Do: COREPER (część II) / Rada
Nr poprz. dok.: 6447/08 INF 18 API 6 JUR 61
Dotyczy: Publiczny dostęp do dokumentów
- Wniosek nr 02/c/01/08 (ponowny) złożony przez pana Ottavia
MARZOCCHIEGO

Delegacje otrzymują w załączeniu projekt odpowiedzi Rady na wniosek nr 02/c/01/08 (ponowny) złożony przez pana Ottavia MARZOCCHIEGO; projekt ten powstał w wyniku analizy przeprowadzonej przez Grupę Roboczą ds. Informacji na posiedzeniu w dniu 15 kwietnia 2008 r.

Delegacje: duńska, słoweńska, fińska i szwedzka stwierdziły, że będą głosować przeciwko projektowi odpowiedzi.

Ponadto złożono następujące oświadczenia:

Delegacja słoweńska: „Ujawnienie danych osobowych pracowników służby cywilnej w związku z pełnieniem przez nich obowiązków służbowych nie stanowiłoby naruszenia ochrony prywatności i integralności osoby fizycznej w rozumieniu art. 4 ust. 1 lit. b) przedmiotowego rozporządzenia. Delegacja słoweńska uważa, że ujawnienie takie nie może zagrażać ochronie prywatności i integralności danych osób, ponieważ informacje te dotyczą ich życia zawodowego (związanego z pracą), a nie – prywatnego. Ponadto wyjątek przewidziany w art. 4 ust. 1 lit. a) dotyczący ochrony stosunków międzynarodowych był dotąd, naszym zdaniem, stosowany w zbyt szerokim zakresie.”;

Delegacja fińska: „Ujawnienie danych osobowych pracowników służby cywilnej w związku z pełnieniem przez nich obowiązków służbowych nie stanowiłoby naruszenia ochrony prywatności i integralności osoby fizycznej w rozumieniu art. 4 ust. 1 lit. b) przedmiotowego rozporządzenia. Ponadto wyjątek przewidziany w art. 4 ust. 1 lit. a) dotyczący ochrony stosunków międzynarodowych był dotąd stosowany w zbyt szerokim zakresie.”;

Delegacja szwedzka: „Publicznego dostępu do dokumentów można odmówić jedynie na podstawie przepisów zawartych w rozporządzeniu 1049/2001. Ujawnienie danych osobowych pracowników służby cywilnej w związku z pełnieniem przez nich obowiązków służbowych w większości przypadków nie stanowiłoby naruszenia prywatności lub integralności tych osób. Można również podawać w wątpliwość, czy ujawnienie nazwisk pracowników służby publicznej UE mogłoby naruszyć ochronę stosunków międzynarodowych. Ponadto w można by ujawnić więcej informacji zawartych w niektórych dokumentach będących przedmiotem wniosku, nie naruszając ochrony stosunków międzynarodowych.”.

Wobec powyższego Komitet Stałych Przedstawicieli jest proszony o zaproponowanie Radzie, aby na najbliższym posiedzeniu:

- zatwierdziła jako punkt A projekt odpowiedzi załączony do niniejszego dokumentu i uwzględniła przy tym sprzeciw delegacji duńskiej, słoweńskiej, fińskiej i szwedzkiej;
- podjęła decyzję o publikacji wyniku głosowania.

Załącznik jest dostępny wyłącznie w wersji angielskiej.

DRAFT

REPLY ADOPTED BY THE COUNCIL ON
TO CONFIRMATORY APPLICATION 02/c/01/08
made by Mr Ottavio MARZOCCHI to the Council
by e-mail on 4 February 2008,
registered by the General Secretariat of the Council on 5 February 2008,
pursuant to Article 7(2) of Regulation (EC) No 1049/2001,
for public access to documents

The Council has considered the application under Regulation (EC) No 1049/2001 (OJ L 145 of 31.5.2001, p. 43) and Annex II to the Council's Rules of Procedure (Council Decision 2006/683/EC, Euratom - OJ L 285 of 16.10.2006, p. 47) and has come to the following conclusions:

1. The applicant requested public access to:
 - a) all documents related to the negotiations of the 2007 Agreement between the European Union and the United States of America on the processing and transfer of passenger name record (PNR) by air carriers to the United States Department of Homeland Security (DHS),
 - b) documents related to the work of the EU-US High Level Contact Group on Data Protection (HLCG);
 - c) the documents related to the confidentiality of the documents of the PNR negotiations, namely documents 12305/07, 12307/07 and 12309/07.

