, providing the opportunity to take stock of and evaluate the various aspects of the practical implementation of the Directives; it is therefore appropriate to extend this obligation to those directives that do not require reports, namely: Directive 2000/54/EC of the Parliament and of the European Council of 18 September 2000 on the protection of workers from risks related to exposure to biological agents at work (seventh individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC), Directive 2004/37/EC of the European Parliament and of the Council of 29 April 2004 on the protection of workers from the risks related to exposure to carcinogens or mutagens at work (sixth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC) and Council Directive 83/477/EEC of 19 September 1983 on the protection of workers from the risks related to exposure to asbestos at work (second individual Directive within the meaning of Article 8 of Directive 80/1107/EEC).

(5) It is therefore necessary to harmonise the provisions of Directive 89/391/EEC, the individual Directives within the meaning of Article 16(1) thereof and Directives 83/477/EEC, 91/383/EEC, 92/29/EEC and 94/33/EC.

---

(6) The Commission's communication "Adapting to change in work and society: a new Community strategy for health and safety 2002-2006" provides for the drafting of legislative proposals to simplify and rationalise implementation reports. This matter has also been identified as one of the priorities for the simplification of Community legislation in the context of the Better Lawmaking initiative.

(7) The exercise should be simplified by harmonising the intervals for the submission of the practical implementation reports to the Commission and by requiring a single practical implementation report which would include a general part applicable to all the directives and specific chapters relating to the aspects particular to each directive. These provisions, and, in particular, the introduction of a new Article 17a in Directive 89/391/EEC, will furthermore allow the inclusion in this implementation report exercise of the individual Directives within the meaning of Article 16(1) of Directive 89/391/EEC that do not require reports, namely: Directives 2000/54/EC and 2004/37/EC and any future individual directives within the meaning of Article 16(1) of Directive 89/391/EEC.
(8) The appropriate frequency for the Member States to draw up these reports and submit them to the Commission should be five years; the first report should, exceptionally, cover a longer period; the structure of the reports should be consistent to facilitate their exploitation; they should be drawn up on the basis of a questionnaire drafted by the Commission after consulting the Advisory Committee on Safety and Health at Work and include relevant information on the preventive efforts deployed in the Member States so as to allow the Commission, taking into account any relevant findings of the European Agency for Safety and Health at Work and of the European Foundation for the Improvement of Living and Working Conditions, to adequately assess how the legislation works in practice.

(9) In accordance with Article 138(2) of the Treaty, the Commission consulted the social partners at Community level on the possible direction of Community action in this field.

(10) Following this consultation, the Commission considered that Community action was desirable and consulted the social partners at Community level again on the content of the envisaged proposal, in accordance with Article 138(3) of the Treaty.

(11) Following this second phase of consultation, the social partners at Community level did not inform the Commission of their wish to initiate the process which could lead to the conclusion of an agreement, as set out in Article 138(4) of the Treaty.
(12) The Member States should take the necessary measures to transpose the modifications provided for by this Directive, which could, in view of the specific nature of this Directive and if appropriate, take the form of administrative measures,

HAVE ADOPTED THIS DIRECTIVE:

The report shall be transmitted to the Commission within twelve months of the end of the five-year period that it covers.

4. It shall, within 36 months of the end of the five-year period, inform the European Parliament, the Council, the European Economic and Social Committee and the Advisory Committee on Safety and Health at Work of the results of this evaluation and, if necessary, of any initiatives to improve the operation of the regulatory framework.