The documents mentioned under points a) and b) are listed in the tables at annexes I and II.

2. Owing to the large number of documents related to the application and taking into account the numerous consultations, the initial application could not be treated within the deadlines laid down in Articles 7(1) and 7(3) of the Regulation. By letter of 2 October 2007, the General Secretariat proposed to extend the time limit to reply to the application in accordance with Article 6(3) of the Regulation 1049/2001.

3. In its reply dated 16 January 2008, the General Secretariat :

a) fully released

- the following documents concerning the PNR agreement: 11, 16, 17, 21, 23, 61, 62, 63, 67, 72, 73, 75, 76, 95, 96, and 97 as indicated in the table at annex I;

as well as

- the following documents relating to the work of the High Level Contact Group on Data Protection: 12, 13, 14, 25, 31, 32 and 33 as indicated in the table at annex II;

b) granted partial access to

- another four documents on the PNR agreement, i.e. documents 15, 22, 69 and 79 as indicated in the table at annex I,

and to

- one document concerning the work of the High Level Contact Group on Data Protection, i.e. document 11 as indicated in the table at annex II.

As regards document 22 on the PNR agreement, public access was denied under Article 4(1) (a), third indent, of Regulation 1049/2001 (protection of the public interest as regards international relations), to those parts which contain opinions and assessments with a bearing on the current and future negotiations between the European Union and the United States, and which, if disclosed, could prejudice the relations between the two parties.

With regard to documents 15, 69 and 79 on the PNR agreement and document 11 relating to the work of the EU-US High Level Contact Group on Data Protection, public access was denied, pursuant to Article 4 (1) (b) of the Regulation (protection of privacy and the integrity of the individual), to those parts which contain personal data.

c) Finally, the General Secretariat refused to grant public access to the remaining documents mentioned in the tables at annexes I and II and the documents mentioned under point 1 c) pursuant to Article 4(1)(a), third indent, of the Regulation (protection of the public interest with regard to international relations).

4. The applicant filed a confirmatory application on 4 February 2008, requesting public access to all documents identified by the General Secretariat, which have not been fully released to the public, and to any other document that it could have failed to identify.

The applicant's arguments can be summarised as follows:

- a) Firstly, the applicant would like to have a clarification on the following issues:
- in the applicant's view, the CD-ROM and the letter received from the General Secretariat *"do not seem to match completely"*;
 - he would like to know the Council reference numbers in the public register of Council documents corresponding to the documents identified by the General Secretariat;
 - the applicant considers that the number of documents identified by the General Secretariat in the initial phase is *"extremely low"* and asks the Council to verify the list of documents related to the PNR agreement and to the HLCCG.;
- b) Secondly, the applicant believes that, with regard to the General Secretariat's refusal to grant access to parts of certain documents pursuant to Article 4(1)(b) of the Regulation (protection of privacy and integrity of the individual), *"the Council has not taken into proper consideration the fact that the names of the persons could for instance be released, notably as they are carrying official functions"*. In this respect, the applicant refers to *"the fact that the Court of Justice has recently clarified the relation between access to documents and privacy"*;

- c) Thirdly, the applicant has doubts about the legitimacy of the wide application by the General Secretariat of the exception indicated in Article 4(1)(a), third indent, of the Regulation (protection of the public interest with regard to international relations) as this exception is excluded from "*a public interest test*". In the applicant's view, the exception indicated in Article 4(3) of the Regulation (protection of the institution's decision-making process) could be applied instead.

Furthermore, the applicant would like to know, with respect to the third-party documents identified in the initial phase, whether the General Secretariat has consulted the third party in question pursuant to Article 4(4) of the Regulation;

- d) Finally, the applicant asks the Council to provide access to the documents in question to the Members of the European Parliament, as foreseen by Article 9(7) of the Regulation.

5. The Council has examined the documents on a case-by-case basis in the light of the applicant's arguments and carried out new consultations with the relevant department of its General Secretariat. It has reached the following conclusions.

Handling of the request in the initial phase

6. The Council confirms that the content of the CD-ROM received by the applicant in the initial phase corresponds with the text of the letter sent by the General Secretariat. It would however like to clarify that the letter "P" as mentioned in the tables at annex to the GSC's letter was used for indicating partial or full access to a document. In the list of documents relating to the PNR Agreement, the documents mentioned under nos. 24 and 92 are the same (document 5997/07). The Council apologizes for these clerical errors.

7. As regards the question concerning the Council reference numbers of the identified documents, the Council would like to clarify that, in principle, all non-sensitive documents¹ submitted to the Council or to one of its preparatory bodies which are to serve as a basis for deliberations, could influence the decision-making process or reflect the progress made on a given subject, are circulated as so-called "ST" (standard) documents and are automatically listed in the Council' electronic register. However, the recording of all internal, preparatory or ephemeral documents on the Council's register could not be reasonably expected as this would place disproportionate administrative burden on the institution. Documents not circulated to Member State delegations — including the documents identified by the Council Secretariat in the present case which do not bear an official number — are kept and filed by the competent Directorates-General.

8. The Council confirms that the General Secretariat has identified, in the initial phase, all negotiation documents concerning the PNR agreement and all the documents related to the works of the High Level Contact Group on Data Protection (HLCG) as requested by the applicant.

The Council decided on 22 February 2007 to authorise the Presidency, assisted by the Commission, to open the negotiations on the PNR agreement, which was adopted by the Council on 23 July 2007. The documents identified by the General Secretariat cover this negotiation period.

Regarding the HLCG, the documents identified by the General Secretariat cover the period starting from 8 February 2007, when the preparations for discussions on this matter were initiated, until December 2007. These discussions are still on-going, and the documents produced in 2008 are not included in the list.

¹ For the purposes of Regulation (EC) No 1049/2001, "sensitive documents" means security-related documents classified as "CONFIDENTIEL", "SECRET" or "TRÈS SECRET/TOP SECRET", pursuant to Article 9(1) of that Regulation.

Application of the exceptions laid down in Article 4 of the Regulation

9. With regard to the protection of certain parts of documents 15, 69, 79 (PNR Agreement) and document 11 (HLCG) on the basis of Article 4(1)(b) of the Regulation, the Council notes the following: as specified by the General Secretariat, these parts contain names, personal addresses and e-mail addresses, which constitute ‘information relating to an identified or identifiable natural person and thus personal data within the meaning of Article 2(a) of Regulation 45/2001.’²

At the time the documents were drawn up, it was not envisaged that this information be put in the public domain. Releasing this information at this stage would equal processing for a different purpose than that for which the data have been collected, which is prohibited under Article 6 of the same Regulation. The General Secretariat did not obtain the explicit consent of the persons concerned to the disclosure of their personal data. Article 4(1)(b) of Regulation (EC) 1049/2001 requires the Council to refuse public access to those parts of the documents that cover privacy and the integrity of the individual, in particular in accordance with Community legislation regarding the protection of personal data.

Contrary to what the applicant claims, the Court of Justice has not yet pronounced on the interpretation of Article 4(1)(b) of the Regulation. In fact, the Council intervenes in Case C-28/08 (Commission v. Bavarian Lager Co. Ltd) in support of the Commission's appeal against the judgment of the Court of First Instance, in which that Court interpreted the relationship between the right of public access to documents and the protection of the privacy and the integrity of the individual, as regards the processing of personal data.

² Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data, OJ (2001) L8/1.

10. As regards documents 1 to 10, 12 to 20, 22, 24 to 60, 64 to 66, 68 to 71, 74 and 77 to 94, as specified in the table at Annex I (PNR Agreement), public access was refused in their entirety or partially pursuant to Article 4(1)(a), third indent, of the Regulation. For each of these documents, the following applies:

As specified by the General Secretariat, these documents set out in detail the negotiation positions adopted by the EU and the United States in the course of these negotiations. Release of this information to the public would enable other third countries to assess the measure of willingness of the EU and the US to reach a compromise and could therefore seriously affect the negotiating position of the EU and of the US in current and future negotiations with third countries on similar subjects. For precisely those reasons, the US authorities addressed a letter to the EU Presidency relating to the confidentiality of the negotiation documents (documents 12305/07, 12307/07 and 12309/07).

11. As regards documents 1 to 11, 15 to 24, 26 to 30 and 34 to 36, as specified in the table at Annex II (HLCG), public access was refused in their entirety or partially pursuant to Article 4(1)(a), third indent, of the Regulation. For each of these documents, the following applies:

The High Level Contact Group on Data Protection was set up in November 2006 to discuss information sharing and protection of personal data for law enforcement purposes, as part of a wider reflection on how best to prevent and fight terrorism and serious trans-national crime. This should enable the EU and the US to work more closely together by exchanging information in the field of internal security while ensuring that the protection of personal data and privacy are guaranteed. The discussions started in February 2007 and the works of this High Level Contact Group have not finished yet.

The documents concerned contain a detailed overview of EU and US positions on the common principles on data protection related to the collection or transfer of personally identifiable information for law enforcement purposes.

Given the sensitive content of the documents, the Council considers that their disclosure would be detrimental to the relations between the EU and the US. Such disclosure would hinder the diplomatic efforts being made by the two sides to find constructive solutions in these areas. If the United States had reason to believe that the positions it has taken in meetings not open to the public may be made public unilaterally by the EU side, it would be difficult, if not impossible, to address controversial issues in this format in the future. This would not only breach the mutual confidence in the future negotiations but also, in turn, make it considerably more difficult to reach an agreement between the two sides. This would impair the possibility of the EU to reach agreements with the US in future negotiations on sensitive issues. Therefore, public access to these documents or parts of these documents is not possible pursuant to Article 4(1)(a), third indent, of the Regulation.

Privileged access of the applicant to the requested documents

12. As for the applicant's request that privileged access should be considered for Members of the European Parliament, the Council draws the applicant's attention to the fact that an applicant's specific interest in gaining knowledge of the requested documents cannot be taken into account by the institution when assessing a request for public access to documents, given that the purpose of Regulation 1049/2001 is to give the general public a right to access to documents of the institutions and not to lay down rules on privileged access. When the Council releases a document pursuant to Regulation 1049/2001, it is obliged to do so *erga omnes*.³ Privileged access, such as suggested by the applicant, is therefore not possible.

As regards the request for privileged access by Members of the European Parliament to the documents concerned pursuant to Article 9(7) of Regulation 1049/2001, the Interinstitutional Agreement between the European Parliament and the Council concluded pursuant to this provision⁴ applies to the access by certain members/committees of the European Parliament to sensitive documents in the field of CFSP/ESDP. The scope of that interinstitutional agreement does not extend to sensitive documents of the Council in the field of freedom, security and justice.

³ Article 10(2) of Annex II to the Council's Rules of Procedure, OJ L 285 of 16.10.2006, p. 63.

⁴ Interinstitutional agreement of 20 November 2002 between the European Parliament and the Council concerning access by the European Parliament to sensitive information of the Council in the field of security and defence policy, OJ C 298 of 30.11.2002, p. 1.

13. In the light of the above, and without prejudice to point 14, the Council confirms the General Secretariat's approach in reply to the applicant's initial request. Public access to the documents indicated in points 3 b) and 3 c) and listed in annexes I and II as well as those mentioned under point 1c) must be refused by virtue of Article 4(1)(a), third indent, and Article 4(1)(b) of the Regulation (protection of the public interest with regard to international relations and protection of privacy and the integrity of the individual). With regard to those documents originating from third parties, the Council has not deemed it necessary to conduct any further consultations pursuant to Article 4(4), as it is clear from the examination of the documents in question that they contain sensitive information which should not be disclosed pursuant to Article 4(1)(a), third indent, of the Regulation.

14. Nevertheless, in the light of further internal consultations, the Council has decided:

- a) - to release document 12305/07 concerning the confidentiality of negotiation documents (see point 1c)) in full;
- to grant partial access to documents 12307/07 and 12309/07 (see point 1c)) on the same subject (pages 1 and 2 of each document);
- b) - to release in its entirety document 58 on the PNR agreement (Commission room document DS 590/07 for Coreper of 29/06/2007- see table at Annex I);
- to release parts of the following documents on the PNR agreement (see table at Annex I):

 - * Nr 93: e-mail of 5 February 2007 (release of the annex which is put in the public domain by the US authorities)

- c) - to release documents 20 and 27 in their entirety on the work of the HLCG (see table at annex II), since these documents have been put in the public domain by the US authorities;
- to release parts of the following documents on the work of the HLCG (see table at Annex II):

The above-mentioned documents and parts of documents are, in the Council's view, no longer covered by any exception of the Regulation.
